Direction of travel

The progress Sunderland City Council has made in the last year

Direction of travel	2005	2006	2007
This assessment indicates the progress being made, or otherwise, to achieve improvement.	improving well	improving well	improving well

The following summary has been provided to support the 2007 direction of travel assessment:

Sunderland City Council is improving well. The Council is improving services in its priority areas. The local environment is improving: less waste is being sent to landfill, more is recycled or composted and public spaces are cleaner. Crime reduction targets have been exceeded, crime rates are low and mostly improving, and local people are less worried about crime. Children's educational attainment rates are improving at key stages three and four, although key stage two results for English remain poor. Adult social care in the area is excellent, with good services and systems to enable people to live independently. The Council has invested in priority and underperforming services while maintaining relatively low levels of council tax and good value for money. These investments, supported by good performance management, have delivered improvement over the last year. A range of projects and programmes are ensuring that the Council is becoming more citizen focused. Capacity is good and is being strengthened appropriately to deliver priorities, but the Council performs poorly in some aspects of the diversity of its workforce and sickness rates remain high, and deteriorated during 2006/07.
