At this juncture the Chairman suggested that application 12/03113/FUL be considered first as the applicant was in attendance for that item.

12/03113/FUL – Erection of 39 no dwellings (Use Class C3), landscaping, parking and associated highways works at land off Pattinson Road, Pattinson Industrial Estate, Washington

The representative of the Deputy Chief Executive presented the application as set out in the body of the supplementary report, advising that following negotiations there would now be four units of affordable housing included within the development.

Members were also informed that Children's Services had identified a requirement for 5.1 additional school places and as a result of this the applicant had agreed to enter into a Section 106 agreement towards the provision of six additional school places at either JFK or Barmston Primary School.

Councillor Padgett commented that he was greatly in favour of the proposed development and asked if there had been any representations made from nearby residents or Northumbrian Water during the consultation process. The Officer advised that Northumbrian Water had raised some concerns over concerns received from residents in close proximity to the Washington Sewage Treatment Works but that these were not a day to day occurrence and it was not considered that the works had been or are a statutory nuisance.

Furthermore, it was acknowledged that new housing may well lead to additional complaints but that should an odour problem occur then the existing householders located in Teal Farm would continue to complain, therefore the proposed additional housing may add to the pressure, but not to the need, to address any odour problems if and when they occur.
