

AUDIT AND GOVERNANCE COMMITTEE

28 March 2014

CORPORATE ASSURANCE MAP 2013/14 – UPDATE

Report of the Head of Assurance, Procurement and Projects

1. Purpose of Report

- 1.1 To enable the Audit and Governance Committee to consider the updated Corporate Assurance Map based on work undertaken so far during the year, the Internal Audit opinion on the adequacy of the overall system of internal control, and the performance of Internal Audit.
- 1.2 For completeness, the report covers Internal Audit's key performance measures. The report does not set out the work undertaken for associated bodies for which the Council has a lead responsibility; this is a matter for the bodies concerned.

2. Description of Decision

- 2.1 The Audit and Governance Committee are asked to note the report and consider the updated Corporate Assurance Map (the Map).

3. Background

- 3.1 In March 2013 the Committee approved the proposed Corporate Assurance Map for 2013/14 and the plans of work for Internal Audit and Risk & Assurance.
- 3.2 At that time, the Map was prepared based on knowledge of the assurance position from Internal Audit work, a risk assessment covering all of the corporate risk areas and consultation with the Chief Executive, all Executive and Corporate Directors and key officers across the Council.
- 3.3 A key feature of the integrated assurance framework is to co-ordinate assurance that could be provided by other sources within the Council and external sources and consider if there are any gaps or duplication in the assurance provided.

4. Updated Corporate Assurance Map

- 4.1 The updated Corporate Assurance Map, as at 19th March 2014, is shown overleaf. It has been updated based on the work to date of the Internal Audit, and Risk and Assurance Teams and assurance from other sources within the Council and external sources.

Corporate Assurance Map

Key: X=activity planned, White=no coverage, **Green**=full / substantial assurance, **Amber**=moderate assurance, **Red**=limited / no assurance

Strategic Risk Areas

- 4.2 The top section of the Map relates to the strategic risks identified in the Strategic Risk Profile. The Profile has been updated with EMT for 2013/14 and is attached at Appendix 1. Given the longer term nature of these risks the current risk rating is shown (i.e. what would be the level of risk if no actions were taken to manage the risks), and the residual risk level (i.e. the level of risk taking into account ongoing actions and planned actions). Progress against each of the mitigating actions is assessed with the lead officers and assurance levels determined.

Assurance from Internal Audit

- 4.3 The detailed results of Internal Audit work are shown at Appendix 2, with the summary outcomes shown on the Map. Appendix 2 shows all of the opinions, including those from previous years, which have been considered in determining the overall assurance level.
- 4.4 An audit report has recently been issued identifying an issue of significant risk in relation to the management of ICT equipment, specifically desktop and laptop computers and the data held thereon. The issue relates to the accuracy of the Sostenuto asset management system which records details of ICT assets, including their location. At the 2011/12 audit it was identified that there were backlogs relating to input to the system in respect of newly purchased IT assets, movement of equipment around the Council as a result of the Building Rationalisation project, and obsolete items of equipment either disposed of or awaiting disposal.
- 4.5 The current audit has identified that the backlog still exists, and in fact has increased as a result of the ongoing downsizing of the organisation. An additional issue is the fact that relocation of staff and the increase in home and mobile working has led to difficulties in tracking the location of equipment and the employee or section in possession of equipment.

Assurance from Risk and Assurance Team

- 4.6 Areas that the Risk and Assurance Team are currently involved in are shown at Appendix 3. Much of their work is ongoing over a period of time, however, where ongoing assurance can be provided from their work this is shown on the Map. Assurance work within the last quarter has included:
- Support to the development of alternative service delivery vehicles such as the Local Asset Backed Vehicle, Sunderland Care and Support Ltd., and the future of ICT delivery.
 - Providing assurance on the delivery of the Transformation Programme and Key Projects.
 - Providing assurance on the delivery of the Workforce Transformation project (pay and grading review).

- Risks in relation to the delivery of ICT business objectives.
- Supporting the delivery of the Workforce Planning project to help Heads of Service achieve their efficiency targets.
- Significant work in support of the Customer Service Network migration.
- Intelligence Hub.
- Changes in relation to Adult Social Care.
- Planning for the implementation of the City Deal / Enterprise Zones.

4.7 Assurance work regarding ICT has considered risks in relation to 10 of their business objectives. This has provided the following risk ratings:

- Two business objectives – significant assurance (green)
- Three business objectives – moderate assurance (amber)
- Five business objectives – limited assurance (red)

4.8 Limited assurance has been given in relation to the roll out of the Virtual Desktop Infrastructure, opportunities for the Council to exploit its Cloud infrastructure, environmental controls, network infrastructure and alignment of ICT resources against the Council's priorities.

Assurance from others within the Council

4.9 Assurance provided from others within the Council is shown in the Corporate Assurance Map.

4.10 The assurance level in relation to Programme and Project management is currently shown as Amber. New Project Management Standards are being implemented from April aimed at improving project management for all Council projects.

4.11 The assurance level provided by the Business Continuity Officer has been Amber over the last three reports. This has mainly been due to the need for the arrangements within Children's Services to be brought up to date. A review of arrangements in all Directorates is underway, the results of which will be considered in future reports.

Assurance from Management

4.12 Arrangements are in place to obtain assurance from service management in a number of areas. Members will note that the majority of risk areas are shown as having substantial assurance.

Assurance from External Sources

- 4.13 The Map includes feedback received following the Council's recent Peer Challenge. The areas of the review which are relevant to the Corporate Assurance Map are Financial Planning and Implementation, Change Projects, Capacity and Resources and Customer Insight.

Overall

- 4.14 The overall assurance levels remain the same however the results of work undertaken by the Internal Audit and Risk and Assurance teams have highlighted increased risks in relation to ICT Strategy and Delivery.

5. Internal Audit Performance

- 5.1 The performance in relation to targets set for Internal Audit is shown at Appendix 4. Performance is on target for all KPI's apart from:
- The current percentage of medium risk recommendations implemented (excluding schools), which now stands at 82%.

A summary of the performance by directorate for medium risk recommendations is shown below:

Directorate / Body	Implementation Rate
People	85%
Office of the Chief Executive	81%
Commercial and Corporate Services	79%
Implementation Rate (exc. Schools)	82%
Schools	83%
Total Implementation Rate	82%

The performance for Commercial and Corporate Services has reduced from 95% in December 2013 to the current 79%. This is due to the results of one follow up in relation to ICT Asset Management where from 18 agreed actions, one had been implemented and one was no longer applicable, giving an implementation rate of 6%.

6. Conclusions

- 6.1 This report provides an update on the assurance provided in the Corporate Assurance Map, work ongoing in relation to the Internal Audit and Risk & Assurance Teams and performance targets for Internal Audit.
- 6.2 Results of the work undertaken so far during the year have not highlighted any issues which affect the opinion that overall throughout the Council there

continues to be an adequate system of internal control.

7. Recommendations

- 7.1 The Audit and Governance Committee are asked to note the report and consider the updated Corporate Assurance Map.

Strategic Risk Profile

People

Desired Outcomes

A city where everyone is as healthy as they can be and enjoys a good standard of wellbeing

A city with high levels of skills, educational attainment and participation

A city which is, and feels, even safer and more secure

A city that ensures people are able to look after themselves wherever possible

Risk Description	Risk Owner	Current Score Lx I	Mitigation and progress to reduce current score	Residual Score Lx I

Substantial

Risk and Assurance Activity

Area of activity	Work ongoing
Strategic Risk Profile	A review of the strategic risks affecting the Council was agreed with EMT. The risk areas have been categorised into People, Place, Economy and Organisational, in line with the Council's Outcomes Framework. Mitigating actions have been agreed and progress being monitored and reported in Appendix 1.
Transformation Programme	Ongoing assurance work is being undertaken in relation to progress in delivering the projects within the Transformation Programme and the related efficiency savings target. A progress report is presented to the Transformation Board on a monthly basis setting out the progress in relation to key project deliverables and the achievement of efficiency savings targets. Work is ongoing with Project Executives, Project Managers and Heads of Service to report the position and address any change control issues required.
Supporting Executive Directors and Heads of Service to manage risks	Activity is ongoing to aid the managing of risks through service planning, programmes and key projects and partnerships. This will be linked to mitigating actions in the Strategic Risk Profile where appropriate.
Support to Schools	A new approach to supporting schools has been introduced in the current year. A number of workshops have been held for schools to attend to help them identify and manage their risks more effectively. This will allow Schools to support each other and manage their risks on a more ongoing basis, as well as reducing the resources required from the Risk and Assurance Team. Positive feedback has been received regarding the workshops and a number of Academies have also booked specific sessions at their schools.

Area of activity	Work ongoing
Service Reviews (including alternative service delivery models), Programmes and Projects (including ICT)	<p>Major projects / service reviews being supported include:</p> <ul style="list-style-type: none"> • Local Asset Backed Vehicle • Workforce Transformation Project • Workforce Planning Project • Sunderland Care and Support • Customer Service Network • Intelligence Hub • Training Centres • Transport and Fleet Management • ICT – various activity • Economic Master Plan • Leisure project • Adult Social Care • Development of the Intranet • Safeguarding – Childrens • Settlement of Equal pay claims • Streetscene projects • City Deal • New Wear Crossing
