5	tbc	Influence the design, delivery and review of People based services devolved to Area Committee.	1. Develop new relationships with schools.		At its meeting of 5th November Cabinet approved the Policy Statement on the role of the Council in relation to schools and the wider education system. The Statement determines the role of the Council in improving educational outcomes and defines the key elements of the local authority's role. Additionally, next steps were agreed in order to develop the necessary relationships, systems and processes to reflect the changing education landscape, the educational priorities within the city's key strategies, the Council's Community Leadership role and its statutory duties. One of those key actions is to develop arrangements whereby Elected Members are enabled to play a role in strengthening the local accountability of schools and in sharing local intelligence. Currently arrangements are underway to discuss this approach with members early in the new year.

	tbc		2. Review of museum services.		<p>A Cultural Strategy is being developed for the city which will help to shape Museums and Heritage in a way that Sunderland residents want. This will help to develop a vision that will determine the delivery plan of priorities for the next 3-5 years. The Strategy and the Museum Vision are proposed to be discussed at a future People Board. Members will have the opportunity to contribute to how the service will be tailored to meet the needs of the community. Following that, the Heritage Team will engage with local individuals and groups, such as the Area VCS Network to discuss the new proposals.</p>
