With regard to the area comprising Millfield and St. Michael's Wards Members were advised that all crime had reduced by 10%. There was a reduction in crime of 21% in Millfield and an increase of 5% in St. Michaels although this was an increase of only 9 offences.

Criminal damage in the area had reduced by 12% although there was an increase of 22% in Millfield which was 9 more offences. In St. Michael's there was a reduction of 9%.

Violent crime had reduced by 31% in St. Michael's and 32% in Millfield

Vehicle crime had reduced by 25% overall with a reduction of 51% in Millfield and an increase of 40% in St. Michael's which was an increase of 13 crimes.

Burglary from dwellings had reduced by 31% in St. Michael's and had not changed in Millfield with 18 crimes in both years.

In Ryhope all crime had increased by 17%, while in Hendon all crime had reduced by 25%.

In Ryhope violent crime increased by 11 offences which was a 110% increase on last year.

In Hendon criminal damage reduced by 35% while in Ryhope there was no change.

Burglary from dwellings decreased by 8% in Hendon and increased by 66% in Ryhope.

Councillor M. Forbes asked if there was a reason for the increases.

Inspector Tallentire advised that the figures were a comparison with last year which was an exceptional year for crime reduction although if the figures over the last two years were used then there would be a reduction shown.

Councillor O'Connor asked whether the reduction in car crime in Millfield was due to a certain individual being arrested.

Inspector Tallentire stated that there were a number of factors involved including crime prevention campaigns although there were two good arrests last month.

Councillor Paul Maddison asked about the campaign against car crime mentioned in the Sunderland Echo.

Inspector Tallentire replied that Operation Envelope is designed to advise the public in order to reduce vehicle crime, it was in association with the Council. Employees of the Council such as Parking Enforcement Officers would identify vehicles with valuables left on display. Letters would then be sent to the owner of the vehicle advising them of the risks of leaving valuables on display.

Councillor P. Dixon stated that the figures were not bad and asked about the increase in Criminal Damage.

Inspector Tallentire advised that the City Centre makes the figures seem worse as it was natural for there to be an increase in violent crime in the city centre at the weekend. He also advised that there was a campaign against criminal damage although the first night had been bad with 20 vehicles damaged and that next month there should be a decrease recorded. He also stated that an arrest had been made for nine of the offences.

2. RESOLVED that the presentation on crime statistics relating to the East Sunderland Area be received and noted.

Inspector Tallentire then advised the members that there were concerns over the future of the taxi marshalling scheme as funding would soon end and that while it was a popular scheme finance was an important factor in its future.

The Chairman commented that Inspector Tallentire was right to inform the Committee now, before the funding was needed for the scheme.

Councillor Forbes stated that it was a matter of concern and that it was integral to the Safer City Objective of the Sunderland Strategy and asked what steps were being taken.

Councillor P. Dixon suggested that the Licensed Premises in the area could pay a contribution to the scheme.

Inspector Tallentire advised that the LMAPS would be looking at alternate ways to manage problems and that money is an important factor especially in the current economic climate which has seen a reduction in trade for Licensed Premises.

Mr Hounsell stated that there was a formula used in association with the information available on demographic change in order to anticipate the changes.

Councillor Ball commented on the delivery of meals and the evening care provision.

Mr Hounsell advised that he would need to find additional information to respond fully but advised that with the meal delivery service there was previously a fresh meal delivery service however consultation showed that service users preferred to receive frozen meals. He also advised that frozen meals were more cost effective and this meant that the provision of nutritional meals was more sustainable.

He advised that with regards to the late evening service that the scheme helped around 300 people get into bed and that there was an aim to assist people between 9:30 and 11:30 and that there was a focus on trying to help users into bed at a time which suited them most.
