

Modern Slavery Statement 2022/2023

1. Introduction

- 1.1 Modern Slavery is a term used to encapsulate offences in the Modern Slavery Act 2015 such as slavery, servitude, forced or compulsory labour and human trafficking, all of which result in the deprivation of a person's liberty by another, in order to exploit them for personal or commercial gain. Modern slavery and human trafficking are crimes and a violation of fundamental human rights.
- 1.2 Tyne and Wear Fire and Rescue Authority (the Authority) has a zero-tolerance approach to slavery and human trafficking and all forms of corruption and bribery and will not deal with any business or organisation knowingly involved in modern slavery practices in any part of its operations.
- 1.3 The Authority is committed to the highest level of ethical standards and governance. It will act with integrity in all its business relationships and take all reasonable and practical steps to ensure compliance with Section 54 of the Modern Slavery Act 2015 with the aim of eradicating modern slavery or human trafficking from its supply chains and all parts of its business activities.

2. Organisation structure

- 2.1 The Authority is the publicly accountable body that oversees the policy and service delivery of fire and rescue services on behalf of the community in the Tyne and Wear area. The Authority successfully leads the operational delivery of fire and rescue service such as public protection, fire and other emergency prevention, operational response and resilience. Its stations, staff and appliances are strategically placed across Tyne and Wear to ensure efficient and effective response to fires and other emergencies. Appliances work across station areas and can be mobilised whilst away from their home station. The Authority also has robust arrangements with neighbouring services to enable additional support during major emergencies. This is achieved through the provision of over-the-border mobilisations into neighbouring fire and rescue service's and vice versa where required. This is catered for under s.13 of the Fire and Rescue Services Act 2004 and is termed Section 13 Mutual Assistance Agreements.
- 2.2 The Authority's 17 fire stations are staffed by highly trained firefighters and their work is complemented by corporate staff and community volunteers.
- 2.3 Further details of the organisational structure are available on the Authority's website at: <https://www.twfire.gov.uk/about-us/>

3. Supply Chain

- 3.1 The organisation spends around £13.4 million each year on the procurement of goods, services and works from a diverse range of suppliers. The Authority has a public duty to ensure this money is spent in the most effective way whilst delivering value for money. In addition, a firm commitment is made to ensuring that ethical practices to combat slavery and human trafficking are followed throughout the supply chains used.

4. Workforce

- 4.1 The Authority's workforce is mainly employed on a permanent, (including retained) or temporary contract basis. The recruitment processes used include direct advertising on the Authority's website and use of reputable agencies.
- 4.2 All employees are subject to checks, including the verification of identity, references, eligibility to work in the UK, baseline security check and evidence of qualifications where appropriate.
