SUSTAINABILITY IMPACT FILTER - SCORECARD

This table assesses whether the decision being developed/proposed potentially has significant sustainability impacts, and therefore requires a full sustainability impact appraisal to be carried out by the Sustainability Team

The full sustainability impact appraisal will identify where the decision can be improved to address sustainability priorities as outlined by the Sunderland Strategy and Local Area Agreement

Please enter the information required in the last column which most closely represents your decision. Answer all applicable questions.

Cost	Description				Enter Project / service cost, £
1	Total cost of the decision	If the decision cost is less than £75,000, you do not need to fill in this form. Enter the full decision value, not annual amounts. Enter amount with all zeros, e.g. 250,000 - do not entre abbreviations, e.g. 75K or 1.2M.		£1,900,000	
Economy	Description	Insignificant (Score "0")	Moderate Significance (Score "1")	Major Significance (Score "2")	2
2	Are goods and services required available from Sunderland	No potential to use local suppliers of goods / services, which has been confirmed through local business searches	No searches carried out yet for possible local suppliers	Searches done, and several local suppliers exist	2
3	Could the decision create employment in Sunderland directly (i.e. funding salaried posts), or indirectly (i.e. increasing demand for labour to provide services)	None expected	Some increased employment expected, up to 50 jobs	Significant employment expected, over 50 jobs, either directly, or indirectly	2
Sustainability	Description	Sector	Details		Enter 1 if applicable
-	The services listed opposite	Construction	buildings, highways and local roads, operations and maintenal operating costs of hospitals, care homes, social care		1
					0
	tend to have the largest	Health and Social Care	operating costs of hospitals, ca		0
