Question 2

Question 2

Question responses: **37 (92.50%)**

As part of the proposal, from September 2022, Sunningdale Primary School will be re-located to a new purpose-built school building at the junction of Silksworth Road and Doxford Park Way in the St Chad's ward. The new location provides greater access for the pupils to local amenities that can be incorporated in to the provision to further enhance the already outstanding provision offered by the school.

Do you agree with the proposal to relocate Sunningdale Primary School to the proposed new site?

4				The new design and layout of the school looks amazing. The school is designed to best support the complex needs of the cohort who all have severe learning difficulties but also have a wide range of physical, communication, sensory, medical and behavioural issues. The range of opportunities for engaging in a huge range of activities both indoors and outdoors will help the children make progress and be the very best they can be.	16/10/20 17:45	0.1	Submitted	web
5				The layout looks ideal for its purpose. I would like to see more adequate car parking, as the school will become very popular with outside agencies, parent groups etc, and a lack of parking can put people off.	18/10/20 10:52	0.1	Submitted	web

I have no problem at all with increasing the capacity for such purposes but Why one earth rebuild completely for only 12 extra spaces ? 16				Really concerned about the parking. Not enough spaces to cover majority of staff without parents, external agencies such as physios and SaLT - parking is one of our main problems now at sunningdale.	21/10/20 17:46	0.1	Submitted	web

Question 4

32				Do not agree with the locAtion of the proposed school redevelopment. The area has already lost a lot of green space with the Potters Hill housing development as well as the new housing development at Silksworth. Why not consider the area where the Farringdon police station is standing empty.	20/11/20 19:37	0.1	Submitted	web

36				Not clear if the outdoor natural habitat is closed off to the public. Concern would be.....will this encourage other youngsters to congregate around these areas	23/11/20 13:48	0.1	Submitted	web
37				I am deeply opposed to this, it is practically on my doorstep. Me and my husband work shifts, the noise generated by the school whilst building and once occupied is not something I anticipated when buying my property, nor is it something I welcome. The space in which you propose the building is fruitful with wildlife, what are you planning on doing to create new habitats inline with national policy guidance? Although i appreciate it is not green belt, not that it matters a jot to this council whether it is or isn't,	25/11/20 18:50	0.1	Submitted	web

				Why is this council so insistent on destroying all green spaces? Are there no suitable brown sites available? what are you doing to create new habitats inline				
39				Yes.. I have issue with the access and potential traffic concerns. According to the site plan, there appears to be only 1 road in and out of the site, via an existing roundabout, this roundabout is already well used by traffic to and from Doxford Business/A19 and the wider Doxford/Silksworth/Farringdon/East Herrington area, which already has high traffic volumes, set to increase due to 4 new housing developments in the same area. Whilst offering an issue, I would also suggest a solution of a further entrance/exit from the site on via Silksworth Road towards Farringdon area. The additional benefit of this is, should there be an issue with the 1 entrance/exit, an alternative is available for emergency vehicle, particularly ambulances., otherwise you are relying on the access via B1286 which has the potential to become more clogged up with traffic from the business park/A19 and local services. The additional benefit of the	26/11/20 12:52	0.1	Submitted	web

Question 4

				extra entrance/exit, this would also help with the roundabout at the junction of Doxford Park Way/Silksworth Way which already has traffic flow from 5 locations. Having tried to enter this roundabout from both Moorside and East Moorside this can prove more difficult. So in summary a 2nd exit/entrance to the school, for safety and traffic flow and access would be very beneficial. other than that, looks like a nice addition to the area to support children with additional needs, looks like a nice setting for them with will fit well with the current environment. One final point what will happen with the existing cycle route/path in the area, which i can't see on the plan this includes a section of the W2W route.				
40				You are removing trees, animal habitats and open space in the attempt to provide natural habitats for the school this does not make sense. There are some very old trees on this site can we be assured they are protected? This land provides welcome green space and is used by walkers and people in both east Herrington, moor side, east moor side.	27/11/20 09:25	0.1	Submitted	web
