

Agency level data

Introduction

This spreadsheet provides local level information on the adoption process, derived from the quarterly Adoption Leadership Board (ALB) adoption survey, covering quarters 1 to 4 of 2014-15.

Information is provided in three tables: the first gives information on child progress through the adoption process ("Adoptions LA" tab); and two further tabs cover adopter progress, one for local authority (LA) recruitment and another for voluntary adoption agency (VAA) recruitment ("Adopters LA" and "Adopters VAA" tabs).

Notes on the tables

In quarter 1 2014-15, all agencies provided a return; in quarter 2 2014-15, two local authorities and one voluntary adoption agency did not; in quarter 3 2014-15, one local authority and one voluntary adoption agency did not; in quarter 4 2014-15 seven local authorities and one voluntary adoption agency did not.

In quarter 1 2014-15, the response rate for the child level section of the return was 100% and so national and regional figures on adoptions are based on full returns. Estimates have not been made for the two missing local authorities in quarter 2 2014-15 and one missing local authority in quarter 3 2014-15. Estimates have been made for the eight missing local authorities in quarter 4 2014-15.

The response rate for the adopter level section of the return was 95%, 96%, 95% and 95% respectively in quarters 1, 2, 3 and 4. Therefore national and regional figures on adopters include estimates made for non-responses. Estimates are made by scaling to the regional level based on the number of adoptions in each LA during 2013-14 (from the SSDA903 data).

All regional and LA level data in this pack relate to LA activity only; data collected from VAAs relate to adopter recruitment only and so child level information for VAAs is not applicable.

Data from the quarter 4 2014-15 return has been used as returned. It has been assumed that agencies provided data for quarters 1-4 2014-15 as requested in this return. If agencies did not provide the full year return, the quarter 1 to 3 adopters figures may be an under count of actual performance.

Counts have been rounded to the nearest 5 at LA level or 10 at national and regional level. Average times are rounded to the nearest day.

The following symbols have been used throughout this pack:

x	Suppressed due to low numbers – where a count is 5 or fewer, or times and percentages are based on a count of 10 or fewer
0	Where any number is shown as zero (0), the original figure submitted was zero.
..	Data not returned – note that some items have been returned but suppressed due to data quality concerns
.	Not applicable
-	Negligible – used to represent a percentage below 0.5%

Child timeliness figures are based on the timeliness of children who have been adopted. This is the same cohort as that used in the Adoption Scorecards.

Timeliness figures for adopter approvals and matches are based on the timeliness of new approvals and new matches made during the quarter from application.

Timeliness figures relating to the new two stage process are based on the timeliness of adopters who were approved via the process during the quarter.

Figures relating to children going through the adoption process are updated each quarter based on revisions made by local authorities. It is not yet possible to do this for the adopter information and so information is as provided at the end of each quarter.

Decisions that the child should be placed in a Fostering for Adoption (FFA) placement and placements in FFA are now included in the "decisions" and "placements" totals. Children who have been placed in FFA arrangements are no longer included in the children waiting figures.

The data return quarter 3 included an "ADM decision reversal" flag. Previously children whose decision had been reversed were required to be excluded from the cohort. This flag has highlighted some children with a reversal in previous quarters who were still in the cohort. These children have been removed from the children waiting figures.

The data covers financial years, therefore Q1 relates to April to Jun, Q2 relates to July to September, Q3 relates to October to December and Q4 relates to January to March.

Further information

If you have any queries please contact

Quarterly Adoption Survey 2014-15 - Adopter data

Coverage: Local Authorities in England

National and regional figures on adopters include estimates made for non-responses (the response rate for this section of the return was 95%, 96%, 95% and 95% respectively in Q1, Q2, Q3 and Q4). Estimates are made by scaling to the regional level based on the number of adoptions in each LA during 2013-14 (from the SSDA903 data).

Note: Data from the quarter 4 2014-15 return has been used as returned. It has been assumed that agencies provided data for quarters 1-4 2014-15 as requested in this return. If agencies did not provide the full year return, the quarter 1 to 3 adopters figures may be an under count of actual performance.

Quarterly Adoption Survey 2014-15 - Adopter data

Coverage: Local Authorities in England

National and regional figures on adopters include estimates made for non-responding authorities and are based on a 95% response rate. National and regional figures on adopters include estimates made for non-responding authorities and are based on a 95% response rate. Estimates are made by scaling the data to the 2013-14 (from the SSDA903 data).

Note: Data from the quarter 4 2014-15 return has been used as returns requested in this return. If agencies did not provide the full year return,

Quarterly Adoption Survey 2014-15 - Adopter data
Coverage: Local Authorities in England
National and regional figures on adopters include estimates made for not-returned data (where the return was received less than 90 days after the survey) and 95% respectively in Q1, Q2, Q3 and Q4). Estimates are made by scaling the number of returns in the quarter to the total number of returns in 2013-14 (from the SSDA903 data).

Note: Data from the quarter 4 2014-15 return has been used as returns requested in this return. If agencies did not provide the full year return,

	Number of adoptive families approved			Information not available (includes fast tracked adopters without Stage 1 Start dates)	Number of adoptive families matched			Information not available
	within 6 months of registration in 2014-15	after 6 months of registration in 2014-15			within 3 months of approval in 2014-15	after 3 months of approval in 2014-15
