

TYNE AND WEAR FIRE AND RESCUE AUTHORITY**ANNUAL GOVERNANCE STATEMENT 2010/2011****1 SCOPE OF RESPONSIBILITY**

- 1.1 The Tyne and Wear Fire and Rescue Authority (the Authority) is responsible for ensuring that its business is conducted in accordance with the law and proper standards, and that public money is safeguarded and properly accounted for, and used economically, efficiently and effectively. The Authority also has a duty under the Local Government Act 1999 to make arrangements to secure continuous improvement in the way in which its functions are exercised, having regard to a combination of economy, efficiency and effectiveness.
- 1.2 In discharging this overall responsibility, the Authority is responsible for putting in place proper arrangements for the governance of its affairs, facilitating the effective exercise of its functions, which includes arrangements for the management of risk.
- 1.3 The Authority has had a Code of Corporate Governance in place since 2003, revised during 2009/10. This Code has been drafted alongside the annual governance review required for the production of this Statement and will be submitted to the Authority and its Governance Committee in June 2011 for approval and adoption. The revised Code will then be made available on the Authority's website (www.twfire.gov.uk) or can be obtained from the Fire and Rescue Service Headquarters.
- 1.4 This Statement explains how the Authority has complied with the SOLACE/CIPFA Framework and also meets the requirements of regulation 4(2) of the Accounts and Audit Regulations 2003 as amended by the Accounts and Audit (Amendment) (England) Regulations 2006 in relation to the publication of a statement on internal control.

2 THE PURPOSE OF THE GOVERNANCE FRAMEWORK

- 2.1 The governance framework primarily includes systems and processes by which the Authority directs and controls its activities and engages with the community. Further it enables the Authority to monitor the achievement of its strategic objectives and to consider whether those objectives have led to the delivery of appropriate, cost-effective services.
- 2.2 The system of internal control is a significant part of that framework and is designed to manage risk to a reasonable level. It cannot eliminate all risk of failure to achieve policies, aims and objectives and can therefore only provide reasonable and not absolute assurance of effectiveness. The system of internal control is based on an ongoing process designed to identify and prioritise the risks to the achievement of the Authority's policies, aims and objectives, to evaluate the likelihood of those risks being realised and the impact should they be realised, and to manage them efficiently, effectively and economically.

2.3 The governance framework has been in place at the Authority for the year ended 31st March 2011 and up to the date of approval of the Annual Report and Statement of Accounts.

3 THE GOVERNANCE FRAMEWORK

3.1 **There is a clear vision of the Authority's purpose and intended outcomes for service users that is clearly communicated, both within the organisation and to external stakeholders:**

- The Strategic Community Safety Plan draws together a shared vision, principles for action and priorities (strategic objectives). For each strategic objective, key targets have been identified. The Plan sets out explicitly the key actions and performance targets for the future, and these are clearly linked with functional/departmental/district/station service plans and resources. The Plan outlines the Authority's roles and responsibilities, the context in which it operates, what the Strategic Priorities and improvement objectives are, how the Authority will realise its vision, what its performance improvement and monitoring arrangements are, performance indicators and a financial overview. The financial overview section provides background commentary to the issues the Authority has considered in setting the Budget and in preparing the Medium Term Financial Strategy.

•

- The Authority's Integrated Risk Management Plan (IRMP) 2010/2013 is the Authority's own overarching Plan for recognising the risks within the Authority boundaries that need to be addressed, and providing detail on how those risks are being mitigated.
- Communication of objectives to staff and stakeholders takes place through the following means:

Wide distribution of the Strategic Community Safety Plan, as well as a summary version, including on the Authority's website and intranet;

Wide distribution of the Authority's Integrated Risk Management Plan;

3.9 Arrangements for whistle-blowing and for receiving and investigating complaints from the public are in place and are well publicised:

- The Authority is committed to establishing and maintaining effective reporting arrangements to ensure that, where an individual, whether an employee of the Authority, an Elected Member, or any member of the public, has serious concerns regarding the conduct of any aspect of the Authority's business, they can do so through a variety of avenues, promptly and in a straight forward way.
- The framework in place to ensure the aims of this Policy are met are set out in the 'Whistle Blowing Policy Arrangements' procedure for Authority staff. Members of the public currently raise issues through the Compliments, Comments and Complaints procedure and there has recently been developed a whistle blowing policy and procedure for members of the public.
- Monitoring records held by the Deputy Clerk on behalf of Members, and the Chief Fire Officer on behalf of staff and members of the public reveal that the whistle blowing arrangements are being used, and that the Authority is responding appropriately. 4 REVIEW OF EFFECTIVENESS

- 4.1 The Authority has responsibility for conducting, at least annually, a review of the effectiveness of its governance framework including the system of internal control. The review of the effectiveness is informed by feedback from Members and the work of all senior managers within the authority who have responsibility for the development and maintenance of the governance environment, the Internal Audit Annual Report, and also by comments made by the external auditors and other review agencies and inspectorates.
- 4.2 The process that has been applied in maintaining and reviewing the effectiveness of the system of internal control includes the following:
- The role of the Authority:
 - Elected Members have participated in the annual review of the Authority's Corporate Governance arrangements;
 - The Chair of the Authority, the Chief Fire Officer and the Finance Officer have overseen the review and signed the Annual Governance Statement.
 - The role of the Strategic Management Team:
 - The findings of the Annual Governance Review have been reported to the Strategic Management Team for their consideration and approval of the Annual Governance Statement.
 - The role of the Governance Committee:
 - The findings of the Annual Governance Review have been reported to the Governance Committee. Under their Terms of Reference the Governance Committee has satisfied themselves that the authority's assurance statements, including the Annual Governance Statement, properly reflect the risk environment and any actions required to improve it.

- There is a system of scrutiny which allows the Governance Committee and the Performance and Review Committee to:
 - review decisions made or actions taken in connection with the discharge of any of the Authority's functions;
 - make reports and recommendations to the full Authority or the Strategic Management Team in connection with the discharge of any functions;
 - consider any matter affecting the delivery of service; and
 - exercise the right to call-in, for reconsideration, decisions made but not yet implemented.
- The role of the Authority's Governance Committee also includes the following:
 - promoting and maintaining high standards of conduct by Members, co-opted members and Officers;
 - monitoring the operation of the Members' Code of Conduct;
 - monitoring the operation of the Authority's Anti-Fraud and Corruption Policy so far as it relates to the actions of Members of the Authority;
 - considering reports and complaints relating to the conduct of Members of the Authority;
 - supporting the Monitoring Officer in his role.
- All Area Managers have participated in the annual governance review through carrying out self-assessments relating to their areas of responsibility and have provided Controls Assurance Statements relating to their area of responsibility, having considered the detailed self-assessments.
- Internal audit planning processes include consultation with the Principle Officers, reviews of the Strategic Community Safety Plan, Integrated Risk Management Plan and the Corporate Risk Profile. Audit work is risk based audit work and includes risks in relation to the achievement of service objectives, and Internal Audit Services carries out regular systematic auditing of key financial and non-financial systems. The Audit Commission have conducted a review of the effectiveness of Internal Audit Services and concluded that there are robust arrangements in place to comply with the standards of the 2006 CIPFA Code of Practice for Internal Audit.
- The Annual Audit and Inspection letter stated that the Authority has maintained the strengths we identified last year in relation to financial planning and reporting, internal control, governance and partnership arrangements. We also note a number of improvements as follows:
 - Performance monitoring and management had developed significantly, with a performance action group established to improve accountability and share best practice. Detailed incident reports at district and station levels have enabled more focussed preventative activity;
 - Costs and performance have generally improved relative to other metropolitan fire services, with continued reductions in the number of deliberate and accidental primary fires, high levels of public satisfaction with the service, better targeting of preventative and community safety

work and generally good outcomes from partnership initiative. All key activity objectives have been met;

- There is an increasing willingness to challenge established ways of doing things, with rigorous cost/benefit analysis and an expectation that all staff will identify and deliver efficiencies within their own service areas. Back office functions have also been reviewed using 'lean thinking' techniques;
- Management of natural resources was assessed as a value for money criteria for the first time in 2009/10. The Authority displays a clear commitment to managing its impact on the environment, and has delivered a number of successful outcomes in this area.
- Tyne and Wear Fire and Rescue Authority manages its finances well, and has developed a much clearer focus on value for money in recent years. In 2009/10 it completed a comprehensive review of back office services and reported efficiency savings well in excess of national targets. A culture has been successfully developed whereby all staff take responsibility for identifying and delivering efficiencies in their own service areas.
- The Authority recognises that the future may demand more difficult choices and changes to the established patterns of service provision. It may also wish to reconsider the future use of longstanding earmarked reserves and provisions in the light of changing circumstances.

Inevitably there remains some scope for improvement. Deliberate secondary fires remain high compared to other metropolitan fire authorities, as do automatic fire alarm call-outs, and the Authority has plans in place to tackle these areas in the coming the year.

- Findings of external bodies / audits are collated / monitored by the Strategic Management Team.

5 ASSURANCE STATEMENTS

- 5.1 The Strategic Management Team, the Authority and the Governance Committee have advised us of the findings of the review of the effectiveness of the governance framework, and an action plan has been agreed for the continuous improvement of the Authority's Corporate Governance and Internal Control Arrangements.
- 5.2 We propose over the coming year to take steps to implement the action plan to further enhance the Authority's governance arrangements. We are satisfied that these steps will address the need for improvements that were identified in the review of effectiveness and will monitor their implementation and operation as part of the next annual review.
