

AUDIT AND GOVERNANCE COMMITTEE

11 December 2015

TREASURY MANAGEMENT – THIRD QUARTERLY REVIEW 2015/2016

Report of the Director of Finance

1. Purpose of Report

1.1 To report on the Treasury Management (TM) performance to date for the third quarter of 2015/2016.

2. Description of Decision

- 2.1 The Committee is requested to:
 - Note the Treasury Management performance during Quarter 3 of 2015/2016.
 - Note the Lending List Criteria at Appendix B and the Approved Lending List at Appendix C.

3. Introduction

3.1 This report sets out the Treasury Management performance to date for the third quarter of the financial year 2015/2016, in accordance with the requirements of the Treasury Management Policy and Strategy agreed by Council.

4. Summary of Treasury Management Performance for 2015/2016 – Quarter 3

- 4.1 The Council's Treasury Management function continues to look at ways to maximise financial savings and increase investment return to the revenue budget. PWLB rates have fluctuated since the start of 2015/2016 and continue to be volatile. Consequently no new borrowing has been taken out to date during 2015/2016 but the position continues to be monitored closely.
- 4.2 One option to make savings is through debt rescheduling, however no rescheduling has been possible in 2015/2016 as rates have not been considered sufficiently favourable. It should be noted the Council's interest rate on borrowing is very low, currently 3.51%, and as such the Council benefits from this lower cost of borrowing and also from the ongoing savings from past debt rescheduling exercises. Performance continues to see the Council's rate of borrowing in the lowest quartile as compared to other authorities.
- 4.3 Treasury Management Prudential Indicators are regularly reviewed and the Council is within the limits set for all of its TM Prudential Indicators. The statutory limit under section 3(1) of the Local Government Act 2003, which is required to be reported separately, (also known as the Authorised Borrowing Limit for

External Debt) was set at £516.408m for 2015/2016. The Council's maximum external debt at 30th November 2015 was £336.181m and is well within this limit. More details of all of the TM Prudential Indicators are set out in section A2 of Appendix A for information.

- 4.4 The Council's investment policy is regularly monitored and reviewed to ensure it has flexibility to take full advantage of any changes in market conditions which will benefit the Council.
- 4.5 As at 30th November 2015, the funds managed by the Council's Treasury Management team have achieved a rate of return on its investments of 0.92% compared with the benchmark 7 Day LIBID (London Interbank Bid) rate of 0.36%. Performance is a little more positive and is significantly above the benchmark rate, whilst still adhering to the prudent policy agreed by the Council, in what remains a very challenging market. The rate of return achieved is also in the top quartile according to our external Treasury Management advisors who have benchmarked our performance with other authorities.
- 4.6 The rate of return on investments, as previously reported, has remained at very low levels compared to previous years, mainly due to UK-based financial institutions having accessed funding from alternative sources (such as the Government's Funding for Lending Scheme which has been extended to January 2016) to increase their capital/cash reserves in line with revised regulatory requirements. Consequently demand for local authority funds continues to be low and whilst interest rates have improved slightly there is little prospect of a significant upturn until the Bank of England begins to increase the Base Rate. Even special tranche investment rates (which offer better than market average returns) have followed the downward trend.

Interest rates are being carefully monitored and managed so that the Council can take full advantage of the expected increase in rates when it does occur.

- 4.7 More detailed Treasury Management information is included in Appendix A for Members' information.
- 4.8 The regular updating of the Council's authorised lending list is required to take into account financial institution mergers and changes in institutions' credit ratings since the last report. The updated Approved Lending List is shown in Appendix C for information.

5. Recommendation

- 5.1 Members are requested to note the Treasury Management (TM) performance for the third quarter of 2015/2016.
- 5.2 Members are requested to note the Lending List Criteria at Appendix B and the Approved Lending List at Appendix C.

Detailed Treasury Management Performance – Quarter 3 2015/2016

A1 Borrowing Strategy and Performance – 2015/16

A1.1 The Borrowing Strategy for 2015/2016 was reported to Cabinet on 11th February 2015 and approved by full Council on 4th March 2015.

The Borrowing Strategy is based upon interest rate forecasts from a wide cross section of City institutions. The view in February 2015, when the Treasury Management Policy and Strategy was drafted, was that the Bank Base Rate would remain at 0.50% until September 2016 before steadily rising to 2.00% by March 2018 and that PWLB borrowing rates would increase during 2015/2016 across all periods.

The Bank Base Rate has remained at an all time low of 0.50% since March 2009 with monetary policy set by the Bank of England (BoE) to meet a 2% inflation target in the medium-term. Financial analysts continue to speculate on the timing of an increase in the current Bank Rate. Most do not anticipate a rise until at least the second quarter of 2016, a view shared by the Council's economic advisers Capita Asset Services, with rates then increasing gradually to 2.00% by September 2018.

The Spending Review and Autumn Statement announced in November 2015 predicted GDP growth to continue at a solid pace of between 2.3% and 2.5% per annum until 2020. Consumer Price Inflation is currently negative at -0.1% and forecast to be well below the 2% target throughout 2016 and is not anticipated to reach 2% until 2019. with significant downside risks through lower growth in emerging markets such as China leading to lower import prices and if wage growth is offset by increased productivity. The Conservative Government have confirmed austerity measures, will continue throughout the current Parliament and they plan for significant cuts in government expenditure to reduce the budget deficit, there is a risk that these plans could also slow growth.

Forecasts for PWLB interest rate levels have increased for 5 and 10 year durations with benchmark rates of 2.3% for 5 years and 2.9% for 10 years. Longer term rates have fallen slightly with benchmark rates of 3.5% for 25 and 50 years. Exceptional levels of volatility in PWLB rates and bond yields are expected to continue during 2016. The volatility is highly correlated to geo-political and sovereign debt crisis developments, with movements of up to 0.5% in a quarter not unusual. The ECB began a huge programme of quantitative easing measures in March 2015 which will last up until September 2016. This seems to have already had a beneficial impact in improving confidence and sentiment in the Eurozone.

2015/2016	Qtr 1* (Apr - Jun) %	Qtr 2* (Jul - Sept) %	Qtr 3* (Oct-Nov) %
7 days notice	0.36	0.36	0.37
1 year	1.23*	1.29*	1.24*
5 year	2.09*	2.15*	2.04*
10 year	2.75*	2.78*	2.69*
25 year	3.37*	3.40*	3.42*
50 year	3.29*	3.28*	3.29*

The following table shows the average PWLB rates for Quarters 1 to 3 to date.

* rates take account of the 0.2% discount to PWLB rates available to eligible authorities that came into effect on 1st November 2012.

- A1.2 The strategy for 2015/2016 is to adopt a pragmatic approach in identifying the low points in the interest rate cycle at which to borrow, and to respond to any changing circumstances to seek to secure benefit for the Council. A benchmark financing rate of 4.25% for long-term borrowing was set for 2015/2016 in light of the views prevalent at the time the Treasury Management policy was set in March 2015. Due to high levels of volatility in the financial markets, with borrowing rates still forecast to remain low over the short term, no new borrowing has been undertaken in the current financial year up to 30th November 2015, but this will be kept under review.
- A1.3 The Borrowing Strategy for 2015/2016 made provision for debt rescheduling but due to the proactive approach taken by the Council in recent years, and because of the very low underlying rate of the Council's long-term debt, it would be difficult to refinance long-term loans at interest rates lower than those already in place.

Rates have not been sufficiently favourable for rescheduling in 2015/2016 so far and the Treasury Management team will continue to monitor market conditions and secure early redemption if appropriate opportunities should arise.

The Council successfully applied to access PWLB loans at a discount of 0.20%. This 'certainty rate' is available for those authorities that provide "improved information and transparency on their locally determined long-term borrowing and associated capital spending plans". The discount came into effect on 1st November 2012 and the Council has been successful in extending its access to the PWLB certainty rate until at least 31st October 2016.

		Principal (£m)	Total (£m)	Average Rate (%)
Borrowing				
Fixed Rate Funding	PWLB	177.9		
_	Market	39.6		
	Other	0.8	218.3	3.90
Variable Rate Funding	Temporary / Other		27.6	0.41
Total Borrowing			245.9	3.51

A1.4 The Council's treasury portfolio position at 30th November 2015 is set out below:

A2 Treasury Management Prudential Indicators – 2015/2016

- A2.1 All external borrowing and investments undertaken in 2015/2016 have been subject to the monitoring requirements of the Prudential Code. Under the Code, Authorities must set borrowing limits (Authorised Borrowing Limit for External Debt and Operational Boundary for External Debt) and must also report on the Council's performance for all of the other TM Prudential Indicators.
- A2.2 The statutory limit under section 3(1) of the Local Government Act 2003 (which is also known as the Authorised Borrowing Limit for External Debt) was set by the Council for 2015/2016 as follows:

	£m
Borrowing	426.719
Other Long-Term Liabilities	89.659
Total	<u>516.408</u>

The Operational Boundary for External Debt was set as shown below:-

	£m
Borrowing	332.537
Other Long Term Liabilities	<u>89.659</u>
Total	<u>422.196</u>

The Council's maximum external debt in respect of 2015/2016 (to 30th November 2015) was £336.181m and is well within the limits set by both of these key indicators.

A2.3 The table below shows that all other Treasury Management Prudential Indicators have been complied with:

Prude	ntial Indicators	2015/2016 (to 30/11/15)			
		Limit £'000	Actual £'000		
P10	Upper limit for fixed interest rate exposure				
	Net principal re fixed rate borrowing / investments	245,000	38,883		
P11	Upper limit for variable rate exposure				
	Net principal re variable rate borrowing / investments	60,000	9,314		
P12	Maturity Pattern	Upper Limit			
	Under 12 months	50%	11.74%		
	12 months and within 24 months	60%	0.04%		
	24 months and within 5 years	80%	5.75%		
	5 years plus	100%	82.69%		
	A lower limit of 0% for all periods				
P13	Upper limit for total principal sums invested for over 364 days	75,000	0		

A3 Investment Strategy – 2015/2016

- A3.1 The Investment Strategy for 2015/2016 was approved by Council on 4th March 2015. The general policy objective for the Council is the prudent investment of its treasury balances. The Council's investment priorities in order of importance are:
 - (A) The **security** of capital;
 - (B) The **liquidity** of its investments and then;
 - (C) The Council aims to achieve the **optimum yield** on its investments but this is commensurate with the proper levels of security and liquidity.
- A3.2 As at 30th November 2015, the funds managed by the Council's in-house team amounted to £265.835 million and all investments complied with the Annual Investment Strategy. This includes monies invested on behalf of all other external organisations. The table below shows the return received on these investments compared with the benchmark 7 Day LIBID (London Interbank Bid) rate, which the Council uses to assess its performance.

	2015/2016 Actual to 30/11/15 %	2015/2016 Benchmark to 30/11/15 %
Return on investments	0.92	0.36

- A3.3 Investments placed in 2015/2016 have been made in accordance with the approved investment strategy and comply with the Counterparty Criteria in place, shown in Appendix B, which is used to identify organisations on the Approved Lending List.
- A3.4 The investment policy is regularly monitored and reviewed to ensure it has flexibility to take full advantage of any changes in market conditions to the Council's advantage.
- A3.5 Investment rates available in the market have continued at very low levels.
- A3.6 Due to the continuing high volatility within the financial markets, particularly in the Eurozone, advice from our Treasury Management advisers is to continue to restrict investments with all financial institutions to shorter term periods.
- A3.7 Advice also continues that the above guidance is not applicable to institutions considered to be very low risk, mainly where the government holds shares in these organisations (i.e. Lloyds and RBS) which have a AA+ rating applied to them, or separately in respect of Money Market Funds which are AAA rated.
- A3.8 The regular updating of the Council's authorised Lending List is required to take into account financial institution mergers and changes in institutions' credit ratings. The Approved Lending List is shown in Appendix C.

Lending List Criteria

Counterparty Criteria

The Council takes into account not only the individual institution's credit ratings issued by all three credit rating agencies (Fitch, Moody's and Standard & Poor's), but also all available market data and intelligence, the level of government support and advice from its Treasury Management advisers.

Set out below are the criteria to be used in determining the level of funds that can be invested with each institution. Where an institution is rated differently by the rating agencies, the lowest rating will determine the level of investment.

Fitch / S&P's Long Term Rating	Fitch Short Term Rating	S&P's Short Term Rating	Moody's Long Term Rating	Moody's Short Term Rating	<u>Maximum</u> Deposit <u>£m</u>	<u>Maximum</u> Duration
AAA	F1+	A1+	Aaa P-1 120		2 Years	
AA+	F1+	A1+	Aa1	P-1	100	2 Years
AA	F1+	A1+	Aa2	P-1	80	2 Years
AA-	F1+ / F1	A1+ / A-1	Aa3	P-1	75	2 Years
A+	F1	A-1	A1	P-1	70	364 days
A	F1 / F2	A-1 / A-2	A2	P-1 / P-2	65	364 days
A-	F1 / F2	A-2	A3	P-1 / P-2	50	364 days
Local Author	r ities (limit	for each lo	cal authorit	ty)	30	2 years
UK Governm and treasury I	•	t office, gilts	350	2 years		
Money Marke Maximum am £120m with a	ount to be	120	Liquid Deposits			
Local Author to 20 years in		•	`		20	# 20 years

Where the UK Government holds a shareholding in an institution the UK Government's credit rating of AA+ will be applied to that institution to determine the amount the Council can place with that institution for a maximum period of 2 years.

The Code of Practice for Treasury Management in the Public Services recommends that consideration should also be given to country, sector, and group limits in addition to the individual limits set out above, these new limits are as follows:

Country Limit

It is proposed that only countries with a minimum sovereign credit rating of AA+ by all three rating agencies will be considered for inclusion on the Approved Lending List.

It is also proposed to set a total limit of £100m which can be invested in other countries provided they meet the above criteria. A separate limit of £350m will be applied to the United Kingdom and is based on the fact that the government has done and is willing to take action to protect the UK banking system.

Country	Limit £m
UK	350
Non-UK	100

Sector Limit

The Code recommends a limit be set for each sector in which the Council can place investments. These limits are set out below:

Sector	Limit £m
Central Government	350
Local Government	350
UK Banks	350
Money Market Funds	120
UK Building Societies	100
Foreign Banks	100

Group Limit

Where institutions are part of a group of companies e.g. Lloyds Banking Group, Santander and RBS, then total limit of investments that can be placed with that group of companies will be determined by the highest credit rating of a counterparty within that group, unless the government rating has been applied. This will apply provided that:

- the UK continues to have a sovereign credit rating of AA+; and
- that market intelligence and professional advice is taken into account.

Proposed group limits are set out in Appendix C.

Notes

Note 1

Nationalised / Part Nationalised

The counterparties in this section will have the UK Government's AA+ rating applied to them thus giving them a credit limit of £100m.

* The Clydesdale Bank (under the UK section) is owned by National Australia Bank

** These will be revisited and used only if they meet the minimum criteria (ratings of Aand above)

Any bank which is incorporated in the United Kingdom and controlled by the Prudential Regulation Authority (PRA) is classed as a UK bank for the purposes of the Approved Lending List.
