Sunderland was chosen as the base of Nissan for 36Zero, a flagship Electric Vehicle (EV) Hub that will create a world-first EV manufacturing ecosystem. Comprised of three interconnected initiatives, Nissan EV36Zero brings together electric vehicles, battery production and a renewable energy microgrid with a new AESC Gigafactory under construction. Further investment was announced by Nissan recently with two additional electric models to be built in Sunderland with associated supply chain investment opportunities. DYNAMIC SMART	More local people with better qualifications and skills.	:	The qualifications and skills which Sunderland's residents have may not match the needs of industry in the City.	Employer entry level qualification requirements not well met by a population who have a lower than average achievement of 1 & 2 skills. The national curriculum drives an academic agenda and schools have very little scope to tailor curriculum or follow vocational routes. High attainment at Primary School isn't matched at KS4 . City has comparatively fewer residents with degrees as many leave to work in other areas of the UK.	Sunderland residents are less able to access all of the employment opportunities that are created in the City and on average earn less than non-resident Sunderland workers.	City Plan. City Board	4 3	3 12	4	2 4	The impact of school improvement activity is leading to better Ofsted outcomes for shoools and an improvement in the attainment gap between FSM and non-FSM pupils, which is impressive given the increased no of pupils who are now FSM eligible. The impact of the pandemic on educational attainment is still uncertain although Adult Skills performance improved during and after the pandemic with all providers reporting higher numbers of adults securing work (the second highest performing LA in England in 2023). The North East Automotive Alliance (NEAA), has now produced the local skills improvment plan (LSIP) and both previous and the final call for UKSPF funding has been aligned with the growth objectives in the plan. The adult education budget (DfE grant funding) is now delegated to NEMCA in advance of the new combined authority coming into existence and the existing grant has been retained with significant additional boot camp funding bid for. If sucessful the skills offer for Sunderland adults will be enlarged. There is improved alignment between adult skills team, public health and the social prescribing team to ensure that community learning opportunities are strengthened for those residents with health inequalities and impairments. Building work has now commenced on Housing Innovation and Construction Skills Academy (HICSA) - a ground-breaking facility that will educate, train and upskill the people of Sunderland to create innovative factory-built new homes, the first of which will be assembled at Riverside Sunderland. The Sunderland Education, Training & Employability Online Directory has been developed in partnership with Together for Children, Sunderland Information point and local partners. An easy to use on-line resource bringing together local providers and organisations that offer a wide variety of education, training and employability courses to the people of Sunderland. It will support those who are planning their career, wanting to gain new qualifications or improve their employability skills. Outstanding Ofsted outcome	4 1	4	4	1 4	ILACS Ofsted Report August 2021 "Leaders and managers are confident, ambitious and influential in changing the lives of local children, young people and their families including cared for children and care experienced young people." "A new and vibrant culture is now widespread across children's services in Sunderland. This successful approach has resulted in children's voices and influence being central to assessments, planning and interventions. Staff across the council and the multiagency partnerships are hugely focused on seeking to identify vulnerabilities and needs, providing support for children and families before problems escalate. JTAI (Ofsted, CQC & HMICFRS) report January 2023 reinforces the view that Ofsted continue to see evidence of high quality service interventions from TTC providing assurance therefore that the service has not deteriorated since the full ILACS judgement in 2021. A further Ofsted Focused Visit in October 2023 referenced that for children in need and those subject to a child protection plan, recieve timely and effective support when they need it. Their needs are assessed by highly skilled and committed workers, who develop clear plans to make children safer. QA and performance management systems ensure that leaders have a firm grip on the quaity of practice, and know their service well. First registered provider nationally (2023) of supported accommodation for over 16 year olds is evidence of the continued focus or doing whaf's best for children whilst securing high levels of regulatory compliance. TfC also allowed Ofsted to pilot the supported lodgings inspection framework in Sunderland which provided an early opportunity to test current provision against the new framework.
