Heather Fagan, a resident of Sunderland, has submitted the following questions to be put to the Council meeting on 24 January 2018.

“Please advise the timescale taken for the following, year by year for the last five years:

- Time taken for a vulnerable adult from referral to adult services to being assessed for additional needs/aids.
- Time taken for a vulnerable adult to actually being provided with all of their additional needs/aids.
- What are the Council’s targets in the above two situations?
- Number of deaths of same vulnerable adults whilst waiting for referral/provision of additional needs/aids.”

Head of Law and Governance
