SUSTAINABILITY IMPACT FILTER - SCORECARD
This table assesses whether the decision being developed/proposed potentially has significant sustainability impacts, and therefore requires a full sustainability impact appraisal to be carried out by the Sustainability Team

The full sustainability impact appraisal will identify where the decision can be improved to address sustainability priorities as outlined by the Sunderland Strategy and Local Area Agreement

	e information required in the las	t column which most closely represe	ilis your decision. Answer a	applicable questions.	Enter Project / service
Cost	Description				cost, £
1	Total cost of the decision	If the decision cost is less than £75, Enter the full decision value, not an do not entre abbreviations, e.g. 75K	000,083		
Economy	Description	Insignificant (Score "0")	Moderate Significance (Score "1")	Major Significance (Score "2")	2
2	Are goods and services required available from Sunderland	No potential to use local suppliers of goods / services, which has been confirmed through local business searches	No searches carried out yet for possible local suppliers	Searches done, and several local suppliers exist	2
3	Could the decision create employment in Sunderland directly (i.e. funding salaried posts), or indirectly (i.e. increasing demand for labour to provide services)	None expected	Some increased employment expected, up to 50 jobs	Significant employment expected, over 50 jobs, either directly, or indirectly	1
