Cabinet 2014/2015

Cabinet membership and responsibilities are as below:

Member	Portfolio
P. Watson	Leader of the Council
H. Trueman	Deputy Leader of the Council
M. Speding	Cabinet Secretary
P. Smith	Children's Services
G. Miller	Health, Housing and Adults
J. Kelly	Public Health, Wellness and Culture
J. Blackburn (until 9 th June 2014)	City Services
M Mordey (from 10 th June 2014)	City Services
C. Gofton	Responsive Services and Customer Care

Introduction

A published and audited Statement of Accounts is at the heart of ensuring proper accountability for the use of local and national taxpayers' money. We recognise, however, that the Council's Accounts can only tell part of the story. The Council needs to continue to demonstrate that it is aiming to operate to the highest standards of conduct in accordance with the principles of corporate governance and has a robust system of internal control in place.

With regard to corporate governance, the Council considers an annual review of its Local Code of Corporate Governance. The 2014/2015 review was considered by the Audit and Governance Committee in June and will be reported to Cabinet in July followed by full Council. The Code follows the framework recommended by CIPFA / SOLACE. The review assesses the Council's arrangements for compliance with the Code, which identifies the underlying principles of corporate governance - openness and inclusivity; integrity; and accountability – across the various dimensions of the Council's business. The review found that the Council continues to have robust and comprehensive arrangements in place and has identified a small number of areas for improvement and development, which are not considered significant and which will be acted upon during 2015/2016.

In line with guidance issued by CIPFA, the Council has a well-established Audit and Governance Committee which carries out the role of an Audit Committee. The role of this Committee involves not only approving the Statement of Accounts, but also reviewing arrangements for areas such as treasury management, risk management, the wider internal control environment and also consideration of internal and external audit plans, progress reports and annual reports.

Within the Statement of Accounts, an Annual Governance Statement has been included, which confirms that there are sound systems of Internal Control in place. We will however continue to ensure action is taken where necessary to maintain and develop the system of Internal Control in the future.

Councillor Paul Watson
Leader of the Council

Dave Smith
Chief Executive

Sonia Tognarelli CPFA
Director of Finance

Dated: 26th June 2015

Certification of the Statement of Accounts

Statement of Accounts 2014/2015 (Subject to Audit) Certification by the Responsible Finance Officer

As the Council's Responsible Finance Officer, I hereby certify that in accordance with the Accounts and Audit Regulations 2011 Regulation 8 (2) the Statement of Accounts for 2014/2015 (subject to audit) presents a true and fair view of the financial position of Sunderland City Council as at 31st March 2015 and its income and expenditure for the year then ended.

Sonia Tognarelli CPFA
Director of Finance

Dated: 26th June 2015

Audited Statement of Accounts 2014/2015 Certification on behalf of those charged with governance

As Chairman of the Audit and Governance Committee, I hereby acknowledge receipt of the audited Statement of Accounts for 2014/2015 by this Committee, in accordance with the Accounts and Audit Regulations 2011 Regulation 8(3), and confirm that the Statement of Accounts was approved at the Audit and Governance Committee of 25th September 2015 in accordance with sub-paragraph 8 (3) (c) with regard to the aforementioned Regulations.

Mr. G.N. Cook
Chairman of the Audit and Governance Committee

Dated: 25th September 2015

Audited Statement of Accounts 2014/2015 Certification by the Responsible Finance Officer

As the Council's Responsible Finance Officer, I hereby re-certify the audited statement of accounts for 2014/2015 in accordance with Regulation 8 (2) of the Accounts and Audit Regulations 2011.

Sonia Tognarelli CPFA
Director of Finance

Dated: 25th September 2015

Foreword by the Director of Finance

This Statement of Accounts shows, in the following pages, the Council's final accounts for 2014/2015. It has been prepared in accordance with the 'Code of Practice on Local Authority Accounting in the United Kingdom 2014/2015' (based on International Financial Reporting Standards (IFRS)) known more commonly as the Code. The Code constitutes 'proper accounting practice' under the terms of the Local Government Act 2003 and the Accounts and Audit Regulations 2011.

Certain financial statements are required to be prepared under the Code and these are detailed below:

1. **Statement of Responsibilities**

This discloses the respective responsibilities of the Council and the Chief Finance Officer.

2. **Movement in Reserves Statement (MiRS)**

This statement shows the movement in the year on the different reserves held by the Council, analysed into 'usable reserves' (i.e. those that can be applied to fund expenditure or reduce local taxation) and other unusable reserves.

3. **Comprehensive Income and Expenditure Statement**

This statement shows the accounting costs in the year of providing services in accordance with generally accepted accounting practice, rather than the amount to be funded from taxation. Authorities raise taxation to cover expenditure in accordance with regulations; this may be different from the accounting cost. The taxation position is shown in the Movement in Reserves Statement.

4. **Balance Sheet**

The Balance Sheet shows the value at the Balance Sheet date of the assets and liabilities recognised by the Council. The net assets of the Council (assets less liabilities) are matched by reserves held by the Council.

5. **Cash Flow Statement**

The Cash Flow Statement shows the changes in cash and cash equivalents of the Council during the reporting period.

6. **Notes (including a summary of significant accounting policies and other explanatory information)**

The Notes to the financial statements have three significant roles, they:

- Present information about the basis of preparation of the financial statements and the specific accounting policies used.
- Disclose information that is required by the Code that is not presented elsewhere in the financial statements.
- Disclose information that is not presented elsewhere in the financial statements, but is relevant to their understanding.

7. **Collection Fund Account**

The Collection Fund (England) is an agent's statement that reflects the statutory obligation for billing authorities to maintain a separate Collection Fund. The statement shows the transactions of the billing authority in relation to the collection from taxpayers and distribution to local authorities and the Government of council tax and non-domestic rates.

8. **Group Accounts**

The Group Accounts present the financial statements and associated notes for Sunderland City Council together with the following subsidiaries and joint venture:

- Care and Support Sunderland Ltd;
- Sunderland Care and Support Ltd;
- Sunderland Live Ltd;
- Siglion LLP (Joint Venture).

Foreword by the Director of Finance

Revenue Expenditure and Income Summary

The estimated net revenue expenditure for 2014/2015 to be met from Government Grants and local taxpayers was approved at £250.691m. This meant that the Band D Council Tax, after allowing for Revenue Support Grant and National Non Domestic Rates and including both the Police and Fire and Rescue Authority precepts, was set at £1,345.73 for 2014/2015. This represented no Council Tax increase from the 2013/2014 Band D Council Tax level as a Council Tax freeze was implemented in setting the 2014/2015 budget. The Council again set the lowest Council Tax level in the whole of the North East region for 2014/2015 for the eighth consecutive year and has continued to set the lowest Council Tax in Tyne and Wear since Council Tax was introduced in 1993/1994.

Comprehensive and detailed budget monitoring is carried out monthly during the year and is supplemented by formal budget monitoring reports which are made quarterly to the Council's Cabinet. These detail the outcome of the review of budgets and spending forecasts for both capital and revenue expenditure and also include a review of certain other key financial items including Treasury Management and Prudential Indicators. Reporting during the financial year continues to reflect strong and robust financial management, continuing the Council's strong track record in this regard.

The table below summarises the financial position for the year 2014/2015 for General Fund Balances, which is made up of the Council's General Reserve and Balances held by Schools under the Local Management Scheme, in accordance with the Code, and also shows the original budget and the revised budget positions for 2014/2015.

Financial position for the year 2014/2015 for General Fund Balances

* This excludes the effect of IAS19 pension fund adjustments.

** This figure includes an adjustment for Council Tax debtors and creditors as required under the Code of Practice on Local Authority Accounting in the United Kingdom 2014/2015.

*** Movements in Capital and Revenue usable reserves are detailed in Note 8 (page 55).

Foreword by the Director of Finance

Note 1 - General Reserve

The table shows the general reserve balance of £7.570m has been maintained as forecast at estimate stage. This is after taking into account a transfer of funds to the Strategic Investment Reserve as reported to Cabinet as part of the outturn report.

The outturn position takes account of the following variations to budget during 2014/2015:

- Debt charge and interest on investment savings of £1.517m due to slippage in the Capital Programme and additional investment income over and above that utilised to fund in year transitional costs and safeguarding pressures as reported during the year.
- Other net savings of £3.130m in respect of contingencies, additional one off income, other variations in non-delegated expenditure, released reserves and net of provisions for known future pressures.
- Earmarking of Specific Reserves of £3.998m as reported to Cabinet as part of the outturn report.

The net under spend of £0.649m has been transferred to the Strategic Investment Reserve to support transitional arrangements arising from implementation of the savings programmes for 2015/2016 and future years.

Note 2 - Movement on Locally Managed Schools Reserve

The Education Reform Act 1988 provides for the carry forward of individual school balances. These earmarked reserves are not for Council use and the level of the reserve, in accordance with the Code, forms part of the movement in General Fund Balances in the Movement in Reserves Statement. The movement in school balances during 2014/2015 amounted to a net return to balances of £1.335m (£1.039m net use of balances in 2013/2014), as a result of reduced spending by schools and is reflected in the Statement of Accounts within the Comprehensive Income and Expenditure Statement on the Education cost of service line. School balances are fully committed and are required to meet the challenges in respect of reduced funding in 2015/2016 and future years.

As a result, the balance of this reserve as at 31st March 2015 increased to £9.660m compared to £8.325m as at 31st March 2014. Further details are set out in Note 8 (page 55) to the Accounts.

Funding Context and Financial Planning

2014/2015 represented the fifth year of the implementation of the Government's plans to eliminate the national deficit. During that period the Government has regularly revised its forecasts. Its current stated intention is to continue with reductions in national funding up until 2018/2019 to enable a small budget surplus.

The government funding reductions and unavoidable cost pressures over the five year period 2010/2011 to 2014/2015 has meant Sunderland City Council has had to achieve savings of £171m.

£36m of these reductions were achieved in 2014/2015 through the implementation of the Council's Business Transformation Programme based around the Council's Community Leadership approach which aimed to meet need and achieve savings while protecting as far as possible frontline services and maximising non-frontline savings. Directorate improvement plans have reshaped services with the aim of protecting core services by prioritising service provision with targeting of resources rather than universal provision. Service reviews have included consideration of alternative methods of service delivery in order to identify the most effective and efficient models for service provision.

In addition to the government's funding reductions the general economic situation has continued to impact on the Council's financial position in 2014/2015:

- The very low interest rates continued to have an impact on the financial return on the Council's investments, leading to reduced levels of income available to support the Council's Revenue Budget.
- The ability of the Council to generate capital receipts from the sale of surplus assets continues to restrict the resources available for the Council's capital programme. However alternative means of funding priority investment continue to be rigorously pursued with positive results in a number of areas.
- The general economic position continues to affect the level of income which can be generated from fees and charges for Council services.

Foreword by the Director of Finance

Looking to 2015/2016, further reductions in Government funding and cost pressures mean that the budget has been set taking account of a further £36m of reductions. These involve re-commissioning services, reprioritising spend, maximising income, increased collaboration, use of alternative delivery models and maximising non front line service savings. Full detail of the savings plans for 2015/2016 is set out in the Budget Report to Council of 4th March 2015.

Looking to the medium term, the Government has yet to provide funding levels beyond 2015/2016. However, the Chancellor has indicated that reductions will continue on a similar trajectory to that experienced since 2010. This would indicate the five year savings requirement for 2015/2016 to 2019/2020 to be in the region of £149m. The outlook is therefore extremely challenging and it is clear that as more savings are required the ability to protect frontline services will become increasingly difficult.

The Council continues to plan for these further significant reductions and risks. As set out in the Medium Term Financial Strategy, the achievement of savings will be through a programme of activity based around the council's Community Leadership approach. The Council's role will increasingly shift from delivering services to enabling individuals, communities, and other organisations in the public, private and voluntary sectors to work together to address the needs of the city and to encourage people to be more self-supporting.

The Council's Improvement Agenda

The Council has continued to address the significant Government funding reductions through a programme of improvement activity across the Council, which includes:

- The Business Transformation Programme remains the Council's key method to reduce cost and drive improved outcomes. This seeks to understand and meet most important community needs by:
 - Developing improved service and customer insight and intelligence to help target resources effectively;
 - Development of communities by:
 - enabling partners, businesses and residents to come together for future service delivery models and regeneration activity;
 - working with communities and the voluntary sector to help support the delivery of services in the future;
 - Managing demand and facilitating those services which make a difference in the most effective way;
 - Continuing the focus on the CSN as the gateway of demand and supply for services with the aim of targeting resources to areas of greatest need, and encouraging and supporting self-help;
 - Continuing the review of Strategic Services and Fixed Assets;
 - Integrating Commissioning to ensure services are commissioned in the most effective way;
 - Continuing to focus on progressing Regeneration, funding leverage and commercial opportunities.

The programme continues to consider the most effective models for service delivery and in February 2015 Sports and Leisure Management Limited were appointed as the partner for a joint venture for the management and operation of the council's leisure facilities. Contractual arrangements have now been concluded and SLM began operating the facilities from 1st June 2015.

The Business Transformation programme delivered savings in 2014/2015 via:

- Reviews within Strategic and Shared Services, ICT and CSN to re-engineer services to reflect the business needs of the Council and reviewing the Council's use of operational buildings and fleet arrangements to reduce costs.
- A range of service review activity including:
 - reviews of operational arrangements for responsive local services and waste collection;
 - the delivery of care and support services through a Local Authority Trading Company in its first full year of operation;
 - Reviews of Directorate staffing structures to reflect the business needs of the Council.
- A range of Workforce Planning measures over the last five years has enabled the size of the workforce to be reduced in a planned and managed way. A combination of measures, including restrictions on external recruitment, internal redeployments, early retirements and a voluntary severance scheme, has meant the workforce reduced by another 7.4% (359 employees) during 2014/2015. The severance scheme has

Foreword by the Director of Finance

continued to demonstrate strong value for money enabling early release of planned savings for 2015/2016 and significant annual on-going savings to be secured. The costs of the scheme were contained within the 2014/2015 budget.

- Underpinning the Council wide approach to improvement is a programme of activity based around the Council's Community Leadership approach. This is helping to deliver savings through:
 - Promoting transformation in the Councils approach to demand management
 - Strengthening the councils drive to make services more responsive to the needs of our communities
 - Strengthening the community leadership contribution of local councillors
 - Working with main partner organisations to explore more efficient means of addressing common issues and opportunities and maximise the use of our collective asset base
 - Changing the relationship between the Council and the communities it serves in order to identify priorities, shape the best ways of addressing these and maximising the contribution of the communities themselves to finding sustainable solution.

- The Economic Regeneration Programme focuses on the Council's contribution to the delivery of those programmes and projects identified and prioritised as being important to achieving the aims of the Sunderland Economic Master Plan. The main objective is to improve Sunderland's economic prosperity. The Economic Regeneration Programme is directed by an Economic Leadership Board comprising representatives of the private sector, public sector and social enterprises. Key successes for 2014/2015 include:
 - Progressing with the Council's City Deal proposal to create a new International Advanced Manufacturing Park, a proposed 100 hectare development to the north of the Nissan plant that will house new automotive, logistics and offshore manufacturing businesses. This development will support the vision for local economic growth as set out by the North East Local Enterprise Partnership and increasing private sector growth and employment. The deal also includes a range of Government improvements to the A19 plus confirmation of funding towards the new Wear bridge project and its approach roads.
 - Completing the St Mary's Boulevard realignment scheme to create a four lane gateway into the city centre for vehicles and a pedestrian-focussed connection between the city centre and the central business district planned for the former Vaux brewery site. The newly realigned road forms part of the Sunderland Strategic Transport Corridor (SSTC) that connects key city locations; including the North East's Low Carbon Enterprise Zone, major assets including the Port of Sunderland (with its huge growth area as both a gateway to Europe and key to supporting the off-shore wind industry) and the dynamic Nissan car plant.
 - Appointing Farrans Victor Buyck (FVB) as the preferred contractor for the delivery of the New Wear Bridge. Following confirmation of funding from central government and contract signature in early May 2015, FVB will begin the construction with completion for all of the works programmed for spring 2018 which will improve transport connectivity and assist with economic regeneration of the City.
 - Establishment of a £112m capital programme within the Council's budget to bring forward major developments during 2015/2016.
 - Forming Siglion LLP, a joint venture with Carillion (Maple Oak) Limited in November 2014 for its Local Asset Backed Vehicle, with Igloo Regeneration Limited providing a range of asset and development management services. The Council transferred the majority of its investment property portfolio and a number of development sites into Siglion which will accelerate and deliver physical and economic regeneration of the city on those sites.

Business Rates and Council Tax

The financial year 2014/2015 marked the second year of the revision to the local government finance regime with the introduction of the retained business rates scheme. The main aim of the scheme is to give Councils a greater incentive to grow businesses in their area. However it also increases the financial risk due to volatility, non-collection of rates and additional liabilities in respect of appeals.

In addition, 2014/2015 also marked the second year of the abolition of the national Council Tax Benefit system which required local authorities to develop local schemes known as the Local Council Tax Scheme.

Foreword by the Director of Finance

These changes have resulted in significant risk transfer to the Council from Central Government as any non-collection of income must now be borne, at least in part by the Council. Arrangements ensure this additional risk is closely monitored and reviewed as part of the regular budget monitoring carried out by the Council.

Equal Pay claims

The Council has a number of outstanding equal pay claims from staff who are seeking financial redress in respect of periods when unequal pay is alleged to have been paid by the Council in relation to previously operated bonus schemes. Claims have been stayed by the Employment Tribunal to enable, without prejudice, settlement discussions. There are a number of grievances concerning identical issues. Following settlement discussions, a significant number of claims and grievances have been settled. Efforts are on-going to reach settlements in residual cases.

Workforce Transformation

The Council is currently undertaking a Workforce Transformation project. The purpose of the project is to devise and implement a new local agreement for employees that will provide a set of modern, streamlined terms and conditions of employment and a modern, flexible pay and grading structure that meets the future needs of the organisation. The project is expected to be implemented during 2015/2016.

Capital Expenditure and Income and Major Acquisitions, Capital Works and Disposals during 2014/2015

Capital Expenditure for the year totalled £71.477m. Expenditure on non-current assets for 2014/2015 was £56.420m (Note 12, page 60), whilst expenditure on intangible assets was £0.427m (Note 15, page 64). The remainder of £14.630m represents grants, advances to other organisations for capital purposes, de-minimis expenditure transferred to revenue, and expenditure on property not owned by the Council.

The above total capital expenditure was financed by Borrowing of £35.057m, Capital Receipts of £2.842m, Government Grants and other Contributions of £28.820m, and Revenue Contributions from Reserves of £4.758m.

The Council spent £6.457m on the purchase of land and property during 2014/2015. This included strategic land acquisitions that will be used to regenerate the city centre and surrounding areas, and investment for the Port to benefit economic growth.

The Council is involved in a number of major projects. The main schemes are listed below for information, and show the amounts of expenditure incurred during 2014/2015, the total estimated gross cost of each scheme, and the status of the project at the end of this financial year.

Scheme / Project	Expenditure during 2014/2015 £'000	Total Currently Estimated Gross Cost £'000	Physically Completed / In Progress as at 31 March 2015
Washington Leisure Centre	7,202	11,300	In progress
Waste Transfer Station	5,651	5,651	Complete
St Mary's Boulevard & Keel Square	4,838	12,581	In progress
Industrial Portfolio Improvements Works	3,027	6,147	In progress
Low Carbon Enterprise Zone Transport Infrastructure	2,904	8,810	In progress
Strategic Transport Corridor Phase 2 (New Wear Bridge)	2,697	117,600	In progress

The Council transferred the majority of its investment property portfolio and a number of development sites into its Local Asset Backed Vehicle, Siglion which will accelerate and deliver physical and economic regeneration of

Foreword by the Director of Finance

the city on those sites. The Council received loan notes totalling £23.5m for these assets that will be repaid over the term of the LABV agreement. There were no other major asset disposals (over £0.500m) made during the year. In addition six schools became academies as disclosed in Note 5 (page 50). In these cases, the assets transferred from the Council to the academies without a capital receipt in accordance with government regulations.

Council's Borrowing and Treasury Management Position

The Capital Programme report incorporating Prudential Indicators and the Treasury Management Policy and Strategy submitted to Council on 5th March 2014 detailed the 2014/2015 borrowing limits for the Council.

The specific borrowing limits set relate to two of the Prudential Indicators, which are required under the Prudential Code, which was introduced on 1st April 2004. The Council is required to set borrowing limits for the following three financial years. The limits for 2014/2015 were as follows:

- Authorised Limit for External Debt for 2014/2015 of £440.123m.
- Operational Boundary for External Debt for 2014/2015 of £331.753m.

As part of the Council's Treasury Management operation, these two Prudential Indicators are monitored on a daily basis. The Authorised Limit for the Council was not exceeded during 2014/2015. The highest level attained by the Council in respect of the above limit, during 2014/2015, was £338.202m. However the Operational Limit was exceeded due to the fact that the Council's share of the Joint Waste Disposal PFI arrangement, which Gateshead Council leads, has had to be included in the Council's Balance Sheet for 2014/2015. This is a change to the accounting treatment from the previous year and has now been reflected in the amended limits for 2015/2016.

In line with best accounting practice, the Council must follow the Treasury Management Policy and Strategy agreed by full Council each year. The Policy for 2014/2015 is included in detail within the Accounting Policies (Note 1, page 31) for information.

The Greek Debt crisis and expectations of low inflation and economic growth have forced the Eurozone via the European Central Bank (ECB) into implementing a significant package of financial support measures to bolster the EU economy. Added to this, is the continuing conflict in the Ukraine and other geopolitical concerns which have weighed heavily on global markets in 2014/2015 with the result that there has been considerable movement of funds into UK gilts as investors have sought safer investment options. This has had the effect of pushing down both gilt yields and PWLB rates to historic lows. In line with discussions with the Council's economic advisors, the Council took advantage of the low borrowing rate troughs that have occurred at each stage during the year and took out £50 million of new borrowing during the financial year to support the agreed capital programme. These rates were considered opportune at each point in time and will benefit the council's revenue budget over the longer term. The new borrowing is summarised in the following table.

Duration	Date of the transaction	Start	Matures	Rate %	Loan Amount £m
50 years	08/08/2014	12/08/2014	12/08/2064	3.84	10.0
50 years	29/08/2014	02/09/2014	02/09/2064	3.72	10.0
50 years	16/10/2014	20/10/2014	20/10/2064	3.54	10.0
49.5 years	03/02/2015	05/02/2015	05/08/2064	2.84	10.0
14.5 years	12/02/2015	16/02/2015	16/08/2029	2.84	10.0

The Council's economic advisers believe that the UK economy will continue to grow during 2015 and 2016. However the UK economic recovery is fragile and is heavily influenced by the worldwide economic position and by geopolitical events. Projected low levels of inflation mean that the Bank Base rate is not anticipated to rise until at least the second quarter of 2016. Forecasts are that PWLB interest rate levels will rise in the medium-term as a result of the continued recovery in confidence in equity markets, however bond yields remain extremely unpredictable and Economic forecasts will be closely monitored to ensure that potential risks to the Council are minimised.

Foreword by the Director of Finance

The Council has had to operate its Treasury Management function within these very challenging and uncertain times by carefully managing the Council's cash resources and the Council continues to operate a prudent and cautious approach to Treasury Management. The Council follows professional standards and best practice in this specialist area and continues to develop its Treasury Management expertise and knowledge in order to safeguard the Council's resources and thereby reducing the risks that inevitably exist in this complex area.

The performance of the Council's Treasury Management function continues to contribute significant financial savings that are used to provide funding for future years' capital programmes and to help support the Council's revenue budget. The average rate of the Council's borrowing at 3.11% is in the top quartile when benchmarked against other authorities and the 0.76% rate of return achieved on investments in 2014/2015 (benchmark rate of 0.35%) represents a very good achievement, especially when short-term investment rates continue to remain very low, and this helps to show how proactive Treasury Management can have significant positive effects on the Council's resources.

Pensions

The cost of pensions to the Council continues to increase year on year and remains a major item of expenditure which the Council has to meet each year. Through the Hutton Review, pensions have been reviewed and core scheme arrangements agreed which will support the reduction/stabilisation of the employer's costs of funding pensions for public sector workers and to make them more affordable to the Council Tax payer. These changes were implemented on 1st April 2014.

Although IAS19 is regarded as a complex accounting standard it is based on a simple principle, namely that an organisation should account for retirement benefits when it is committed to giving them, even if the actual payment of those benefits will be many years into the future. Inclusion of the pension fund assets and liabilities in the accounts does not mean that the legal title or obligation has passed from the Pension Fund Administrator to the employer. Instead it represents the employer's commitment to increase contributions to make up any shortfall in attributable net assets, or its ability to benefit (through reduced contributions) from a surplus in the Pension Fund.

The last full actuarial valuation of the Pension Fund was carried out as at 31st March 2013 and has been updated by independent actuaries to take into account the requirements of IAS19 in order to assess liabilities as at 31st March 2015.

The Council continues to comply fully with this Standard and the Accounting Policy (Note 1, page32) and the Notes to the Core Financial Statements provide details of the necessary disclosures required.

The net overall impact of IAS19 accounting entries is neutral in the accounts, and, in reality, as the Council is committed to making the necessary pension deficiency payments in order to address any shortfall in the pension fund identified by the Actuary, then the Balance Sheet net worth is in effect reporting future years' deficits, which are being addressed.

The financial health of the Council is consequently being affected by the accounting requirements in respect of IAS19. However, the Pension Fund Reserve Deficit reflected in Note 24 (page 71), as assessed by the Actuary, as at 31st March 2015, is being addressed by the Council in line with government regulations whereby a period of 22 years to correct the deficit position has been agreed. The Council can meet the assessed deficit with planned and agreed future years' contributions based on independent actuarial advice.

Foreword by the Director of Finance

Better Care Pooled Budgets

The Health and Social Care Act introduces substantial changes to the way the NHS in England is organised and run, with responsibility for public health transferring to Local Authorities including the Better Care Fund (BCF).

The BCF is one of the most ambitious ever programmes across the NHS and Local Government. It creates a local single pooled budget to incentivise the NHS and local government to work more closely together around people, placing their well-being as the focus of health and care services.

The Council has entered into a Section 75 agreement with Sunderland Clinical Commissioning Group to create a pooled budget as part of its plans for the BCF from 1 April 2015. The agreement was signed in March 2015 establishing a pooled commissioning budget across health and social care of circa £156m in 2015/2016.

Sonia Tognarelli CPFA
Director of Finance
26th June 2015

Statement of Responsibilities for the Statement of Accounts

The Council's Responsibilities

The Council is required:

1. To make arrangements for the proper administration of its financial affairs and to ensure that one of its officers has the responsibility for the administration of those affairs. In this Council, that officer is the Director of Finance.
2. To manage its affairs to secure economic, efficient and effective use of resources and safeguard its assets.

The Director of Finance's Responsibilities

The Director of Finance is responsible for the preparation of the Council's Statement of Accounts which, in terms of the CIPFA/LASAAC Code of Practice on Local Authority Accounting in the United Kingdom 2014/2015 ("the Code"), is required to present a true and fair view of the financial position of the Council at the accounting date and its income and expenditure for the year ended 31st March 2015.

Authorised for Issue Date

The unaudited accounts were certified on 26th June 2015 and the audited accounts will be authorised for issue on 25th September 2015, once the external audit has been completed.

Certificate of the Director of Finance

I certify that in preparing this statement of accounts I have:

- Selected suitable accounting policies and then applied them consistently;
- Made judgements and estimates that were reasonable and prudent;
- Complied with the Code, except where disclosed.

I have also:

- Kept proper accounting records which were up to date;
- Taken reasonable steps for the prevention and detection of fraud and other irregularities.

Sonia Tognarelli CPFA
Director of Finance

26th June 2015

Independent Auditors' Report to the Members of Sunderland City Council

The Auditors Report will be included in the accounts when they are presented to the Audit and Governance Committee in September 2015.

Independent Auditors' Report to the Members of Sunderland City Council

The Auditors Report will be included in the accounts when they are presented to the Audit and Governance Committee in September 2015.

Annual Governance Statement

SCOPE OF RESPONSIBILITY

The Council is responsible for ensuring that its business is conducted in accordance with the law and proper standards, and that public money is safeguarded and properly accounted for, and used economically, efficiently and effectively. We also have a duty to continually review and improve the way in which functions are exercised.

We have put in place a local Code of Corporate Governance and a framework intended to make sure we do the right things, in the right way, for the right people. The Code is on the Council's website [\[here\]](#) or can be obtained from the Director of Finance. This Statement explains how the Council has complied with its Code in 2014/15.

THE PURPOSE OF THE GOVERNANCE FRAMEWORK

The governance framework comprises the systems and processes, culture and values that direct and control our activities and through which we account to, engage with, and lead the community. The framework enables us to monitor the achievement of strategic objectives and to consider whether those objectives have led to the delivery of appropriate, cost-effective services.

The system of internal control is a significant part of that framework and is designed to manage risk to a reasonable level. It cannot eliminate all risk of failure to achieve policies and objectives and can therefore only provide reasonable and not absolute assurance of effectiveness.

The governance framework has been in place at the Council for the year ended 31st March 2015 and up to the date of approval of the Statement of Accounts.

THE GOVERNANCE FRAMEWORK

There is a clear vision of our purpose and intended outcomes for citizens and service users that is clearly communicated, both within and outside the organisation. The [Sunderland Strategy 2008-2025](#) provides the framework for members of the [Sunderland Partnership](#), organisations, groups of people and individuals, to work together to improve the quality of life in Sunderland by 2025. It sets out a Vision for the city and its people and how everyone will work together to achieve that Vision:

“Creating a better future for everyone in Sunderland - Sunderland will be a welcoming, internationally recognised city where people have the opportunity to fulfil their aspirations for a healthy, safe and prosperous future.”

The Council has developed a set of guiding principles to help decision making and agree priorities. These are:

- Elected members are community leaders at the core of decision making
- Our communities, residents and businesses are at the centre of everything we do
- We encourage, respect and value innovation and enterprise
- We demand high performance, personal responsibility and personal accountability
- We value people's individual contributions to our collective goals
- We are ambitious for the city and for ourselves; we view all change as an opportunity; we celebrate and build on our past without being confined by it.

To translate these principles into action, the Council has set out its priorities under the following clear outcomes that are derived from its vision

People – raising aspirations, creating confidence and promoting opportunity

Place – leading the investment in an attractive and inclusive city and its communities

Economy – creating the conditions in which businesses can establish and thrive.

The Corporate Plan sets out our priorities and the significant actions we will take. These, in turn, shape the activity of our various services and how we will focus our resources. We are clear where we need to get to and what we need to do to get there.

Arrangements are in place to review our vision and its implications for the authority's governance arrangements. The annual strategic planning process, engagement and participation with residents, needs

Annual Governance Statement

analysis and demographic information ensure the authority's vision remains relevant and meets the needs of local communities. There are annual reviews of the local Code of Corporate Governance to ensure that it is up to date and effective. The reviews are overseen by the Council's Corporate Assurance Group using assurances and information gathered through the Integrated Assurance Framework (IAF) which was put in place in 2012/13. The IAF brings together assurances from all available internal and external sources.

Arrangements are in place to measure the quality of our services, to ensure they are delivered in line with our objectives and for ensuring that they provide value for money. There are performance management arrangements in place including a corporate performance review scheme for staff. Services are delivered by suitably qualified / trained / experienced staff and all posts have detailed job profiles / descriptions and person specifications.

The roles and responsibilities of Council members and employees are clearly documented, although the delegation arrangements need to be updated following recent senior management changes. The Council's [Constitution](#) sets out how the Council operates. It incorporates a delegation scheme, indicates responsibilities for functions and sets out how decisions are made.

The Constitution includes Rules of Procedure and a scheme of delegation which clearly define how decisions are taken and we have various Codes and Protocols that set out standards of behaviour for members and staff. Directorates have established delegation schemes, although these require regular updating to reflect on-going organisational changes.

During the year a system of scrutiny was in place allowing the scrutiny function to:

- review and/or scrutinise decisions made or actions taken in connection with the discharge of any of the Council's functions;
- make reports and/or recommendations to the full Council and/or the executive and/or any joint or area committee in connection with the discharge of any functions;
- consider any matter affecting the area or its inhabitants;
- exercise the right to call-in, for reconsideration, decisions made but not yet implemented by the executive and/or area committees; and
- consider Local Petitions and Councillor Calls for Action for matters within their terms of reference.

A range of financial and HR policies and procedures are in place, as well as robust and well embedded risk management processes. Appropriate project management standards and Business Continuity Plans are in place, which are subject to on-going review. There are comprehensive budgeting systems in place and a robust system of budgetary control, including formal quarterly and annual financial reports, which indicate financial performance against forecasts. There are clearly defined capital expenditure guidelines in place and procedures are in place to ensure that the Dedicated Schools Grant is properly allocated to and used by schools in line with the terms of grant given by the Secretary of State under section 16 of the Education Act 2002.

The authority's financial management arrangements conform to the governance requirements of the CIPFA Statement on the Role of the Chief Financial Officer in Local Government (2010). The Director of Finance is the designated Chief Finance Officer and fulfils this role through the following:

- Attendance at meetings of the Executive Management Team, helping it to develop and implement strategy and to resource and deliver the Council's strategic objectives sustainably and in the public interest;
- Involvement in all material business decisions to ensure immediate and longer term implications, opportunities and risks are fully considered;
- Alignment of medium term business and financial planning processes;
- Leading the promotion and delivery of good financial management by the whole organisation so that public money is safeguarded and used appropriately, economically, efficiently and effectively;
- Ensuring that the finance function is resourced to be fit for purpose.

The Council has an Audit and Governance Committee which, as well as approving the Authority's Statement of Accounts, undertakes an assurance and advisory role to:

- consider the effectiveness of the authority's corporate governance arrangements, risk management arrangements, the control environment and associated anti-fraud and corruption arrangements and seek assurance that action is being taken on risk-related issues identified by auditors and inspectors;

Annual Governance Statement

- be satisfied that the authority's assurance statements, including the Annual Governance Statement, properly reflect the risk environment and any actions required to improve it;
- receive and consider (but not direct) internal audit's strategy, plan and monitor performance;
- receive and consider the external audit plan;
- review a summary of internal audits, the main issues arising, and seek assurance that action has been taken where necessary;
- receive and consider the annual report of internal audit;
- consider the reports of external audit and inspection agencies, including the Annual Audit Letter;
- ensure that there are effective relationships between external and internal audit, inspection agencies and other relevant bodies, and that the value of the audit process is actively promoted;
- review the external auditor's opinions and reports to members, and monitor management action in response to the issues raised by external audit;
- review the adequacy of and compliance with, the Councils Treasury Management Policy; and
- make recommendations to Cabinet or Council as appropriate.

We have arrangements to ensure compliance with relevant laws, regulations, internal policies and procedures, and that expenditure is lawful. The Head of Law and Governance is the Council's designated Monitoring Officer and a protocol is in place with all Chief Officers, to safeguard the legality of all Council activities. All Cabinet Reports are considered for legal issues before submission to members.

The Council's internal audit service has been subject to an independent review of its effectiveness which concluded that the service operates in accordance with professional standards.

Arrangements for whistle-blowing and for receiving and investigating complaints from the public are well publicised. We are committed to maintaining these arrangements to ensure that, where any individual has concerns regarding the conduct of any aspect of the Council's business, they can easily report their concerns. Monitoring records held by the Head of Law and Governance reveal that the whistle blowing arrangements are being used by both staff and the public, and that the Council is responding appropriately. The whistle blowing arrangements have assisted with the maintenance of a strong regime of internal control.

We have arrangements to identify the development needs of members and senior officers in relation to their strategic roles. The Community Leadership Programme has continued to support elected Members to fulfil their community leadership role. The Council's HR strategy identifies managing the performance of all of employees is key to ensuring that the organisation meets the needs of the community. This includes assessing ability against requirements of the role, annual appraisal focusing on strengths and highlighting areas of weakness, job related training, and ongoing evaluation of the extent to which employees understand and support the values of the Council.

Clear channels of communication have been established with all sections of the community to promote accountability and encourage open consultation. We are committed to listening to, and acting upon, the views of the local community and carry out consultation in order to make sure that services meet the needs of local people. Community Spirit is Sunderland's residents' panel, currently made up of over 1,000 residents from all parts of the city.

The Council has a Code of Practice for Partnerships which includes a template for Partnership Agreements and a range of checklists to ensure key risk areas are considered and addressed. The Code is designed to provide a corporate framework for all staff involved in considering new partnership working, and to assist Members and employees to review existing arrangements.

REVIEW OF EFFECTIVENESS

The Council has responsibility for conducting, at least annually, a review of the effectiveness of its governance framework including the system of internal control. The review of the effectiveness is carried out over the course of the year through the Integrated Assurance Framework. The review is informed by the Corporate Assurance Map which summarises assurances gathered from all available sources and in particular:

- Assurances from Heads of Service who have carried out self-assessments relating to their areas of responsibility.
- Assurances from senior officers responsible for relevant specialist areas.

Annual Governance Statement

- Internal audit planning processes which include consultation with all Chief Officers, and audit activity as detailed in the Internal Audit Annual Report.
- The external auditors (Mazars) Annual Audit Letter for 2013/2014 provides an unqualified opinion on the financial statements. The report confirms that the Council has proper arrangements in place to secure financial resilience, and for challenging how it secures economy, efficiency and effectiveness.

The Head of Assurance, Procurement and Projects has directed, co-ordinated and overseen the review and its findings have been reported to the Executive Management Team and Cabinet for their consideration and approval of the Annual Governance Statement.

The outcome of the review of effectiveness provided the necessary assurance and that no significant issues were identified. The findings of the review have been reported to the Audit and Governance Committee and under their Terms of Reference the Committee have satisfied themselves that the Annual Governance Statement properly reflects the risk environment and any actions required to improve it.

Cabinet and the Audit and Governance Committee have advised us of the findings of the review of the effectiveness of the governance framework, and an improvement plan has been agreed.

We propose over the coming year to take steps to implement the improvement plan to further enhance the Council's governance arrangements. We are satisfied that these steps will address the need for improvements that were identified in the review and we will monitor their implementation and operation as part of the next annual review.

Movement in Reserves Statement

This statement shows the movement in the year on the different reserves held by the Council, analysed into 'usable reserves' (i.e. those that can be applied to fund expenditure or reduce local taxation) and 'unusable reserves'. The (Surplus) or Deficit on the Provision of Service line shows the true economic cost of providing the Council's services, more detail of which is shown in the Comprehensive Income and Expenditure Statement. These are different to the statutory amounts required to be charged to the General Fund Balance for council tax setting. The Net (Increase) / Decrease before Transfers to / (from) Earmarked Reserves line shows the statutory General Fund Balance before any discretionary transfers to or from Earmarked Reserves are undertaken by the Council. The tables below show the details for both 2013/2014 and 2014/2015 as required by the Code of Accounting Practice.

Comprehensive Income and Expenditure Statement

This statement shows the accounting cost in the year of providing services in accordance with generally accepted accounting practice, rather than the amount to be funded from taxation. Authorities raise taxation to cover expenditure in accordance with regulations; this may be different from the accounting cost. The taxation position is shown in the Movement in Reserves Statement.

Balance Sheet

The Balance Sheet shows the value at the Balance Sheet date of the assets and liabilities recognised by the Council. The net assets of the Council (assets less liabilities) are matched by reserves held by the Council. Reserves are reported in two categories. The first category of reserves are usable reserves, i.e. those reserves that the Council may use to provide services, subject to the need to maintain a prudential level of reserves and any statutory limitations on their use (for example the Capital Receipts Reserve that may only be used to fund capital expenditure or repay debt). The second category of reserves is those that the Council is not able to use to provide services. This category of reserves includes reserves that hold unrealised gains and losses (for example the Revaluation Reserve), where amounts would only become available to provide services if the assets are sold; and reserves that hold timing differences shown in the Movement in Reserves Statement line 'Adjustments between accounting basis and funding basis under regulations'.

Financial Statements

Cash Flow Statement

The Cash Flow Statement shows the changes in cash and cash equivalents of the Council during the reporting period. The statement shows how the Council generates and uses cash and cash equivalents by classifying cash flows as operating, investing and financing activities. The amount of net cash flows arising from operating activities is a key indicator of the extent to which the operations of the Council are funded by way of taxation and grant income or from the recipients of services provided by the Council. Investing activities represent the extent to which cash outflows have been made for resources which are intended to contribute towards the Council's future service delivery. Cash flows arising from financing activities are useful in predicting claims on future cash flows by providers of capital (i.e. borrowing) to the Council.

2013/2014 £'000		Notes	2014/2015 £'000

Notes to the Accounts

Note 1 – Significant Accounting Policies

1.1 General Principles

The Statement of Accounts summarises the Council's transactions for the 2014/2015 financial year and its position at the year end of 31 March 2015. The Council is required to prepare an annual Statement of Accounts by the Accounts and Audit Regulations 2011, and these Regulations require the Statement of Accounts to be prepared in accordance with proper accounting practices. These practices primarily comprise the Code of Practice on Local Authority Accounting in the United Kingdom 2014/2015 and the Service Reporting Code of Practice 2014/2015, supported by International Financial Reporting Standards (IFRS).

The accounting convention adopted in the Statement of Accounts is principally historical cost, modified by the revaluation of certain categories of non-current assets and financial instruments.

1.2 Accruals of Income & Expenditure

Activity is accounted for in the year that it takes place, not simply when cash payments are made or received. In particular:

- Revenue from the sale of goods is recognised when the Council transfers the significant risks and rewards of ownership to the purchaser and it is probable that economic benefits or service potential associated with the transaction will flow to the Council.
- Revenue from the provision of services is recognised when the Council can measure reliably the percentage of completion of the transaction and it is probable that economic benefits or service potential associated with the transaction will flow to the Council.
- Supplies are recorded as expenditure when they are consumed – where there is a gap between the date supplies are received and their consumption, they are carried as inventories on the Balance Sheet.
- Expenses in relation to services received (including services provided by employees) are recorded as expenditure when the services are received rather than when payments are made.
- Interest receivable on investments and payable on borrowings is accounted for respectively as income and expenditure on the basis of the effective interest rate for the relevant financial instrument rather than the cash flows fixed or determined by the contract.
- Where revenue and expenditure have been recognised but cash has not been received or paid, a debtor or creditor for the relevant amount is recorded in the Balance Sheet. Where debts may not be settled, the balance of debtors is written down and a charge made to revenue for the income that might not be collected.
- A full year's charge is included in the accounts for those supplies and services used continuously and charged on a periodic basis (e.g. gas, electricity and water), but the period covered by the payments does not always coincide with the financial year.

1.3 Cash and Cash Equivalents

Cash is represented by cash in hand and deposits with financial institutions repayable without penalty on notice of not more than 24 hours. Cash equivalents are highly liquid investments that mature in three months or less from the date of acquisition and that are readily convertible to known amounts of cash with insignificant risk of change in value.

In the Cash Flow Statement, cash and cash equivalents are shown net of bank overdrafts that are repayable on demand and form an integral part of the Council's cash management.

1.4 Exceptional Items

When items of income and expenditure are material, their nature and amount is disclosed separately, either on the face of the Comprehensive Income and Expenditure Statement or in the notes to the

Notes to the Accounts

accounts, depending on how significant the items are to an understanding of the Council's financial performance.

1.5 Prior Period Adjustments, Changes in Accounting Policies and Estimates and Errors

Prior period adjustments may arise as a result of a change in accounting policies or to correct a material error. Changes in accounting estimates are accounted for prospectively, i.e. in the current and future years affected by the change and do not give rise to a prior period adjustment.

Changes in accounting policies are only made when required by proper accounting practices or the change provides more reliable or relevant information about the effect of transactions, other events and conditions on the Council's financial position or financial performance.

Where a change is made, it is applied retrospectively (unless stated otherwise) by adjusting opening balances and comparative amounts for the prior period as if the new policy had always been applied.

Material errors discovered in prior period figures are corrected retrospectively by amending opening balances and comparative amounts for the prior period. The reason and impact of any necessary adjustments are explained in more detail in the accounts as required.

1.6 Charges to Revenue for Non-Current Assets

Services, support services and trading accounts are debited with the following amounts to record the cost of holding non-current assets during the year:

- Depreciation attributable to the assets used by the relevant service;
- Revaluation and impairment losses on assets used by the service where there are no accumulated gains in the Revaluation Reserve against which the losses can be written off;
- Amortisation of intangible assets attributable to the service.

The Council is not required to raise council tax to fund depreciation, revaluation and impairment losses or amortisation. However, it is required to make an annual contribution from revenue towards the reduction in its overall borrowing requirement equal to an amount calculated on a prudent basis determined by the Council in accordance with statutory guidance.

Depreciation, revaluation and impairment losses and amortisation are therefore replaced by the contribution in the General Fund Balance (Minimum Revenue Provision), by way of an adjusting transaction with the Capital Adjustment Account in the Movement in Reserves Statement for the difference between the two.

1.7 Employee Benefits

Benefits Payable during Employment

Short-term employee benefits are those due to be settled wholly within 12 months of the year-end. They include such benefits as wages and salaries, paid annual leave and paid sick leave, bonuses and non-monetary benefits (e.g. cars) for current employees and are recognised as an expense for services in the year in which employees render service to the Council. An accrual is made for the cost of holiday entitlements (or any form of leave, e.g. time off in lieu) earned by employees but not taken before the year-end which employees can carry forward into the next financial year.

The accrual is charged to Surplus or Deficit on the Provision of Services, but then reversed out through the Movement in Reserves Statement so that holiday entitlements are charged to revenue in the financial year in which the holiday absence occurs.

Notes to the Accounts

Termination Benefits

Termination benefits are amounts payable as a result of a decision by the Council to terminate an officer's employment before the normal retirement date or an officer's decision to accept voluntary redundancy in exchange for those benefits. They are charged on an accruals basis to the appropriate service or, where applicable, to the Non Distributed Costs line in the Comprehensive Income and Expenditure Statement at the earlier of when the Council can no longer withdraw the offer of those benefits or when the Council recognises costs for a restructuring.

Where termination benefits involve the enhancement of pensions, statutory provisions require the General Fund balance to be charged with the amount payable by the Council to the pension fund or pensioner in the year, not the amount calculated according to the relevant accounting standards. In the Movement in Reserves Statement, appropriations are required to and from the Pensions Reserve to remove the notional debits and credits for pension enhancement termination benefits and replace them with debits for the cash paid to the pension fund and pensioners and any such amounts payable but unpaid at the year-end.

Post-Employment Benefits

Employees of the Council are members of two separate pension schemes:

- The Teachers' Pension Scheme, administered by Capita Teachers' Pensions on behalf of the Department for Education (DfE) and
- The Local Government Pensions Scheme, administered by South Tyneside Council.

Both schemes provide defined benefits to members (retirement lump sums and pensions), earned as employees work for the Council.

However, the arrangements for the teachers' scheme mean that liabilities for these benefits cannot ordinarily be identified specifically to the Council. The scheme is therefore accounted for as if it were a defined contribution scheme and as a result no liability for future payments of benefits is recognised in the Council's Balance Sheet. The Education Services line in the Comprehensive Income and Expenditure Statement is charged with the employer's contributions payable to Teachers' Pensions in the year.

The Local Government Pension Scheme

The Local Government Scheme is accounted for as a defined benefits scheme:

- The liabilities of the Tyne and Wear Pension fund attributable to the Council are included in the Balance Sheet on an actuarial basis using the projected unit method – i.e. an assessment of the future payments that will be made in relation to retirement benefits earned to date by employees, based on assumptions about mortality rates, employee turnover rates, etc, and projections of projected earnings for current employees;
- Liabilities are discounted to their value at current prices, using a discount rate based on the indicative rate of return on high quality corporate bonds;
- The assets of the Tyne and Wear Pension fund attributable to the Council are included in the Balance Sheet at their fair value:
 - quoted securities at current bid price;
 - unquoted securities based on professional estimate;
 - unitised securities at current bid price;
 - property at market value;
- The change in the net pension liability is analysed into the following components:

Notes to the Accounts

a) Service cost comprising:

- current service cost – the increase in liabilities as a result of years of service earned this year – allocated in the Comprehensive Income and Expenditure Statement to the services for which the employees worked;
- past service cost – the increase in liabilities arising from current year decisions whose effect relates to years of service earned in earlier years – debited to the Surplus or Deficit on the Provision of Services in the Comprehensive Income and Expenditure Statement as part of Non Distributed Costs;
- net interest on the net defined benefit liability (asset), ie net interest expense for the Council – the change during the period in the net defined benefit liability (asset) that arises from the passage of time charged to the Financing and Investment Income and Expenditure line of the Comprehensive Income and Expenditure Statement – this is calculated by applying the discount rate used to measure the defined benefit obligation at the beginning of the period to the net defined benefit liability (asset) at the beginning of the period – taking into account any changes in the net defined benefit liability (asset) during the period as a result of contribution and benefit payments.

b) Re-measurements comprising:

- the return on plan assets – excluding amounts included in net interest on the net defined benefit liability (asset) – charged to the Pension Reserve as Other Comprehensive Income and Expenditure;
- actuarial gains and losses – changes in the net pension liability that arise because events have not coincided with assumptions made at the last actuarial valuation or because the actuaries have updated their assumptions – charged to the Pension Reserve as Other Comprehensive Income and Expenditure.

c) contributions paid to the Tyne and Wear Pension fund – cash paid as employer's contributions to the pension fund in settlement of liabilities; not accounted for as an expense.

In relation to retirement benefits, statutory provisions require the General Fund balance to be charged with the amount payable by the Council to the pension fund or directly to pensioners in the year, not the amount calculated according to the relevant accounting standards. In the Movement in Reserves Statement, this means that there are transfers to and from the Pensions Reserve to remove the notional debits and credits for retirement benefits and replace them with debits for the cash paid to the pension fund and pensioners and any such amounts payable but unpaid at the year-end. The negative balance that arises on the Pensions Reserve thereby measures the beneficial impact to the General Fund of being required to account for retirement benefits on the basis of cash flows rather than as benefits are earned by employees.

Discretionary Benefits

The Council also has restricted powers to make discretionary awards of retirement benefits in the event of early retirements. Any liabilities estimated to arise as a result of an award to any member of staff (including teachers) are accrued in the year of the decision to make the award and accounted for using the same policies as those applied to the Local Government Pension Scheme.

1.8 Events after the Balance Sheet Date

Events after the Balance Sheet date are those events, both favourable and unfavourable, that occur between the end of the reporting period and the date when the Statement of Accounts is authorised for issue. Two types of events can be identified:

- Those that provide evidence of conditions that existed at the end of the reporting period. The Statement of Accounts is adjusted to reflect such events;
- Those that are indicative of conditions that arose after the reporting period – the Statement of Accounts is not adjusted to reflect such events, but where a category of events would have a

Notes to the Accounts

material effect, disclosure is made in the notes of the nature of the events and their estimated financial effect.

Events taking place after the date of authorisation for issue are not required to be reflected in the Statement of Accounts.

1.9 Financial Instruments

Financial Liabilities

Financial liabilities are recognised on the Balance Sheet when the Council becomes a party to the contractual provisions of a financial instrument and these are initially measured at fair value and are carried at their amortised cost. Annual charges to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement for interest payable are based on the carrying amount of the liability, multiplied by the effective rate of interest for the instrument. The effective interest rate is the rate that exactly discounts estimated future cash payments over the life of the instrument to the amount at which it was originally recognised.

For most of the borrowings that the Council has, this means that the amount presented in the Balance Sheet is the outstanding principal repayable (plus accrued interest); and interest charged to the Comprehensive Income and Expenditure Statement is the amount payable for the year according to the loan agreement.

Gains and losses on the repurchase or early settlement of borrowing are credited and debited to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement in the year of repurchase/settlement. However, where repurchase has taken place as part of a restructuring of the loan portfolio that involves the modification or exchange of existing instruments, the premium or discount is respectively deducted from or added to the amortised cost of the new or modified loan and the write-down to the Comprehensive Income and Expenditure Statement is spread over the life of the loan by an adjustment to the effective interest rate.

Where premiums and discounts have been charged to the Comprehensive Income and Expenditure Statement, regulations allow the impact on the General Fund Balance to be spread over future years. The Council has a policy of spreading the gain or loss over the term that was remaining on the loan against which the premium was payable or discount receivable when it was repaid. The reconciliation of amounts charged to the Comprehensive Income and Expenditure Statement to the net charge required against the General Fund Balance is managed by a transfer to or from the Financial Instruments Adjustment Account in the Movement in Reserves Statement.

Financial Assets

Financial assets are classified into four types:

Loans and Receivables

Loans and receivables are recognised on the Balance Sheet when the Council becomes a party to the contractual provisions of a financial instrument and are initially measured at fair value. They are subsequently measured at their amortised cost. Annual credits to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement for interest receivable are based on the carrying amount of the asset multiplied by the effective rate of interest for the instrument. For most of the loans that the Council has made, this means that the amount presented in the Balance Sheet is the outstanding principal receivable (plus accrued interest) and interest credited to the Comprehensive Income and Expenditure Statement is the amount receivable for the year in the loan agreement.

Where assets are identified as impaired because of a likelihood arising from a past event that payments due under the contract will not be made, the asset is written down and a charge made to the relevant service (for receivables specific to that service) or the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement. The impairment loss is measured as the difference between the carrying amount and the present value of the revised future cash flows discounted at the asset's original effective interest rate.

Notes to the Accounts

Any gains and losses that arise on the de-recognition of an asset are credited or debited to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement.

Soft Loans (loans below market rate)

A Soft Loan is a loan made to a third party at a preferential rate of interest, i.e. below market rate. In accordance with the Code of Practice on Local Authority Accounting, the difference between the interest payable to the Council by the recipient of the loan and the amount they would have paid if they had acquired a loan for the same amount on the open market is charged to the Income and Expenditure Account under the relevant net cost of service heading. This charge is then reversed out through the Movement in Reserves Statement to mitigate any effect on Council Tax.

Available-for-Sale Assets

Available-for-sale assets are recognised on the Balance Sheet when the Council becomes a party to the contractual provisions of a financial instrument and are initially measured and carried at fair value. Where the asset has fixed or determinable payments, annual credits to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement for interest receivable are based on the amortised cost of the asset multiplied by the effective rate of interest for the instrument. Where there are no fixed or determinable payments, income (e.g. dividends) is credited to the Comprehensive Income and Expenditure Statement when it becomes receivable by the Council. Assets are maintained in the Balance Sheet at fair value. Values are based on the following principles:

- Instruments with quoted market prices – the market price;
- Other instruments with fixed and determinable payments – discounted cash flow analysis;
- Equity shares with no quoted market prices – independent appraisal of company valuations.

Changes in fair value are balanced by an entry in the Available-for-Sale Reserve and the gain/loss is recognised in the Surplus or Deficit on Revaluation of Available-for-Sale Financial Assets. The exception is where impairment losses have been incurred – these are debited to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement, along with any net gain or loss for the asset accumulated in the Available-for-Sale Reserve.

Where assets are identified as impaired because of a likelihood arising from a past event that payments due under the contract will not be made (fixed or determinable payments) or fair value falls below cost, the asset is written down and a charge made to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement. If the asset has fixed or determinable payments, the impairment loss is measured as the difference between the carrying amount and the present value of the revised future cash flows discounted at the asset's original effective interest rate. Otherwise, the impairment loss is measured as any shortfall of fair value against the acquisition cost of the instrument (net of any principal repayment and amortisation).

Any gains and losses that arise on the de-recognition of the asset are credited or debited to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement, along with any accumulated gains or losses previously recognised in the Available-for-Sale Reserve.

Where fair value cannot be measured reliably, the instrument is carried at cost (less any impairment losses).

Other Investments

Investments in companies and in marketable securities are shown in the Balance Sheet at cost. Provision for losses in value is made where appropriate in accordance with the Code of Practice on Local Authority Accounting. No such provisions have been considered necessary at this time.

Notes to the Accounts

1.10 Government Grants & Contributions

Whether paid on account, by instalments or in arrears, government grants and third party contributions and donations are recognised as due to the Council when there is reasonable assurance that:

- The Council will comply with the conditions attached to the payments; and
- The grants or contributions will be received.

Amounts recognised as due to the Council are not credited to the Comprehensive Income and Expenditure Statement until conditions attached to the grant or contribution have been satisfied. Conditions are stipulations that specify that the future economic benefits or service potential embodied in the asset acquired using the grant or contribution are required to be consumed by the recipient as specified, or future economic benefits or service potential must be returned to the transferor.

Monies advanced as grants and contributions for which conditions have not been satisfied are carried in the Balance Sheet as creditors. When conditions are satisfied, the grant or contribution is credited to the relevant service line (attributable revenue grants and contributions) or Taxation and Non-Specific Grant Income and Expenditure (non-ringfenced revenue grants and all capital grants) in the Comprehensive Income and Expenditure Statement.

Where capital grants are credited to the Comprehensive Income and Expenditure Statement, they are reversed out of the General Fund Balance in the Movement in Reserves Statement. Where the grant has yet to be used to finance capital expenditure, it is posted to the Capital Grants Unapplied Reserve. Where it has been applied, it is posted to the Capital Adjustment Account. Amounts in the Capital Grants Unapplied Reserve are transferred to the Capital Adjustment Account once they have been applied to fund capital expenditure.

Business Improvement District (BID)

A Business Improvement District (BID) scheme applies to a designated area within the City Centre. The scheme is funded by a BID levy paid by non-domestic ratepayers. The Council acts as a principal under the scheme, and accounts for income received and expenditure incurred (including contributions to the BID project) within the relevant services within the Comprehensive Income and Expenditure Statement.

1.11 Intangible Assets

Expenditure on non-monetary assets that do not have physical substance but are controlled by the Council as a result of past events (e.g. software licences) is capitalised when it is expected that future economic benefits or service potential will flow from the intangible asset to the Council.

Internally generated assets are capitalised where it is demonstrable that the project is technically feasible and is intended to be completed (with adequate resources being available) and the Council will be able to generate future economic benefits or deliver service potential by being able to sell or use the asset. Expenditure is capitalised where it can be measured reliably as attributable to the asset and is restricted to that incurred during the development phase (research expenditure cannot be capitalised).

Expenditure on the development of websites is not capitalised if the website is solely or primarily intended to promote or advertise the Council's goods or services.

Intangible assets are measured initially at cost. Amounts are only re-valued where the fair value of the assets held by the Council can be determined by reference to an active market. In practice, no intangible asset held by the Council meets this criterion, and they are therefore carried at amortised cost. The depreciable amount of an intangible asset is amortised over its useful life to the relevant service line(s) in the Comprehensive Income and Expenditure Statement. An asset is tested for impairment whenever there is an indication that the asset might be impaired – any losses recognised are posted to the relevant service line(s) in the Comprehensive Income and Expenditure Statement.

Notes to the Accounts

Any gain or loss arising on the disposal or abandonment of an intangible asset is posted to the Other Operating Expenditure line in the Comprehensive Income and Expenditure Statement.

Where expenditure on intangible assets qualifies as capital expenditure for statutory purposes, amortisation, impairment losses and disposal gains and losses are not permitted to have an impact on the General Fund Balance. The gains and losses are therefore reversed out of the General Fund Balance in the Movement in Reserves Statement and posted to the Capital Adjustment Account and (for any sale proceeds greater than £10,000) the Capital Receipts Reserve.

The only category of intangible assets for the Council is software licences; the asset life used for licences is between 5 and 10 years depending on licence conditions.

1.12 Interests in Companies & Other Entities

The Council has material interests in companies and other entities that have the nature of subsidiaries, associates and jointly controlled entities and require it to prepare group accounts. In the Council's own single entity accounts, the interests in companies and other entities are recorded as financial assets at cost, less any provision for losses.

1.13 Inventories

Inventories are included in the Balance Sheet at cost price, with the exception of inventories held by Building and Highways Maintenance Department within City Services and salt stock which is valued at latest price. A de-minimis level of £5,000 is applied to inventories.

1.14 Investment Property

Investment properties are those that are used solely to earn rentals and/or for capital appreciation. The definition is not met if the property is used in any way to facilitate the delivery of services or production of goods or is held for sale. The only investment properties held by the Council are areas of land which are held for capital appreciation and therefore earn no rental income.

Investment properties are measured initially at cost and subsequently at fair value, based on the amount at which the asset could be exchanged between knowledgeable parties at arm's-length. Properties are not depreciated but are revalued annually according to market conditions at the year-end. Gains and losses on revaluation are posted to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement. The same treatment is applied to gains and losses on disposal.

Revaluation and disposal gains and losses are not permitted by statutory arrangements to have an impact on the General Fund Balance. The gains and losses are therefore reversed out of the General Fund Balance in the Movement in Reserves Statement and posted to the Capital Adjustment Account and (for any sale proceeds greater than £10,000) the Capital Receipts Reserve.

1.15 Leases

Leases are classified as finance leases where the terms of the lease transfer substantially all the risks and rewards incidental to ownership of the property, plant or equipment from the lessor to the lessee. All other leases are classified as operating leases. Where a lease covers both land and buildings, the land and buildings elements are considered separately for classification.

Arrangements that do not have the legal status of a lease but convey a right to use an asset in return for payment are accounted for under this policy where fulfilment of the arrangement is dependent on the use of specific assets.

(a) The Council as Lessee

Finance Leases

Property, plant and equipment held under finance leases is recognised on the Balance Sheet at the commencement of the lease at its fair value measured at the lease's inception (or the present value of

Notes to the Accounts

the minimum lease payments, if lower). The asset recognised is matched by a liability for the obligation to pay the lessor. Initial direct costs of the Council are added to the carrying amount of the asset. Premiums paid on entry into a lease are applied to writing down the lease liability. Contingent rents are charged as expenses in the periods in which they are incurred.

Lease payments are apportioned between:

- A charge for the acquisition of the interest in the property, plant or equipment – applied to write down the lease liability; and
- A finance charge (debited to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement).

Property, Plant and Equipment recognised under finance leases is accounted for using the policies applied generally to such assets, subject to depreciation being charged over the lease term if this is shorter than the asset's estimated useful life (where ownership of the asset does not transfer to the council at the end of the lease period).

The Council is not required to raise council tax to cover depreciation or revaluation and impairment losses arising on leased assets. Instead, a prudent annual contribution is made from revenue funds towards the deemed capital investment in accordance with statutory requirements. Depreciation and revaluation and impairment losses are therefore substituted by a revenue contribution in the General Fund Balance, by way of an adjusting transaction with the Capital Adjustment Account in the Movement in Reserves Statement for the difference between the two.

Operating Leases

Rentals paid under operating leases are charged to the Comprehensive Income and Expenditure Statement as an expense of the services benefiting from use of the leased property, plant or equipment. Charges are made on a straight-line basis over the life of the lease, even if this does not match the pattern of payments (e.g. there is a rent-free period at the commencement of the lease).

(b) The Council as Lessor

Finance Leases

Where the Council grants a finance lease over a property or an item of plant or equipment, the relevant asset is written out of the Balance Sheet as a disposal. At the commencement of the lease, the carrying amount of the asset in the Balance Sheet (whether Property, Plant and Equipment or Assets Held for Sale) is written off to the Other Operating Expenditure line in the Comprehensive Income and Expenditure Statement as part of the gain or loss on disposal. A gain, representing the Council's net investment in the lease, is credited to the same line in the Comprehensive Income and Expenditure Statement also as part of the gain or loss on disposal (i.e. netted off against the carrying value of the asset at the time of disposal), matched by a lease (long-term debtor) asset in the Balance Sheet.

Lease rentals receivable are apportioned between:

- A charge for the acquisition of the interest in the property – applied to write down the lease debtor (together with any premiums received); and
- Finance income (credited to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement).

The gain credited to the Comprehensive Income and Expenditure Statement on disposal is not permitted by statute to increase the General Fund Balance and is required to be treated as a capital receipt. Where a premium has been received, this is posted out of the General Fund Balance to the Capital Receipts Reserve in the Movement in Reserves Statement. Where the amount due in relation to the lease asset is to be settled by the payment of rentals in future financial years, this is posted out of the General Fund Balance to the Deferred Capital Receipts Reserve in the Movement in Reserves Statement. When the future rentals are received, the element for the capital receipt for the disposal of the asset is used to write down the lease debtor. At this point, the deferred capital receipts are transferred to the Capital Receipts Reserve.

Notes to the Accounts

The written-off value of disposals is not a charge against council tax, as the cost of non-current assets is fully provided for under separate arrangements for capital financing. Amounts are therefore appropriated to the Capital Adjustment Account from the General Fund Balance in the Movement in Reserves Statement.

Operating Leases

Where the Council grants an operating lease over a property or an item of plant or equipment, the asset is retained in the Balance Sheet. Rental income is credited to the Other Operating Expenditure line in the Comprehensive Income and Expenditure Statement. Credits are made on a straight-line basis over the life of the lease, even if this does not match the pattern of payments (e.g. there is a premium paid at the commencement of the lease). Initial direct costs incurred in negotiating and arranging the lease are added to the carrying amount of the relevant asset and charged as an expense over the lease term on the same basis as rental income.

1.16 Overheads & Support Services

The costs of overheads and support services are charged to those that benefit from the supply or service in accordance with the costing principles of the CIPFA Service Reporting Code of Practice 2013/2014 (SeRCOP). The charging method varies according to the service provision, with the most appropriate basis being agreed with the customer on an annual basis, with the exception of:

- Corporate and Democratic Core – costs relating to the Council's status as a multi-functional, democratic organisation.
- Non Distributed Costs – the cost of discretionary benefits awarded to employees retiring early and impairment losses chargeable on Assets Held for Sale.

These two categories are defined in SeRCOP and accounted for as separate headings in the Comprehensive Income and Expenditure Statement, as part of the Net Expenditure on Continuing Services.

1.17 Internal Interest

Interest is credited to the General Fund from the Consolidated Advances and Borrowing Pool based on cash flow and fund balances. The amounts are calculated using 7-day money market rates in accordance with guidance contained within the Code of Practice on Local Authority Accounting.

1.18 Delegated Budgets

As set out in the Local Management of Schools Scheme, schools may carry forward any under-spending on their budgets to the following financial year as provisions for specific future spending plans or as earmarked general balances. Similarly, the principle of delegated budgets was extended to all Council Directorates in a report approved by Council on 22nd July 1992, and revised and approved by Management Committee on 18th September 1996.

1.19 Property, Plant & Equipment

Assets that have physical substance and are held for use in the production or supply of goods or services, for rental to others, or for administrative purposes and that are expected to be used during more than one financial year are classified as Property, Plant and Equipment.

Recognition

Expenditure on the acquisition, creation or enhancement of Property, Plant and Equipment is capitalised on an accruals basis, provided that it is probable that the future economic benefits or service potential associated with the item will flow to the Council and the cost of the item can be measured reliably. Capital expenditure that does not add to an asset's potential to deliver future economic benefits or service potential (i.e. repairs and maintenance) is charged as an expense in the year when it is incurred.

Notes to the Accounts

Measurement

Assets are initially measured at cost, comprising:

- The purchase price;
- Any costs attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management; and
- The initial estimate of the costs of dismantling and removing the item and restoring the site on which it is located.

The Council does not capitalise borrowing costs incurred whilst assets are under construction. Capital projects that are still in progress are classed as 'non-current assets under construction' and are shown in the balance sheet under the relevant asset category. For material capital schemes that have been completed an assessment is undertaken by the Valuation Manager to determine any change the capital scheme has made to an asset's value.

The cost of assets acquired other than by purchase is deemed to be its fair value, unless the acquisition does not have commercial substance (i.e. it will not lead to a variation in the cash flows of the Council). In the latter case, where an asset is acquired via an exchange, the cost of the acquisition is the carrying amount of the asset given up by the Council.

Donated assets are measured initially at fair value. The difference between fair value and any consideration paid is credited to the Taxation and Non-Specific Grant Income and Expenditure line of the Comprehensive Income and Expenditure Statement, unless the donation has been made conditionally. Until conditions are satisfied, the gain is held in the Donated Assets Account. Where gains are credited to the Comprehensive Income and Expenditure Statement, they are reversed out of the General Fund Balance to the Capital Adjustment Account in the Movement in Reserves Statement.

Assets are then carried in the Balance Sheet using the following measurement bases:

- Infrastructure, community assets and assets under construction – depreciated historic cost;
- All other assets – fair value, determined as the amount that would be paid for the asset in its existing use (existing use value – EUV).

Where there is no market-based evidence of fair value because of the specialist nature of an asset, depreciated replacement cost (DRC) is used as an estimate of fair value.

Where non-property assets have short useful lives, DRC is used as a proxy for fair value.

Assets included in the Balance Sheet at fair value are re-valued sufficiently regularly to ensure that their carrying amount is not materially different from their fair value at the year-end, but as a minimum every five years. To ensure that this takes place a rolling programme of valuations has been put in place by the Valuation Manager. Assets are valued in accordance with the principles of the RICS (Royal Institution of Chartered Surveyors) Appraisals and Valuation Standards. The valuations are supervised by N. Wood, the Council's qualified (ARICS) Chartered Surveyor. Increases in valuations are matched by credits to the Revaluation Reserve to recognise unrealised gains. Exceptionally, gains might be credited to the Comprehensive Income and Expenditure Statement where they arise from the reversal of a loss previously charged to a service.

Where decreases in value are identified, they are accounted for by:

- Where there is a balance of revaluation gains for the asset in the Revaluation Reserve, the carrying amount of the asset is written down against that balance (up to the amount of the accumulated gains)
- Where there is no balance in the Revaluation Reserve or an insufficient balance, the carrying amount of the asset is written down against the relevant service line(s) in the Comprehensive Income and Expenditure Statement.

Notes to the Accounts

The Revaluation Reserve contains revaluation gains recognised since 1st April 2007 only, the date of its formal implementation. Gains arising before that date have been consolidated into the Capital Adjustment Account.

Voluntary Aided Church schools and Foundation schools where the asset is not owned by the Council are not included on the Council's Balance Sheet. Assets for schools that transfer to academy status are transferred on a long lease with peppercorn rental and the asset is in effect owned by the school and its asset value is not therefore included on the Council's balance sheet. Community School assets are included on the Council's Balance Sheet.

De-Minimis Levels

The use of a de-minimis level for capital expenditure means that in the above categories assets below the de-minimis level are charged to the revenue account, i.e. the asset is not included in the balance sheet unless it is part of an overall project costing more than the established de-minimis level.

For all capital expenditure the de-minimis level is £20,000.

Impairment

Assets are assessed at each year-end as to whether there is any indication that an asset may be impaired. Where indications exist and any possible differences are estimated to be material, the recoverable amount of the asset is estimated and, where this is less than the carrying amount of the asset, an impairment loss is recognised for the shortfall.

Where impairment losses are identified, they are accounted for by:

- Where there is a balance of revaluation gains for the asset in the Revaluation Reserve, the carrying amount of the asset is written down against that balance (up to the amount of the accumulated gains)
- Where there is no balance in the Revaluation Reserve or an insufficient balance, the carrying amount of the asset is written down against the relevant service line(s) in the Comprehensive Income and Expenditure Statement.

Where an impairment loss is reversed subsequently, the reversal is credited to the relevant service line(s) in the Comprehensive Income and Expenditure Statement, up to the amount of the original loss, adjusted for depreciation that would have been charged if the loss had not been recognised.

Depreciation

Depreciation is provided for on all Property, Plant and Equipment assets by the systematic allocation of their depreciable amounts over their useful lives. An exception is made for assets without a determinable finite useful life (i.e. freehold land and certain Community Assets) and assets that are not yet available for use (i.e. assets under construction).

Depreciation on all Property, Plant and Equipment assets has been calculated on a straight line basis by taking the net asset value divided by the future life expectancy. Depreciation is charged in the year following acquisition, with the exception of acquisition and enhancement of buildings that are revalued at 31st March and of disposals where depreciation is charged in the year the acquisition, enhancement or disposal takes place.

The life expectancy for each asset category falls within the following ranges:

Asset Category	Years
Buildings	3 - 68
Infrastructure	5 - 40
Vehicles, plant and furniture	5 - 40

Where an item of Property, Plant and Equipment has major components whose cost is significant in relation to the total cost of the item, the components are depreciated separately. A de-minimis level

Notes to the Accounts

for considering componentisation has been set at £1m. A standard list of components is used by the Council:

- Building structure;
- Mechanical and electrical

Revaluation gains are also depreciated, with an amount equal to the difference between current value depreciation charged on assets and the depreciation that would have been chargeable based on their historical cost being transferred each year from the Revaluation Reserve to the Capital Adjustment Account.

Disposals & Non-current Assets Held for Sale

When it becomes probable that the carrying amount of an asset will be recovered principally through a sale transaction rather than through its continuing use, it is reclassified as an Asset Held for Sale. Immediately before the initial classification of an asset as held for sale the carrying amount of the asset is measured in accordance with the relevant section of the code. Where there is a subsequent decrease to fair value less costs to sell, the loss is posted to the Other Operating Expenditure line in the Comprehensive Income and Expenditure Statement. Gains in fair value are recognised only up to the amount of any previous losses recognised in the Surplus or Deficit on Provision of Services. Depreciation is not charged on Assets Held for Sale.

If assets no longer meet the criteria to be classified as Assets Held for Sale, they are reclassified back to non-current assets and valued at the lower of their carrying amount before they were classified as held for sale; adjusted for depreciation, amortisation or revaluations that would have been recognised had they not been classified as Held for Sale, and their recoverable amount at the date of the decision not to sell.

Assets that are to be abandoned or scrapped are not reclassified as Assets Held for Sale.

When an asset is disposed of or decommissioned, the carrying amount of the asset in the Balance Sheet (whether Property, Plant and Equipment or Assets Held for Sale) is written off to the Other Operating Expenditure line in the Comprehensive Income and Expenditure Statement as part of the gain or loss on disposal. Receipts from disposals (if any) are credited to the same line in the Comprehensive Income and Expenditure Statement also as part of the gain or loss on disposal (i.e. netted off against the carrying value of the asset at the time of disposal). Any revaluation gains accumulated for the asset in the Revaluation Reserve are transferred to the Capital Adjustment Account.

Amounts received for a disposal in excess of £10,000 are categorised as capital receipts. A proportion of receipts relating to housing disposals (75% for dwellings, 50% for land and other assets, net of statutory deductions and allowances) is payable to the Government. The balance of receipts is required to be credited to the Capital Receipts Reserve, and can then only be used for new capital investment or set aside to reduce the Council's underlying need to borrow (the capital financing requirement). Receipts are appropriated to the Reserve from the General Fund Balance in the Movement in Reserves Statement.

The written-off value of disposals is not a charge against council tax, as the cost of non-current assets is fully provided for under separate arrangements for capital financing. Amounts are appropriated to the Capital Adjustment Account from the General Fund Balance in the Movement in Reserves Statement.

1.20 Private Finance Initiative (PFI) and Similar Contracts

PFI and similar contracts are agreements to receive services, where the responsibility for making available the property, plant and equipment needed to provide the services passes to the PFI contractor. As the Authority is deemed to control the services that are provided under its PFI schemes, and as ownership of the property, plant and equipment will pass to the Authority at the end

Notes to the Accounts

of the contracts for no additional charge, the Authority carries the assets used under the contracts on its Balance Sheet as part of Property, Plant and Equipment.

The original recognition of these assets at fair value (based on the cost to purchase the property, plant and equipment) was balanced by the recognition of a liability for amounts due to the scheme operator to pay for the capital investment.

Non-current assets recognised on the Balance Sheet are revalued and depreciated in the same way as property, plant and equipment owned by the Authority.

The amounts payable to the PFI operators each year are analysed into five elements:

- **fair value of the services received during the year** – debited to the relevant service in the Comprehensive Income and Expenditure Statement
- **finance cost** – an interest charge on the outstanding Balance Sheet liability, debited to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement
- **contingent rent** – increases in the amount to be paid for the property arising during the contract, debited to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement
- **payment towards liability** – applied to write down the Balance Sheet liability towards the PFI operator (the profile of write-downs is calculated using the same principles as for a finance lease)
- **lifecycle replacement costs** – proportion of the amounts payable is posted to the Balance Sheet as a prepayment and then recognised as additions to Property, Plant and Equipment when the relevant works are eventually carried out.

1.21 Provisions

Provisions are made where an event has taken place that gives the Council a legal or constructive obligation that probably requires settlement by a transfer of economic benefits or service potential, and a reliable estimate can be made of the amount of the obligation. For instance, the Council may be involved in a court case that could eventually result in the making of a settlement or the payment of compensation.

Provisions are charged as an expense to the appropriate service line in the Comprehensive Income and Expenditure Statement in the year that the Council becomes aware of the obligation, and are measured at the best estimate at the balance sheet date of the expenditure required to settle the obligation, taking into account relevant risks and uncertainties.

When payments are eventually made, they are charged to the provision carried in the Balance Sheet. Estimated settlements are reviewed at the end of each financial year – where it becomes less than probable that a transfer of economic benefits will now be required (or a lower settlement than anticipated is made), the provision is reversed and credited back to the relevant service.

Where some or all of the payment required to settle a provision is expected to be recovered from another party (e.g. from an insurance claim), this is only recognised as income for the relevant service if it is virtually certain that reimbursement will be received if the Council settles the obligation.

1.22 Contingent Liabilities

A contingent liability arises where an event has taken place that gives the Council a possible obligation whose existence will only be confirmed by the occurrence or otherwise of uncertain future events not wholly within the control of the Council. Contingent liabilities also arise in circumstances where a provision would otherwise be made but either it is not probable that an outflow of resources will be required or the amount of the obligation cannot be measured reliably.

Contingent liabilities are not recognised in the Balance Sheet but disclosed in a note to the accounts.

Notes to the Accounts

1.23 Contingent Assets

A contingent asset arises where an event has taken place that gives the Council a possible asset whose existence will only be confirmed by the occurrence or otherwise of uncertain future events not wholly within the control of the Council.

Contingent assets are not recognised in the Balance Sheet but disclosed in a note to the accounts where it is probable that there will be an inflow of economic benefits or service potential.

1.24 Reserves

The Council sets aside specific amounts as reserves for future policy purposes or to cover contingencies. Reserves are created by appropriating amounts out of the General Fund Balance in the Movement in Reserves Statement. When expenditure to be financed from a reserve is incurred, it is charged to the appropriate service in that year to score against the Surplus or Deficit on the Provision of Services in the Comprehensive Income and Expenditure Statement. The reserve is then appropriated back into the General Fund Balance in the Movement in Reserves Statement so that there is no net charge against council tax for the expenditure.

Certain reserves are maintained to manage the accounting processes for non-current assets, financial instruments, retirement and employee benefits and do not represent usable resources for the Council. These reserves are explained in the relevant policies.

1.25 Revenue Expenditure Funded from Capital under Statute

Expenditure incurred during the year that may be capitalised under statutory provisions but that does not result in the creation of a non-current asset has been charged as expenditure to the relevant service in the Comprehensive Income and Expenditure Statement in the year. Where the Council has determined to meet the cost of this expenditure from existing capital resources or by borrowing, a transfer in the Movement in Reserves Statement from the General Fund Balance to the Capital Adjustment Account then reverses out the amounts charged to the Comprehensive Income and Expenditure Statement so that there is no impact on the level of council tax.

1.26 VAT

VAT payable is included as an expense only to the extent that it is not recoverable from HM Revenue & Customs. VAT receivable is excluded from income.

1.27 Foreign Currency Translation

Where the Council has entered into a transaction denominated in a foreign currency, the transaction is converted into sterling at the exchange rate applicable on the date the transaction was effective. Where amounts in foreign currency are outstanding at the year end, they are reconverted at the spot exchange rate at 31st March. Resulting gains or losses are recognised in the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement.

1.28 Carbon Reduction Commitment (CRC) Energy Efficiency Schemes

The Council is required to participate in the Carbon Reduction Commitment (CRC) Energy Efficiency Scheme. This scheme is currently in the initial year of its second phase, which ends on 31 March 2019. The authority is required to purchase allowances, either prospectively or retrospectively, and surrender them on the basis of emissions, i.e. carbon dioxide produced as energy is used. As carbon dioxide is emitted (i.e. as energy is used), a liability and an expense are recognised. The liability will be discharged by surrendering allowances. The liability is measured at the best estimate of the expenditure required to meet the obligation, normally at the current market price of the number of allowances required to meet the liability at the reporting date. The cost to the authority is recognised and reported in the costs of the authority's services and is apportioned to services on the basis of energy consumption.

Notes to the Accounts

1.29 Heritage Assets

The Code of Practice on Local Authority Accounting in the United Kingdom 2011/2012 introduced a change to the treatment in accounting for heritage assets held by the Council. Heritage assets are now required to be carried in the balance sheet at valuation.

Previously, heritage assets were either recognised as community assets (at cost) in the property, plant and equipment classifications in the Balance Sheet or were not recognised in the Balance Sheet and it was not possible to obtain cost information on the assets. Community Assets (that are now classed as Heritage Assets) that were donated to the Council are held at valuation as a proxy for historical cost. The Council has not recognised any assets previously held as community assets as heritage assets, this is because the cost of revaluing elements of community assets outweighs the benefit of the disclosure. Capital schemes on community assets are now analysed and any of the expenditure in excess of £10,000 relating to Historic Assets is capitalised as Historic Assets and held at historic cost. Revaluations, impairments or disposals are actioned against this balance sheet valuation. This is a departure from the Code of Practice on Local Authority Accounting in the United Kingdom 2014/2015.

The Council has recognised collections that are maintained on behalf of the Council by Tyne and Wear Museums for artefacts with a value in excess of £10,000 and assets valuations held on the Council's insurance schedule for assets classified as historic assets with a value in excess of £10,000.

Notes to the Accounts

Note 2 – Accounting standards that have been issued but have not yet been adopted

The Code for 2015/2016 has introduced several changes in accounting policies which are required from 1st April 2015. None of these changes are expected to have a material impact on the Council's Financial Statements.

IFRS 13 Fair Value Measurement

IFRS 13 requires valuations of assets and liabilities which are measured at fair value to be based on their value in their 'best and highest use'. However, public sector assets should be measured according to their service potential rather than market-based exit prices. Therefore, only surplus assets held by the Council would need to be valued at 'best and highest use'.

Annual Improvements to IFRSs 2011-2013 Cycle

The IASB's annual improvements project provides a streamlined process for enhancing the quality of standards, by clarifying guidance and wording and making minor corrections. The issues to be considered during the 2011-2013 cycle are:

- IFRS 1: Meaning of effective IFRSs;
- IFRS 3: Scope exceptions for joint ventures;
- IAS 40: Clarifying the interrelationship of IFRS 3 Business Combinations and IAS 40 Investment Property when classifying property as investment property or owner-occupied property.

IFRIC 21 Levies

IFRIC 21 provides guidance on when to recognise a liability for a levy imposed by the government. This is not expected to impact on Local Authorities.

Notes to the Accounts

Note 3 – Critical Judgements in applying accounting policies

In applying the accounting policies set out in Note 1, the Council has had to make certain judgements about complex transactions or those involving uncertainty about future events. The critical judgements made in the Statement of Accounts are:

- There is a high degree of uncertainty about future levels of funding for local government. However, the Council has determined that this uncertainty is not yet sufficient to provide an indication that the assets of the Council might be impaired as a result of a need to close facilities and reduce levels of service provision.
- Retirement benefit obligations – the Council recognises and discloses its retirement benefit obligation in accordance with the measurement and presentational requirement of IAS 19 'Employee Benefits'. The calculations include a number of judgements and estimations in respect of the expected rate of return on assets, the discount rate, inflation assumptions, the rate of increase in salaries and life expectancy amongst others. Changes in these assumptions can have a significant effect on the value of the retirement benefit obligation. The key assumptions made are set out in Note 44.
- Provisions – provisions are measured at the Director of Finance's best estimate of the expenditure required to settle the obligation at the Balance Sheet date, and are discounted to present value where the effect is material.
- Impairment of property, plant and equipment and computer software – property, plant and equipment and computer software are reviewed for impairment if events or changes in circumstances indicate that the carrying amount may not be recoverable. When a review for impairment is conducted, the recoverable amount is determined based on value in use calculations prepared on the basis of management's assumptions and estimates.
- Depreciation of property, plant and equipment and amortisation of computer software – depreciation and amortisation is provided so as to write down the assets to their residual values over their estimated useful lives as set out in the accounting policies. The selection of these residual values and estimated lives requires the exercise of management judgement.
- Valuation Newcastle Airport – the value of the Council's investment in Newcastle Airport is based on the open market value of shares at 16th November 2012.

Note 4 – Assumptions made about the future and other major sources of estimation uncertainty

The Statement of Accounts contains estimated figures that are based on assumptions made by the Council about the future or that are otherwise uncertain. Estimates are made taking into account historical experience, current trends and other relevant factors. However, because balances cannot be determined with certainty, actual results could be materially different from the assumptions and estimates.

The items in the Council's Balance Sheet at 31st March 2015 for which there is a significant risk of material adjustment in the forthcoming financial year are as follows:

Item	Uncertainties	Effect if Actual Results Differ from Assumptions
Property, Plant and Equipment	Assets are depreciated over useful lives that are dependent on assumptions about the level of repairs and maintenance that will be incurred in relation to individual assets. The current economic climate makes it uncertain that the Council will be able to sustain its current spending on repairs and maintenance, bringing into doubt the useful lives assigned to assets.	If the useful life of assets is reduced, depreciation increases and the carrying amount of the assets falls. It is estimated that the annual depreciation charge for buildings and their components would increase by £3.274m for every year that useful lives had to be reduced.*
Provisions	The Council has provisions of	An increase over the forthcoming year of

Notes to the Accounts

Item	Uncertainties	Effect if Actual Results Differ from Assumptions
	£26.684m, £5.041m of this relates to Insurance.	10% in either the total number of insurance claims or the estimated average insurance settlement would each have the effect of adding £0.504m to the provision needed.*
Provision – Business Rates	Since the introduction of the Business Rates Retention Scheme effective from 1 st April 2013, Local Authorities are liable for successful appeals against business rates charged to businesses. This includes the relevant share of any historic appeals lodged, but still outstanding and also any appeals likely to be lodged against the current 2010 ratings list. Therefore, a provision has been recognised for the best estimate of the amount that will be successfully appealed (i.e. that businesses have been overcharged) in relation to 2014/15 and previous years, regardless of when that appeal is raised or settled. The estimate has been calculated by applying historic trend analysis to open appeals lodged with the VOA as at 31 March 2015.	Any increase or decrease in appeals lodged would impact on the overall position of the Collection Fund and future income receivable via Business Rates.
Arrears	At 31 st March 2015, the Council had a balance of debtors of £52.602m. A review of significant balances suggested that an impairment of doubtful debts of 24.89% (£13.091m) was appropriate. However, significant changes to the current economic climate could affect the adequacy of this provision.	If collection rates were to deteriorate, a doubling of the amount of the impairment of doubtful debts would require an additional £13.091m to be set aside as an allowance.*
Pension Liability	Estimation of the net liability to pay pensions depends on a number of complex judgements relating to the discount rate used, the rate at which salaries are projected to increase, changes in retirement ages, mortality rates and expected returns on pension fund assets. A firm of consulting actuaries is engaged to provide the Council with expert advice about the assumptions to be applied.	The effects on the net pension liability for funded LGPS benefits of changes in individual assumptions can be measured. For instance, a 0.1% increase in the discount rate assumptions would result in a decrease in the pension liability of £26.57m. However, the assumptions interact in complex ways. During 2014/2015, the Council's actuaries advised that the net pension liability for funded LGPS benefits had decreased by £8.03m as a result of estimates being corrected as a result of experience and increased by £131.17m attributable to updating of the assumptions.

* However, the above risks are mitigated as the Council fully assesses the likelihood of any variations during the budget process and includes a contingency provision as necessary. Throughout the year budget monitoring is carried out to ensure the actual position is in line with the budgeted provision and appropriate actions are taken as necessary.

Notes to the Accounts

Note 5 – Material items of income and expenditure

The loss on disposal of non-current assets of £24.252m relates mainly to schools which have opted out of local authority control and have become academies. Under statutory regulations, assets in respect of the school are transferred from the local authority to the new academy body on a long term lease. As such the Council has had to write these assets out of its accounts for a nil consideration. The accounting entries require this 'loss' to be charged to Other Operating Expenditure within the Comprehensive Income and Expenditure Account and then this 'charge' is reversed out in the Movement in Reserves Statement, so that it does not have any impact on the Council Tax payer. In addition, in 2014/2015 the Council transferred the majority of its investment property portfolio and a number of development sites into its Local Asset Backed Vehicle, Siglion which will accelerate and deliver physical and economic regeneration of the city on those sites. The Council received loan notes totalling £23.5m for these assets that will be repaid over the term of the LABV agreement.

The following assets have been transferred at a loss during 2014/2015;

	Loss on Disposal £m	Date of Transfer
Schools:		
North View Academy	6.139	1st August 2014
Barnwell Academy	5.933	1st April 2014
Oxclose Primary Academy	4.952	1st April 2014
Ryhope Infants School Academy	2.879	1st September 2014
Castlegreen Community School	2.576	1st July 2014
Barnes Infants Academy	2.337	1st July 2014
Non Schools:		
Local Asset Backed Vehicle sites	(0.229)	7th November 2014
Other Net (Gains) and Losses	(0.335)	
Total	24.252	

Note 6 – Events after the Balance Sheet date

Non-adjusting Events after the Balance Sheet date

There are a number of events that have taken place since the accounts were closed on 31st March 2015 which are judged to be non-adjusting post balance sheet events, which need to be included in the financial statements for information.

Assets transferred to Joint Venture Partnership

The following assets that were part of the Council's asset base at 31st March 2015 transferred on a long term lease to the Council's joint venture partnership with Sport and Leisure Management Ltd on 1st June 2015 and the value of the assets that will be written out of the accounts are as follows.

- Sunderland Aquatic Centre - £21.226m
- Silksworth Community Pool, Tennis and Wellness Centre - £8.051m
- Washington Leisure Centre - £5.129m
- Hetton Community Pool and Wellness Centre - £4.834m
- Houghton Sports Centre and Wellness - £4.241m
- Seaburn Leisure Centre and Wellness – £2.682m
- Silksworth Sports Complex - £1.400m

Notes to the Accounts

Note 7 – Adjustments between accounting basis and funding basis under regulations

This note details the adjustments that are made to the total comprehensive income and expenditure recognised by the Council in the year in accordance with proper accounting practice to the resources that are specified by statutory provisions as being available to the Council to meet future capital and revenue expenditure.

The following sets out a description of the reserves that the adjustments are made against.

General Fund Balance

The General Fund is the statutory fund into which all the receipts of the Council are required to be paid and out of which all liabilities of the Council are to be met, except to the extent that statutory rules might provide otherwise. These rules can also specify the financial year in which liabilities and payments should impact on the General Fund Balance, which is not necessarily in accordance with proper accounting practice. The General Fund Balance therefore summarises the resources that the Council is statutorily empowered to spend on its services or on capital investment (or the deficit of resources that the Council is required to recover) at the end of the financial year.

Capital Receipts Reserve

The Capital Receipts Reserve holds the proceeds from the disposal of land or other assets, which are restricted by statute from being used other than to fund new capital expenditure or to be set aside to finance historical capital expenditure. The balance on the reserve shows the resources that have yet to be applied for these purposes at the year-end.

Capital Grants Unapplied

The Capital Grants Unapplied Account (Reserve) holds the grants and contributions received towards capital projects for which the Council has met the conditions that would otherwise require repayment of the monies but which have yet to be applied to meet expenditure. The balance is restricted by grant terms as to the capital expenditure against which it can be applied and/or the financial year in which this can take place.

Notes to the Accounts

Purpose of Earmarked Reserves

Capital Reserves:	Purpose of the Reserve
Un-utilised RCCO Reserve	The reserve consists of unutilised direct revenue financing and is fully earmarked to fund capital projects previously approved.
Strategic Investment Plan Reserve	This reserve is necessary to fund part of the Council's contribution to its Strategic Investment Plan approved by Council in April 2008.
Capital Priorities Reserve	A reserve established to address some of the Council's key capital developments and strategic priorities.
Children's Social Care Capital Reserve	This reserve has been established to fund future capital developments of Social Care establishments.
Riverside Transfer	Reserve established to fund capital works associated with the Homes and Communities Agency land transferred to the Council.
HCA Stadium Transfer	Reserve established to fund capital works associated with the Homes and Communities Agency land transferred to the Council.
Other General Capital Reserve	Usable capital receipts set aside to fund future capital projects previously approved.
Revenue Reserves:	Purpose of the Reserve
Insurance Reserve	This reserve has been established to provide for potential future claims or claim increases.
Strategic Investment Reserve	A reserve established to address some of the Council's key developments and strategic priorities.
Service Pressures Reserve	To mitigate the potential budgetary impact of the economic downturn.
Sandhill Centre PFI Smoothing Reserve	The reserve was established to smooth the financial impact of the contract across the 25 years of the contract life.
School Community Reserve	The reserve holds the surpluses on community schemes at schools. Reserve to be held until all schemes are closed.
Education Redundancies Reserve	The reserve was established to meet the anticipated costs of redundancies as a result of falling pupil rolls within Maintained schools.
Street Lighting and Highway Signs PFI Smoothing Reserve	The reserve was established to smooth the financial impact of the contract across the 25 years of the contract life.
Adult Services Modernisation and Service Pressures Reserve	The reserve was established to meet increased demand pressures especially in Learning Disabilities, Residential Nursing and Home and Day Care and modernisation investment requirements.
Play Areas Reserve	The reserve relates to monies paid over by the developers of new housing estates, under Section 106 of the Town and Country Planning Act 1990. On completion of the development the contributions are used to provide play equipment on housing developments.
WNF - Software City	Reserve established to help fund the development and running of Software City.
WNF Visible Workshop	Reserve established to help fund the development and running of visible workshop.
Modernisation Improvements	Reserve established to assist with the financial implications of the Council's Modernisation plans including invest to save initiatives.
Utilities Reserve	Reserve established to protect the council against the future volatility of utility costs.

Notes to the Accounts

	Purpose of the Reserve
Commercial and Economic Development Activity	Reserve established to take advantage of commercial and economic development opportunities that will meet priorities of the Council.
Transition Reserve	Reserve established to meet the cost of future organisational changes.
Riverside Transfer	Reserve established to fund on-going maintenance of Homes and Communities Agency land transferred to the Council.
Weekly Collection Reserve	Reserve held to smooth funding over the five year weekly collection scheme.
External Placements Reserve	The reserve was established to meet increased demand pressures and future costs of external placements in respect of Children's Social Care.
Public Health Reserve	Reserve to be used to fund expenditure on Public Health initiatives.
New Homes Bonus Reserve	Reserve established to fund initiatives that will stimulate house building or bring empty homes back into use.
Business Rates Safety Net Reserve	Reserve established to address any potential impact arising from the increased risk and uncertainty within the new Business Rates Retention Scheme.
HCA Stadium Transfer	Reserve established to fund on-going maintenance of Homes and Communities Agency land transferred to the Council.
Troublesome Families Reserve	Reserve to be utilised to transform the lives of troubled families in Sunderland.
DSG Surplus	This reserve is the underspend from the Dedicated Schools Grant that will be utilised to support schools funding in future years.
House Sale Income	The reserve relates to the sale of clients homes that will be utilised to support future support needs of those clients.
Housing Benefit Smoothing Reserve	This reserve has been established to smooth any potential impact of outstanding debtors as housing benefit is subsumed within universal credit.
Safeguarding Pressures Reserve	Established to address the on-going pressures in relation to increased demand in Children Looked After
Safeguarding Improvement Action Plan	To fund the implementation of the Safeguarding Improvement Action Plan
Other Earmarked Reserves	Numerous small revenue reserves set up for specific purposes.

Notes to the Accounts

Depreciation

The following useful lives and depreciation rates have been used in the calculation of depreciation:

- Land and Buildings – 3 to 68 years
- Vehicles, Plant and Equipment – 5 to 20 years
- Infrastructure - 5 to 40 years

Capital Commitments

As at 31st March 2015, the Council has entered into a number of contracts for the construction or enhancement of Property, Plant and Equipment in 2015/2016 and future years budgeted to cost £9.246m (as at 31st March 2014 £21.553m). The major commitments are:

- Industrial Portfolio Improvement Works – £2.247m
- St Mary's Boulevard & Keel Square - £2.229m
- Washington Leisure Centre - £1.713m
- Various other schemes - £3.057m

Revaluations

The Council carries out a rolling programme that ensures that all Property, Plant and Equipment required to be measured at fair value is revalued with sufficient regularity to ensure the carrying amount does not differ materially from the fair value at the end of the reporting period. All valuations are carried out internally. Valuations of Land and Buildings were carried out in accordance with the methodologies and bases for estimation set out in the professional standards of the Royal Institution of Chartered Surveyors. Valuations of vehicles, plant, furniture and equipment are based on fair value using depreciated historical cost as a proxy for non-property assets that have short useful lives.

The significant assumptions applied in estimating the fair values are:

- Depreciated Replacement Cost (DRC) method has been used where the asset is used by the Council to deliver services but the property is considered to be of a specialist nature in that there is little or no market evidence to support value
- Existing Use Value has been used where the asset is used by the Council to deliver services but is not specialised and there is market evidence to support value
- Assets are fit for the purpose for which they are used and will continue to remain so physically, complying with fire, health and safety or any other statutory regulations
- The assets are free from contamination and deleterious or hazardous substances
- Current use fully complies with current planning legislation and consents and the existing use will continue for the near future and will remain viable
- No allowance has been made for taxation, acquisition, realisation or disposal costs or other expenses
- Properties assessed by the DRC method of valuation are subject to the prospect and viability of the continuance of the occupation and use.

Further details of the Council's Heritage Asset holdings can be found in Note 48.

Notes to the Accounts

Note 14 – Investment Properties / Land

The Council holds no properties classified as Investment properties. Where property generates rental income these are recognised as property Plant and Equipment as they fulfil the economic development aims of the Council. The only investment properties held by the Council are areas of land which are held for capital appreciation and therefore earn no rental income. Movement in the fair value of investment property has been accounted for within the Financing and Investment Income and Expenditure line of the Comprehensive Income and Expenditure Statement.

There are no restrictions on the Council's ability to realise the value inherent in its investment property or on the Council's right to the remittance of income and the proceeds of disposal. The Council has no contractual obligations to purchase, construct or develop investment property or to undertake repairs, maintenance or enhancement.

The following table summarises the movement in the fair value of investment properties over the year as reported on the balance sheet:

2013/2014 £'000		2014/2015 £'000
68,923	Balance at the start of the year	60,607
(1,316)	Disposals	(163)
(7,000)	Net gain / (losses) from fair value adjustments	965
	Transfers:	
0	To / (From) Property, Plant and Equipment	0
60,607	Balance at the end of the year	61,409

Losses in 2014/2015 from fair value adjustments reflect changes to planning status for some land and building assets (losses in 2013/2014 from fair value adjustments reflect market conditions and changes to planning status).

Note 15 – Intangible Assets

The Council accounts for its software as intangible assets, to the extent that the software is not an integral part of a particular IT system and accounted for as part of the hardware item of Property, Plant and Equipment. The intangible assets include both purchased licences and internally generated software.

All software is given a finite useful life, based on assessments of the period that the software is expected to be of use to the Council. The useful life for software is deemed to be between 5 and 10 years.

The carrying amount of intangible assets is amortised on a straight line basis. The amortisation of £0.468m charged to revenue in 2014/2015 was charged to administration cost centres and absorbed where appropriate as an overhead across service headings in the Cost of Services. It is not possible to quantify exactly how much of the amortisation is attributable to each service heading.

The movement on Intangible Asset balances during the year is as follows:

Notes to the Accounts

2013/2014 £'000		2014/2015 £'000
3,535 (1,350)	Balance at start of year: Gross carrying amounts Accumulated Amortisation	3,839 (1,788)
2,185	Net carrying amount at the start of the year	2,051
304 (438)	Additions Purchases Amortisation for the period	427 (468)
2,051	Net carrying amount at the year end	2,010
3,839 (1,788)	Comprising Gross carrying amounts Accumulated amortisation	4,266 (2,256)
2,051		2,010

Software Licences have been purchased in the year for use on a number of the Council's IT systems. There are no items of capitalised software that are individually material to the financial statements.

Notes to the Accounts

Note 16 – Financial Instruments

Categories of Financial Instruments

The following categories of financial instrument are carried in the Balance Sheet.

Long Term	Current		Long Term	Current
31 March 2014 £'000	31 March 2014 £'000		31 March 2015 £'000	31 March 2015 £'000
		Investments		
0	90,619	Loans and receivables	0	180,919
16,420	0	Available-for-sale financial assets	16,415	0
0	0	Unquoted equity investment at cost	5,000	0
0	0	Financial assets at fair value through profit and loss	0	0
16,420	90,619	Total Investments	21,415	180,919
		Debtors		
39,574	71,031	Loans and receivables	57,258	25,998
0	49,810	Financial assets carried at contract amount	0	47,385
39,574	120,841	Total included in Debtors	57,258	73,383
		Borrowings		
(169,533)	(58,510)	Financial liabilities at amortised cost	(218,220)	(52,089)
0	0	Financial liabilities at fair value through profit and loss	0	0
(169,533)	(58,510)	Total included in Borrowings	(218,220)	(52,089)
		Other Long Term Liabilities		
(35,461)	0	PFI and finance lease liabilities	(91,795)	0
(35,461)	0	Total other long term liabilities	(91,795)	0
		Creditors		
0	(1,247)	PFI and finance lease liabilities	0	(4,454)
0	0	Financial liabilities at amortised cost	0	0
0	(48,860)	Financial liabilities carried at contract amount	0	(70,029)
0	(50,107)	Total creditors	0	(74,483)

Notes to the Accounts

Income, Expense, Gains and Losses

The gains and losses recognised in the Comprehensive Income and Expenditure Statement in relation to financial instruments are made up as follows:

2013/2014					2014/2015			
Financial Liabilities	Financial Assets		Total		Financial Liabilities	Financial Assets		Total
Liabilities measured at amortised cost £'000	Loans and receivables £'000	Available for sale assets £'000	£'000		Liabilities measured at amortised cost £'000	Loans and receivables £'000	Available for sale assets £'000	£'000
(9,888)	0	0	(9,888)	Interest Expense	(11,891)	0	0	(11,891)
(9,888)	0	0	(9,888)	Total expenses in Surplus or Deficit on the Provision of Services	(11,891)	0	0	(11,891)
0	4,410	0	4,410	Interest Income	0	3,435	0	3,435
0	4,410	0	4,410	Total expenses in Surplus or Deficit on the Provision of Services	0	3,435	0	3,435
(9,888)	4,410	0	(5,478)	Net Gain / (loss) for the year	(11,891)	3,435	0	(8,456)

Notes to the Accounts

Fair Value of Assets and Liabilities carried at Amortised Cost

Financial assets and liabilities are carried on the balance sheet at amortised cost. Their fair value can be assessed by calculating the present value of cash flows that will take place over the remaining term of the instrument, using the following assumptions:

- For PWLB debt, the discount rate used is the premature repayment rates as per rate sheet number 126/15.
- There were limited trades in the LOBO market during the financial year ended 31st March 2015. The rates used have been derived by applying a margin above gilts, which is based on pricing for instruments when the market was more active.
- For other market debt and investments the discount rate used is the rate available for an instrument with the same terms for a comparable lender.
- Interpolation techniques have been used between available rates where the exact maturity period was not available.
- No early repayment or impairment is recognised.

Fair values for all instruments in the portfolio have been calculated. The fair values calculated are as follows:

31 March 2014		Liabilities	31 March 2015	
Carrying Amount £'000	Fair Value £'000		Carrying Amount £'000	Fair Value £'000
127,850	145,037	PWLB	177,817	247,632
40,201	40,388	LOBOs	40,194	52,144
94	74	Stock	90	88
1,388	1,398	Other	119	156
17,776	17,776	Bank Overdraft	21,101	21,101
40,734	40,739	Short Term Borrowing	30,988	30,994
228,043	245,412	Financial Liabilities	270,309	352,115

Fair value is more than the carrying amount because the Council's portfolio of loans includes a number of fixed rate loans where the interest rates payable are higher than the rates available for similar loans at the balance sheet date. The commitment to pay interest is below current market rates, reducing the amount that the Council would have to pay if the lender requested or agreed to early repayment of the loans.

31 March 2014		Assets	31 March 2015	
Carrying Amount £'000	Fair Value £'000		Carrying Amount £'000	Fair Value £'000
160,966	161,096	Deposits with Banks & Building Societies	206,252	206,460
160,966	161,096	Financial Assets	206,252	206,460

The fair value is higher than the carrying amount because the Council's portfolio of investments includes a number of fixed rate loans where the interest rate receivable is higher than the rates available for similar loans at the balance sheet date.

At 31st March 2015 the Council holds £22.954m of funds in relation to the North Eastern Local Enterprise Partnership (£25.857m at 31st March 2014) and £1.483m of funds in relation to the Associated of North East Councils (£1.794m at 31st March 2014). These funds do not belong to the Council and are therefore not reflected in the Statement of Accounts.

Notes to the Accounts

Note 17 – Inventories

2013/2014

	Consumable Stores £'000	Maintenance Materials £'000	Client Services Work In Progress £'000	Total £'000
Balance Outstanding at start of year	971	119	245	1,335
Purchases	2,184	182	92	2,458
Recognised as an expense in the year	(1,972)	(187)	(245)	(2,404)
Written off balances	(579)	(3)	0	(582)
Balance outstanding at the year-end	604	111	92	807

2014/2015

	Consumable Stores £'000	Maintenance Materials £'000	Client Services Work In Progress £'000	Total £'000
Balance Outstanding at start of year	603	111	92	806
Purchases	3,915	160	81	4,156
Recognised as an expense in the year	(3,947)	(158)	(33)	(4,138)
Written off balances	(33)	(113)	0	(146)
Balance outstanding at the year-end	538	0	140	678

Note 18 – Short Term Debtors

2013/2014 £'000		2014/2015 £'000
16,007	Central government bodies	6,303
240	Other local authorities	1,620
1,333	NHS bodies	1,793
32,230	Other entities and individuals	37,669
49,810	Total	47,385

Note 19 – Cash and cash equivalents

The balance of cash and cash equivalents is made up of the following elements:

2013/2014 £'000		2014/2015 £'000
(17,092)	Cash held by the Council	(20,436)
70,347	Bank current accounts and Money Market Funds	25,333
0	Short-term deposits with banks and building societies	0
53,255	Total Cash and Cash Equivalents	4,897

This is presented on the Balance Sheet as follows:

2013/2014 £'000		2014/2015 £'000
71,031	Cash and Cash Equivalents (in hand & bank)	25,998
(17,776)	Cash and Cash Equivalents (overdrawn)	(21,101)
53,255	Total Cash and Cash Equivalents	4,897

Notes to the Accounts

Note 20 – Assets Held for Sale

A number of Council assets have been transferred from Property, Plant and Equipment and have been categorised as held for sale where the asset is available for immediate sale, there is a commitment to sell the asset, the asset has been actively marketed and a sale is expected within one year.

The carrying value of these assets is measured at fair value less costs to sell.

2013/2014 £'000		2014/2015 £'000
975	Balance outstanding at start of year	1,732
(725)	Assets Sold	(230)
0	Revaluation Losses	(125)
1,482	Transfer from non-current assets to current assets at year end	1,650
1,732	Balance outstanding at year-end	3,027

Note 21 – Short-Term Creditors

2013/2014 £'000		2014/2015 £'000
(9,057)	Central government bodies	(12,928)
(3,754)	Other local authorities	(6,798)
(2,478)	NHS bodies	(2,324)
(29,611)	Other entities and individuals	(41,616)
(44,900)	Total	(63,666)

Note 22 – Provisions

	Insurance Provision £'000	Other Provision £'000	Total £'000
Balance at 31 March 2014	4,325	25,399	29,724
Additional provisions made 2014/2015	716	4,774	5,490
Amounts used 2014/2015	0	(8,323)	(8,323)
Unused amounts reversed 2014/2015	0	(207)	(207)
Balance at 31 March 2015	5,041	21,643	26,684

Long Term provisions at 31st March 2015	5,037	528	5,565
Short Term Provisions at 31st March 2015	4	21,115	21,119

The nature of the individual provisions held at 31st March 2015 is detailed in the table below:

Notes to the Accounts

Nature of provision	2013/2014	2014/2015		
	£'000	Short Term £'000	Long Term £'000	Total £'000
Insurance provision	4325	4	5,037	5,041
Back on the Map temporary funding - Council-led selective licensing project	234	92	0	92
Funding for known early retirements	1,934	776	0	776
Carbon Reduction Commitments	520	0	0	0
Unequal back pay provision	17,876	14,295	0	14,295
Guarantee bonds held relating to rents and highways works	522	82	118	200
City Centre Property costs - disputed ground rent	57	57	0	57
Investment Grants - grants committed to businesses	295	80	294	374
Provision for potential costs of successful NNDR appeals	3,805	5,559	0	5,559
Potential grant repayment	156	54	0	54
New provisions established 2014/2015:				
Future staffing liabilities	0	0	116	116
Potential compensation payment	0	120	0	120
	29,724	21,119	5,565	26,684

Note 23 – Usable Reserves

The total Usable Reserves held by the Council are £189.663m at 31st March 2015 (£182.892m at 31st March 2014) and these are detailed in the Movement in Reserves Statement. Movements in the Council's Usable Reserves are also detailed in Note 8 –Transfers to/from Earmarked Reserves.

Note 24 – Unusable Reserves

2013/2014 £'000		Note	2014/2015 £'000
217,658	Revaluation Reserve	24a	219,012
479,965	Capital Adjustment Account	24b	440,938
(1,004)	Financial Instrument Adjustment Account	24c	(1,130)
(439,620)	Pensions Reserve	24d	(499,020)
570	Deferred Capital Receipts Reserve	24e	24,026
805	Collection Fund Adjustment Account	24f	3,566
(4,135)	Accumulated Absence Account	24g	(3,440)
16,033	Available for Sale Financial Instrument Reserve	24h	16,033
270,272	Total Unusable Reserve		199,985

The following tables show the detail for each line item as follows:

Notes to the Accounts

24a) Revaluation Reserve

The Revaluation Reserve contains the gains made by the Council arising from increases in the value of its Property, Plant and Equipment and Intangible Assets. The balance is reduced when assets with accumulated gains are;

- revalued downwards or impaired and the gains are lost;
- used in the provision of services and the gains are consumed through depreciation, or;
- disposed of and the gains are realised.

The Reserve contains only revaluation gains accumulated since 1st April 2007, the date that the Reserve was created. Accumulated gains arising before that date are consolidated into the balance on the Capital Adjustment Account.

2013/2014 £'000		2014/2015 £'000
216,565	Balance at 1 April	217,658
41,928	Upward revaluation of assets	30,794
(8,706)	Downward revaluation of assets and impairment losses not charged to the Surplus or Deficit on the Provision of Services	(5,419)
249,787	Surplus or deficit on revaluation of non-current assets not posted to the Surplus or Deficit on the Provision of Services	243,033
7,345	Difference between fair value depreciation and historical cost depreciation	6,741
24,784	Accumulated gains on assets sold or scrapped	17,280
32,129	Amount written off to the Capital Adjustment Account	24,021
217,658	Balance at 31 March	219,012

24b) Capital Adjustment Account

The Capital Adjustment Account absorbs the timing differences arising from the different arrangements for accounting for the consumption of non-current assets and for financing the acquisition, construction or additions to those assets under statutory provisions. The Account is debited with the cost of acquisition, construction or subsequent costs as depreciation, impairment losses and amortisations are charged to the Comprehensive Income and Expenditure Statement (with reconciling postings from the Revaluation Reserve to convert fair value figures to a historical cost basis). The Account is credited with the amounts set aside by the Council as finance for the costs of acquisition, construction and subsequent costs.

The Account contains accumulated gains and losses on Investment Properties and gains recognised on donated assets that have yet to be consumed by the Council.

The Account also contains revaluation gains accumulated on Property, Plant and Equipment before 1st April 2007, the date that the Revaluation Reserve was created to hold such gains.

Notes to the Accounts

Note 7 provides details of the source of all the transactions posted to the Account, apart from those involving the Revaluation Reserve.

2013/2014 £'000		2014/2015 £'000
584,700	Balance at 1 April	479,965
	Reversal of items relating to capital expenditure debited or credited to the Comprehensive Income and Expenditure Statement:	
(48,671)	Charges for depreciation and impairment of non-current assets	(47,149)
(32,654)	Revaluation losses on Property, Plant and Equipment	(2,547)
(438)	Amortisation of intangible assets	(468)
(6,774)	Revenue expenditure funded from capital under statute	(14,631)
(1,297)	Gain / (Loss) on derecognition of non current assets to the Comprehensive Income and Expenditure Account	(1,818)
(78,968)	Amount of non current assets written off on disposal or sale as part of the gain / (loss) on disposal to the Comprehensive Income and Expenditure Statement	(48,390)
(168,802)		(115,003)
0	Adjusting amounts written out of the Unequal Backpay Account	0
32,129	Adjusting amounts written out of the Revaluation Reserve	24,021
(136,673)	Net written out amount of the cost of non current assets consumed in the year	(90,982)
	Capital financing applied in the year:	
666	Use of Capital Receipts to finance new capital expenditure	2,842
11,020	Capital grants and contributions credited to the Comprehensive Income and Expenditure Statement that have been applied to capital financing	15,024
11,599	Application of grants to capital financing from the Capital Grants Unapplied Account	13,796
12,074	Statutory provision for the financing of capital investment charged against the General Fund balance	14,733
4,895	Capital expenditure charged against the General Fund balance	4,758
40,254		51,153
(8,316)	Movement in the market value of Investment Properties debited or credited to the Comprehensive Income and Expenditure Statement	802
479,965	Balance at 31 March	440,938

24c) Financial Instruments Adjustment Account

The Financial Instruments Adjustment Account absorbs the timing differences arising from the different arrangements for accounting for income and expenses relating to certain financial instruments and for bearing losses or benefiting from gains per statutory provisions. The Council uses the Account to manage premiums paid on the early redemption of loans. Premiums are debited to the Comprehensive Income and Expenditure Statement when they are incurred, but reversed out of the General Fund Balance to the Account in the Movement in Reserves Statement. Over time, the expense is posted back to the General Fund Balance in accordance with statutory arrangements for spreading the burden on council tax. In the Council's case, this period is the unexpired term that was outstanding on the loans when they were redeemed.

Notes to the Accounts

2013/2014 £'000		2014/2015 £'000
(879)	Balance at 1 April	(1,004)
0	Premiums incurred in the year charged to the Comprehensive Income and Expenditure Account	0
(125)	Proportion of premiums incurred in previous financial years to be charged against the General Fund Balance in accordance with statutory requirements	(126)
(125)	Amount by which finance costs charged to the Comprehensive Income and Expenditure Statement are different from finance costs chargeable in the year in accordance with statutory requirements	(126)
(1,004)	Balance at 31 March	(1,130)

24d) Pensions Reserve

The Pensions Reserve absorbs the timing differences arising from the different arrangements for accounting for post-employment benefits and for funding benefits in accordance with statutory provisions. The Council accounts for post-employment benefits in the Comprehensive Income and Expenditure Statement as the benefits are earned by employees accruing years of service, updating the liabilities recognised to reflect inflation, changing assumptions and investment returns on any resources set aside to meet the costs. However, statutory arrangements require benefits earned to be financed as the Council makes employer's contributions to pension funds or eventually pays any pensions for which it is directly responsible. The debit balance on the Pensions Reserve therefore shows a substantial shortfall in the benefits earned by past and current employees and the resources the Council has set aside to meet them. The statutory arrangements will ensure that funding will have been set aside by the time the benefits come to be paid.

2013/2014 £'000		2014/2015 £'000
(640,520)	Balance at 1 April	(439,620)
213,020	Remeasurement of the net defined benefit liability	(50,890)
(47,180)	Reversal of items relating to retirement benefits debited or credited to the Surplus or Deficit on the Provision of Services in the Comprehensive Income and Expenditure Statement	(40,490)
35,060	Employer's pensions contributions and direct payments to pensioners payable in the year	31,980
(439,620)	Balance at 31 March	(499,020)

24e) Deferred Capital Receipts Reserve

The Deferred Capital Receipts Reserve holds the gains recognised on the disposal of non-current assets but for which cash settlement has yet to take place. Under statutory arrangements, the Council does not treat these gains as usable for financing new capital expenditure until they are backed by cash receipts. When the deferred cash settlement eventually takes place, amounts are transferred to the Capital Receipts Reserve.

2013/2014 £'000		2014/2015 £'000
624	Balance at 1 April	570
(39)	Transfer of deferred sale proceeds credited as part of the gain / (loss) on disposal to the Comprehensive Income and Expenditure Statement	23,460
(15)	Transfer to the Capital Receipts Reserve upon receipt of cash	(4)
570	Balance at 31 March	24,026

Notes to the Accounts

24f) Collection Fund Adjustment Account

The Collection Fund Adjustment Account manages the differences arising from the recognition of council tax and non-domestic rates income in the Comprehensive Income and Expenditure Statement as it falls due from council tax payers and business rates payers compared with the statutory arrangements for paying across amounts to the General Fund from the Collection Fund.

2013/2014 £'000		2014/2015 £'000
2,339	Balance at 1 April	805
(1,534)	Amount by which council tax income credited to the Comprehensive Income and Expenditure Statement is different from the council tax income calculated for the year in accordance with statutory requirements	2,761
805	Balance at 31 March	3,566

24g) Accumulated Absences Account

The Accumulated Absences Account absorbs the differences that would otherwise arise on the General Fund Balance from accruing for compensated absences earned but not taken in the year e.g. annual leave entitlement carried forward at 31st March. Statutory arrangements require that the impact on the General Fund Balance is neutralised by transfers to or from the Account.

2013/2014 £'000		2014/2015 £'000	
		£'000	£'000
(3,169)	Balance at 1 April		(4,135)
3,169	Settlement or cancellation of accrual made at the end of the preceding year	4,135	
(4,135)	Amounts accrued at the end of the current year	(3,440)	
(966)	Amount by which officer remuneration charged to the Comprehensive Income and Expenditure Statement on an accrual basis is different from remuneration chargeable in the year in accordance with statutory requirements		695
(4,135)	Balance at 31 March		(3,440)

24h) Available for Sale Financial Instrument Reserve

The Available for Sale Financial Instrument Reserve contains the gains made by the Council arising from the increases in the value of its investments that have quoted market prices or otherwise do not have fixed or determinable prices. The balance is reduced when the investments with accumulated gains are:

- Revalued downwards or impaired and the gains are lost.
- Disposed of and the gains are realised.

2013/2014 £'000		2014/2015 £'000
16,400	Balance at 1 April	16,033
(367)	Upward / (downward) revaluation of investments not charged to the Surplus / Deficit on the Provision of Services	0
16,033	Balance at 31 March	16,033

Notes to the Accounts

Note 25 – Cash Flow Statement – Operating Activities

The net cash flows for operating activities include the following items in respect of interest transactions according to the requirements of the code:

2013/2014 £'000		2014/2015 £'000
3,977	Interest received	3,435
(9,888)	Interest paid	(11,891)
433	Dividends received	0
(5,478)		(8,456)

Note 26 – Cash Flow Statement – Investing Activities

2013/2014 £'000		2014/2015 £'000
40,632	Purchase of property, plant and equipment, investment property and intangible assets	52,502
90,000	Purchase of short-term and long-term investments	180,000
0	Other payments for investing activities	484
(2,246)	Proceeds from the sale of property, plant and equipment, investment property and intangible assets	(638)
(145,000)	Proceeds from short-term and long-term investments	(90,000)
(16,972)	Other receipts from investing activities	(26,466)
(33,586)	Net cash flows from investing activities	115,882

Note 27 – Cash Flow Statement – Financing Activities

2013/2014 £'000		2014/2015 £'000
0	Cash receipts of short and long-term borrowing	(50,049)
(1,149)	Other receipts from financing activities	(5,689)
1,234	Cash payments for the reduction of the outstanding liabilities relating to finance leases and on-balance sheet PFI contracts	4,484
6,440	Repayments of short and long term borrowing	11,346
3,954	Other payments for financing activities	0
10,479	Net cash flows from financing activities	(39,908)

Notes to the Accounts

Note 28 – Amounts Reported for Resource Allocation Decisions

The analysis of income and expenditure by service on the face of the Comprehensive Income and Expenditure Statement is that specified by the Service Reporting Code of Practice. However, decisions about resource allocation are taken by the Council's Cabinet on the basis of budget reports analysed across portfolios. These reports are prepared on a different basis from the accounting policies used in the financial statements. In particular;

- no charges are made in relation to capital expenditure (whereas depreciation, revaluation and impairment losses in excess of the balance on the Revaluation Reserve and amortisations are charged to services in the Comprehensive Income and Expenditure Statement);
- the cost of retirement benefits is based on cash flows (payment of employer's pensions contributions) rather than current service cost of benefits accrued in the year;
- expenditure on some support services is budgeted for centrally and not charged to portfolios.

The income and expenditure of the Council is recorded below in line with the portfolio structure used for internal financial reporting:

Notes to the Accounts

Note 28 – Amounts Reported for Resource Allocation Decisions (continued)

Portfolio Income and Expenditure 2013/2014

	Leader	Deputy Leader	Cabinet Secretary	Children's Services	Health Housing and Adult Services	Public Health Wellness and Culture	City Services	Responsive Services and Customer Care	Total

Notes to the Accounts

Note 29 – Trading Operations

The Council is required to publish the financial results of services it operates on a trading account basis.

2013/2014				2014/2015		
Expenditure £'000	Turnover £'000	(Surplus) / Deficit £'000		Expenditure £'000	Turnover £'000	(Surplus) / Deficit £'000
5,152	5,730	(578)	General Highways	5,621	6,233	(612)
7,575	7,553	22	Education and Civic Buildings Maintenance	5,852	5,886	(34)
12,727	13,283	(556)		11,473	12,119	(646)

Trading operations are incorporated into the Comprehensive Income and Expenditure Statement. Where these activities support other Council services, the expenditure relating to the trading operation is allocated to appropriate headings within Cost of Services. Only a residual amount of the net surplus on trading operations is charged as Financing and Investment Income and Expenditure (see Note 10).

Note 30 – Agency Services

As detailed within Related Party Transactions (Note 37), the Council provides support services to various other Authorities or Bodies.

A limited range of agency services are also provided to third parties on behalf of these organisations, however, the level of income generated from this activity is relatively low in value and has therefore not been detailed in the accounts.

Note 31 – Pooled Budgets

Section 75 of the NHS Act 2006 allows partnership arrangements between National Health Service (NHS) bodies, Local Authorities, and other agencies in order to improve and co-ordinate services. A pooled budget is established to which each partner organisation makes an agreed contribution. The aim of the partnership is to provide a service to a target client group and allow organisations to work in a more unified way.

As part of the changes to the NHS brought about by the Health and Social Care Act 2012, Primary Care Trusts (PCTs) ceased to exist on 31st March 2013. Their responsibilities, including all pooled budget arrangements with local authorities, have been taken over by Clinical Commissioning Groups (CCGs).

Included within the Council's accounts are four such partnership schemes with Sunderland Clinical Commissioning Group (Sunderland CCG). The notes below summarise the financial performance of each scheme and offers a brief explanation of their purpose.

Community Equipment Service

The aim of this service is to provide all the residents of Sunderland, with an assessed need, appropriate equipment in order to improve their ability to live in their own homes and to encourage independence.

Notes to the Accounts

2013/2014 £'000		2014/2015 £'000
(802)	Sunderland City Council	(802)
(1,562)	Sunderland Clinical Commissioning Group	(1,562)
(2,364)	Total Funding	(2,364)
2,720	Gross Expenditure	2,654
356	Net (Funding) / Expenditure	290

Learning Disabilities

The aim of this service is to plan and implement a joint service for people in residential care with learning disabilities identified as difficult to support within existing learning disability establishments.

2013/2014 £'000		2014/2015 £'000
(1,208)	Sunderland City Council	(1,159)
(1,378)	Sunderland Clinical Commissioning Group	(1,378)
(2,586)	Total Funding	(2,537)
2,553	Gross Expenditure	2,398
(33)	Net (Funding) / Expenditure	(139)

Intermediate Care

The aim of this service is the improvement of the intermediate care for older people to facilitate early discharge of people who are medically fit but need extra support through rehabilitation care and preventing unnecessary admission or re-admission to hospital or longer term care, through closer working arrangements with partners.

2013/2014 £'000		2014/2015 £'000
(1,295)	Sunderland City Council	(1,218)
(1,033)	Sunderland Clinical Commissioning Group	(971)
(2,328)	Total Funding	(2,189)
2,111	Gross Expenditure	2,130
(217)	Net (Funding) / Expenditure	(59)

Mental Capacity Act / Deprivation of Liberties

The overall aim of this pooled budget is to facilitate the provision of Mental Capacity Act coordinators, by effective coordination of resources of the parties through the pooled budget, and enabling the parties to work closely together to provide the necessary resources to ensure so far as practicable, compliance with the Mental Capacity Act 2005 (as amended) insofar as it relates to the provision of Assessments.

2013/2014 £'000		2014/2015 £'000
(37)	Sunderland City Council	(48)
(50)	Sunderland Clinical Commissioning Group	(63)
(87)	Total Funding	(111)
39	Gross Expenditure	63
(48)	Net (Funding) / Expenditure	(48)

Notes to the Accounts

Note 32 – Members’ Allowances

The Council paid the following amounts to members of the council during the year.

2013/2014 £'000		2014/2015 £'000
1,164	Allowances	1,148
34	Expenses	18
1,198	Total	1,166

Note 33 – Officers’ Remuneration

The tables below disclose the specific remuneration information in relation to ‘Senior’ officers. Officers whose salary is £50,000 or more per year but less than £150,000 are listed individually by way of job title. Officers whose salary is £150,000 or more per year are also identified by name. The disclosure is made for 2014/2015 and 2013/2014 in the following categories:

- salaries, fees and allowances;
- bonuses;
- expenses allowance;
- compensation for loss of employment;
- benefits in kind;
- employees’ pension contributions.

Notes to the Accounts

0	1	£140,000 - £144,999	0	1

Notes to the Accounts

Note 34 – External Audit Costs

Sunderland City Council has incurred the following costs in relation to the audit of the Statement of Accounts, certification of grant claims and statutory inspections and to non-audit services provided by the Council's external auditors.

2013/2014 £'000		2014/2015 £'000
183	Fees payable to external auditors with regard to external audit services carried out by the appointed auditor for the year	207
0	Fees payable to external auditors in respect of statutory inspections	0
12	Fees payable to external auditors for the certification of grant claims and returns for the year	16
36	Fees payable in respect of other services provided by external auditors during the year	17
(25)	Rebate received relating to audit services in prior years	(18)
206	Total Costs	222

Note 35 – Dedicated Schools' Grant

The Council's expenditure on schools is funded primarily by grant monies provided by the Department for Education, the Dedicated Schools Grant (DSG). An element of DSG is recouped by the Department to fund academy schools in the Council's area. DSG is ringfenced and can only be applied to meet expenditure properly included in the Schools Budget, as defined in the School Finance (England) Regulations 2011. The Schools Budget includes elements for a range of educational services provided on a council-wide basis and for the Individual Schools Budget, which is divided into a budget share for each maintained school.

Details of the deployment of DSG receivable for 2014/2015 are as follows:

	Schools Budget Funded by DSG		
	Central Expenditure £'000	Individual Schools Budget (ISB) £'000	Total £'000
Final DSG for 2014/2015 before Academy recoupment			191,992
Academy figure recouped for 2014/2015			71,031
Total DSG after Academy recoupment for 2014/2015			120,961
Plus			
Brought forward from 2013/2014			1,044
Less			
Carry forward to 2015/2016 agreed in advance			0

Local authority contribution for 2014/2015	0	0	0
Carry forward to 2015/2016	1,981	657	2,638

Notes to the Accounts

Note 36 – Grant Income

The Council has received a number of grants, contributions and donations that have yet to be recognised as income as they have conditions attached to them that may require the monies or property to be returned to the provider. The balances at the year-end are as follows:

2013/2014 £'000		2014/2015 £'000
	Capital Grant Receipts in Advance	
1,308	Department for Education	958
0	Department of Health	5
121	Communities and Local Government	5,350
0	Department for Transport	1,259
187	Department for Environment, Food and Rural Affairs	0
3,455	Homes and Communities Agency	2,939
135	Heritage Lottery Fund	135
0	Department of Energy and Climate Change	81
0	Arts Council	90
5,206	Total	10,817

The Council credited the following grants, contributions and donations to the Comprehensive Income and Expenditure Statement:

2013/2014 £'000		2014/2015 £'000
	Credited to Taxation and Non Specific Grant Income and Expenditure	
	Revenue Grants:	
112,757	Revenue Support Grant	93,968

Notes to the Accounts

Note 37 – Related Parties

The Council is required to disclose material transactions with related parties – bodies or individuals that have the potential to control or influence the Council or to be controlled or influenced by the Council. Disclosure of these transactions allows readers to assess the extent to which the Council might have been constrained in its ability to operate independently or might have secured the ability to limit another party's ability to bargain freely with the Council.

Central Government

Central Government has significant influence over the general operations of the Council – it is responsible for providing the statutory framework within which the Council operates, provides the majority of its funding in the form of grants and prescribes the terms of many of the transactions that the Council has with other parties (e.g. council tax bills, housing benefits). Grants received from government departments are set out in the subjective analysis in Note 28 on reporting for resource allocation decisions and further detailed in Note 36.

Members

Members of the Council have direct control over the Council's financial and operating policies. The total of members' allowances paid in 2014/2015 is shown in Note 32. In respect of the 2014/2015 financial year a number of Council members had a controlling interest in a company, partnership, trust or entity which generated a related party transaction with the Council. The controlling influence was by way of ownership, or as a director, trustee or partner. These transactions amounted to payments of £1.286m made by the Council in 2014/2015 (£1.683m in 2013/2014), of which £0.876m (£1.067m for 2013/2014) relates to payments to companies and £0.410m (£0.616m for 2013/2014) to voluntary organisations.

The figures stated above do not include transactions with Care and Support Sunderland Ltd, Sunderland Care and Support Ltd or Sunderland Live Ltd as transactions between these companies and the Council have been separately identified as part of the production of Group Accounts for 2014/2015.

It should be noted that all Council members' pecuniary and non-financial interests which could conflict with those of the Council are open to public inspection as required by the Local Authority (Members' Interests) Regulation (SI 1992/618) laid under Section 19 of the Local Government and Housing Act 1989. The relevant members must therefore declare an interest (which was minuted) and they do not take part in any discussion or decision relating to the transactions concerned.

Officers

In respect of the 2014/2015 financial year no Chief Officers had a controlling interest in a company, partnership, trust or entity which is considered to have generated a related party transaction with the Council.

Entities Controlled or Significantly Influenced by the Council

Care and Support Sunderland Ltd

Care and Support Sunderland Ltd commenced trading on the 7th October 2011 following Choices Care Ltd going into administration. The services delivered were residential and supported living schemes for people with Learning Disabilities, Autism and Challenging Behaviour. Sunderland City Council formed Care and Support Sunderland Ltd as a Local Authority Controlled Company (LATC), for the specific purpose of providing these services.

Care and Support Sunderland (Holding Company) was formed on 1st April 2013 and was owned 100% by Sunderland City Council with Care and Support Sunderland Ltd being fully owned by the Holding Company. Sunderland City Council had contracts with Care and Support Sunderland (Holding Company) Ltd for the provision of services. The holding company then subcontracted to Sunderland Care and Support Ltd to deliver the services

Notes to the Accounts

The company had provided twenty three small residential and supported living schemes managed by the company, with a contract valued at £5.892m for the nine month period to 31st December 2014. The company made a loss before tax of £1.053m in the period.

Both companies had a common board of directors appointed by the Council (as the shareholder of the holding company).

The company had no assets.

It was agreed by the Board and the Council during the financial period to transfer the business, assets and employees to Sunderland Care and Support Ltd and wind up Care and Support Sunderland Ltd and Care and Support Sunderland (Holding Company) Ltd. The transfer took place on 1 January 2015 with all activity from both companies ceasing on 31 December 2014.

Sunderland Care & Support (Holding Company) Ltd

Sunderland Care and Support (Holding Company) Ltd with its subsidiary Sunderland Care and Support Ltd commenced trading on the 1st December 2013 for the provision of Adult Social Care Services for Sunderland City Council and was set up as a Local Authority Trading Company (LATC).

Sunderland Care and Support (Holding Company) Ltd is 100% owned by Sunderland City Council, with Sunderland Care and Support Ltd being owned fully by the Holding Company. Sunderland City Council contracts with Sunderland Care and Support (Holding Company) Ltd for the provision of Adult Social Care Services, the holding company then subcontracts to Sunderland Care and Support Ltd who deliver the following Adult Social Care Services:

- Reablement at home
- Farnborough Court Intermediate Care Centre
- Sunderland Telecare
- Community Equipment Service and Handyperson Service
- Day services
- Supported living schemes
- Registered residential services
- Short break services
- Independence at home (outreach) services
- Sunderland Shared Lives
- See and Solve Solutions
- Sunderland Home Improvement Agency

On the 1st January 2015 all the business and employees of Care and Support Sunderland Ltd were transferred into Sunderland Care and Support Ltd with the main reasons to allow a number of similar services supporting people with challenging behaviour to be grouped together, in addition there are opportunities for shared governance, management and support arrangements which will eradicate duplication and help deliver financial efficiencies.

The value of the contract for the period is £29.637m. The operating profit for the period, before tax, amounted to £0.689m for the two companies.

Both companies have a common board of directors appointed by the Sunderland City Council (as the shareholder of the holding company).

Sunderland Live Ltd

Sunderland Live Ltd was formed in April 2013. It organises and delivers a programme of events of all sizes for the Council and other partners, from the Christmas Experience starting in November to the flagship event of the Sunderland International Airshow, now held over three days in July. In the 12 months to 31st March 2015, the company's income amounted to £2.125m with expenditure of £2.249m generating an operating loss, before tax, of £0.124m.

Notes to the Accounts

Siglion LLP

On 7th November 2014 the Council and Carillion (Maple Oak) Limited formed a Limited Liability Partnership (LLP) (Siglion) with both parties owning 50% of the LLP. Siglion has a wholly owned subsidiary (Siglion Nominee Limited) and Siglion and Siglion Nominee Limited have formed two further LLPs. These are Siglion Investments LLP and Siglion Developments LLP. Igloo Regeneration Ltd has been appointed to deliver a range of services including development management in relation to a number of regeneration sites and following the acquisition from the Council of a number of investment properties including ground leases, retail properties, industrial properties and managed workspaces, strategic asset management. In consideration of this transaction, the Council received loan notes totalling £23.5m. These are split between Loan Note A (£5m) which is non-interest bearing and Loan Note B (£18.5m), which is interest bearing, with interest payable quarterly. Loan Note A is not anticipated to be repaid until Siglion is wound up, whilst Loan Note B is similarly not anticipated to be repaid until Siglion is wound up but may be repaid and hence the value reduce over time as investment properties are disposed of. Siglion's primary purpose is to assist in the delivery of economic and regeneration benefits to Sunderland through its objectives of:

- Improving the concentration of new economic activity in the city centre;
- Creating a city centre that supports such higher value job creation;
- Bringing dormant sites back into use;
- Offering a wider choice of housing to the market; and
- Positioning Sunderland as a place to invest.

The draft accounts for the group for the period 7th November 2014 to 31st March 2015, shows a net profit before taxation of £0.504m and indicates that no dividend is proposed. The overall current net worth of the group is £10.504m.

Tyne and Wear Development Company Ltd

The Tyne and Wear Development Company Ltd (TWEDCo) was established in 1986 by Tyne and Wear County Council and the five District Councils of Tyne and Wear. TWEDCo was a company limited by guarantee and did not have a share capital.

During 2012/13, the board of directors made the decision to review the role of TWEDCo and its related group of companies on the basis that both the economic development landscape had changed with the creation of the North Eastern Local Enterprise Partnership and that the local authorities were now providing a similar role to that of the company. A detailed due diligence process was carried out culminating in the Board approving the cessation of the company's trading activities from 30th April 2013, with a formal recommendation to voluntarily liquidate the group of Companies as soon as practicable.

Sunderland was the lead authority for TWEDCo and carried out the voluntary liquidation of the companies on behalf of its member authorities.

In accordance with the Company's Articles of Association the company's property portfolio was transferred to each of its shareholders according to its location, and Sunderland received assets to the value of £3.598m on 7th July 2013, when the Board formally approved the Voluntary Liquidation and the transfer of assets. These assets were consequently included within the Council's accounts for the financial year 2013/14.

Part of the winding up process also involved agreeing with the Liquidator the amount of surplus cash resources available to the Companies, once all liabilities had been met. There were however complications with settlement of the lease terms of Company Headquarters and a very late notification of some accumulated interest on some surplus funds held in an escrow account that came to light as part of the VL process. These delayed the formal winding up process for a number of months however the total funds held by the Companies was agreed in early September 2014 at £0.501m and these were distributed to each of the five district councils in accordance to the agreed population basis set out in the Articles of Association.

Notes to the Accounts

Sunderland received £0.125m from the total cash resources distributed.

The Voluntary Liquidation process was formally completed on 11th December 2014 when the Companies were finally struck off the Companies House Register.

Any further information in respect of the liquidation can be acquired upon application to: Director of Finance, at Sunderland City Council.

Newcastle Airport

Under the Airport Act 1986, Newcastle International Airport Limited (NIAL) was formed and seven local authorities were allocated shares in consideration for all the property, rights and liabilities that were transferred into the new company. On 4th May 2001, the seven local authority shareholders of NIAL (the "LA7") entered into a strategic partnership with Copenhagen Airports A/S for the latter to purchase a 49% share of Newcastle International Airport. This involved the creation of a new company, NIAL Holdings Limited, which is 51% owned by LA7. The 51% holding is held in the Newcastle Airport Local Authority Holding Company Limited, a company wholly owned by the seven authorities. The Newcastle Airport Local Authority Holding Company Limited has a called up share capital of 10,000 shares with a nominal value of £1 each. The Council originally held a shareholding of 1,845 shares representing an 18.45% interest in this company. These shares are not held for trading outside of the LA7.

On 16th November 2012, Copenhagen Airports A/S sold its 49% holding to AMP Capital Investors Ltd. As a result, the valuation of the LA7 holding is now based on the open market value achieved in this sale. At the same time an internal sale of shares also took place within the LA7 group. The Council as a result acquired an additional 42 shares and now holds an 18.87% interest in Newcastle Airport Local Authority Holding Company Limited, valued at £16.400m using the open market value of the shares.

The valuation of the shareholding is reviewed each year to consider whether any events have occurred which would materially change the valuation but no such events have occurred during 2014/2015 with the result that the valuation has remained unchanged.

Through its shares in Newcastle Airport Local Authority Holding Company Limited the Council now has a revised effective shareholding of 9.62% in Newcastle International Airport Limited (and the group companies of NIAL Group Limited and NIAL Holdings Limited). The principal activity of Newcastle International Airport Limited (Registered Number 2077766) is the provision of landing services for both commercial and freight operators. No dividend was received for the year ended 31st December 2014 (£0.433m dividend was received for the year ended 31st December 2013).

Members of the LA7 entered into a loan agreement with NIAL Group Limited in 2012/13, issuing £67.665m shareholder loan notes. The loan notes will be repayable in 2032 with interest being received up to that date on a 6 monthly basis. Otherwise there are no outstanding balances owed to or from NIAL at the end of the year.

NIAL Group Limited made a profit before tax of £0.496m and a profit after tax of £0.277m for the year ended 31st December 2014. In the previous year, the Group made a loss before tax of £11.134m (as restated) and a loss after tax of £3.615m (as restated).

Port of Sunderland

The Port of Sunderland is owned and operated by Sunderland City Council therefore transactions relating to the City's Port activities are included within the financial statements.

The Port turnover has improved from 2013/2014 by £0.176m to £5.097m for the 2014/2015 financial year. Investment in recent years in the Port's asset base and the securing of new cargo activity through the Port has generated this increase in turnover and also an increase in profit. The overall net surplus for the 2014/2015 financial year totalled £0.241m, (2013/2014 surplus £0.141m).

Notes to the Accounts

Sunderland Empire Theatre Trust

The Sunderland Empire Theatre Trust is a company limited by guarantee. The principal activity of the Trust is to operate the Sunderland Theatre. The Council has twelve representatives on the Board of seventeen Directors.

The Council has a facilities management arrangement with the Ambassador Theatre Group for a fixed annual amount, the amount paid by the Council totalled £0.420m in 2014/2015, (£0.411m in 2013/2014).

In 2014/2015, the turnover of the Trust was under £25,000 and as such audited accounts are not required. The Trust made a small surplus of £22 in 2014/2015 (surplus of £20 for 2013/2014) which will increase its reserves to meet future costs. Its reserves as at 31 March 2015 now stand at £7,156 (£7,134 as at 31 March 2014). In 2014/2015 the Council made a contribution of £11,737 (£11,510 for 2013/2014) to the Trust and the Council also has to meet its own obligations in the form of the upkeep of the building to which the Trust has no liability. A copy of the Trust accounts can be obtained from the Director of Finance, Sunderland City Council, Civic Centre, P.O. Box 106, Sunderland, SR2 7DN.

Beamish Museum Companies

Beamish Museum was established in 1970 and the Council has been a constituent member Authority of Beamish North of England Open Air Museum since its inception. The Council made a contribution of £18,000 towards the running costs of the Museum in 2014/2015 (£15,903 in 2013/2014).

The Joint Committee was responsible for the assets of the Museum and made all decisions on capital schemes and procuring grants for capital development. However, the Joint Committee was dissolved with effect from 1st April 2014, in accordance with the agreed recommendations made by the Joint Committee at its final meeting held on 28th March 2014. The main impact from this saw the Joint Committee's net assets transfer to Beamish Museum (BM) on 1st April 2014.

Beamish Museum (BM) is a charitable company limited by guarantee and is responsible for capital development and the management and operation of the Museum. Beamish Museum Trading Limited (BMTL), a subsidiary of BM, manages all of the retailing and catering operations of the Museum. In the draft accounts for 2014/2015, the BM and BMTL group made an operating profit of £23.789m (£0.929m profit excluding £22.860m of assets transfer (2013/2014 £0.549m profit)) and had net assets of £21.913m (2013/2014 net liabilities of £0.721m). The Council receives no income or contributions from the above reported arrangements.

Copies of the BM Group Accounts can be obtained from the Museum Director, Regional Resource Centre, Beamish Museum, County Durham, DH9 0RG.

North East Local Enterprise Partnership (NELEP)

The North East Local Enterprise Partnership (NELEP) is a strategic partnership committed to promoting and developing economic growth in the North East. NELEP covers the 7 Local Authority areas of Sunderland, Durham, Gateshead, Newcastle, North Tyneside, Northumberland and South Tyneside. The NELEP Board comprises, nine private sector representatives including the Chair, seven local authority representatives, one higher education representative and one representative of further education colleges.

The Council provided support services to the NELEP, however NELEP is a separate organisation and, as such, all transactions relating to NELEP have been excluded from the Council's accounts. At 31st March 2015 the Council held £22.954m of funds in relation to NELEP (£25.857m at 31st March 2014). As these funds do not belong to the Council they are not reflected in the Statement of Accounts and there are no assets or liabilities belonging to NELEP reflected on the Council's Balance Sheet.

Notes to the Accounts

Key Cities

The key cities group comprises 26 mid-sized English cities representing 7.9 million people. Sunderland was one of the five founder cities and inaugural chair. The central aim of the group is to allow these cities to boost the country's prosperity through economic development and growth.

The Council is the Designated Accountable Body for the Key Cities group, however key Cities is a separate organisation and, as such, all transactions relating to it have been excluded from the Council's accounts. At 31st March 2014 the Council held £0.096m of funds in relation to Key Cities. As these funds do not belong to the Council they are not reflected in the Statement of Accounts and there are no assets or liabilities belonging to key Cities reflected on the Council's Balance Sheet.

Other Relevant Information

The Council provides support services (including financial support services) to the following related parties:

Tyne & Wear Fire and Rescue Authority, Beamish Museum Joint Committee, Beamish Museum Limited, Beamish Museum Trading Limited, Empire Theatre Trust Company Limited, Bowes Railway, Hetton Town Council, Tyne and Wear Development Company Limited, Tyne and Wear Economic Development Joint Committee, Care and Support Sunderland Limited, Sunderland Care and Support Ltd, Sunderland Live Ltd, Raich Carter Sports Centre, Pooled Budget Arrangements with Sunderland Clinical Commissioning Group, Tyne and Wear Care Alliance, Academies and Voluntary Aided Schools.

Notes to the Accounts

Note 38 – Capital Expenditure and Capital Financing

The total amount of capital expenditure incurred in the year is shown in the table below (including the value of assets acquired under finance leases and PFI contracts), together with the resources that have been used to finance it. Where capital expenditure is to be financed in future years by charges to revenue as assets are used by the Council, the expenditure results in an increase in the Capital Financing Requirement (CFR), a measure of the capital expenditure incurred historically by the Council that has yet to be financed. The CFR is analysed in the second part of this note.

2013/2014 £		2014/2015 £
259,473	Opening Capital Financing Requirement	270,602
0	Recognition of Embedded Lease Assets	1,145
0	Recognition of PFI Assets	66,630
	<i>Capital Investment</i>	
43,937	Property, Plant and Equipment	56,420
0	Investment Properties	0
304	Intangible Assets	427
6,774	Revenue Expenditure Funded from Capital under Statute	14,631
	<i>Sources of Finance</i>	
(666)	Capital Receipts	(2,842)
(22,618)	Government grants and other contributions	(28,820)
	Sums set aside from:	
(4,528)	Direct revenue contributions	(4,758)
(12,074)	MRP	(14,733)
270,602	Closing Capital Financing Requirement	358,702
	<i>Explanation of movements in year</i>	
(7,420)	(Decrease) in underlying need to borrow (supported by government financial assistance)	(7,207)
20,113	Increase in underlying need to borrow (unsupported by government financial assistance)	31,870
0	Assets acquired under finance leases	797
(1,564)	Assets acquired under PFI contracts	62,640
11,129	Increase / (decrease) in Capital Financing Requirement	88,100

Notes to the Accounts

Note 39 – Leases

a) Council as Lessee

Finance Leases

The Council has acquired a number of administrative buildings and vehicles under finance leases.

The assets acquired under these leases are carried as Property, Plant and Equipment in the Balance Sheet at the following net amounts:

2013/2014 £'000		2014/2015 £'000
10,973	Other Land & Buildings	9,962
0	Vehicles, Plant, Furniture and Equipment	797
10,973		10,759

The council is committed to making minimum payments under these leases comprising settlement of the long-term liability for the interest in the property acquired by the Council and finance costs that will be payable by the Council in future years while the liability remains outstanding. The minimum lease payments are made up of the following amounts:

2013/2014 £'000		2014/2015 £'000
	Finance Lease Liabilities (net present value of minimum lease payments):	
16	Current	365
6,618	Non-current	6,992
0	Finance costs payable in future years	0
6,634	Minimum lease payments	7,357

The minimum lease payments will be payable over the following periods:

Minimum Lease Payments 2013/2014 £'000	Finance Lease Liabilities 2013/2014 £'000		Minimum Lease Payments 2014/2015 £'000	Finance Lease Liabilities 2014/2015 £'000
16	16	Not later than one year	365	365
63	63	Later than one year and not later than five years	508	508
6,555	6,555	Later than five years	6,484	6,484
6,634	6,634		7,357	7,357

Operating Leases

The council has acquired a number of vehicles by entering into operating leases, with typical lives of seven years.

The future minimum lease payments due under non-cancellable leases in future years are:

2013/2014 £'000		2014/2015 £'000
12	Not later than one year	10
10	Later than one year but not later than five years	0
0	Later than five years	0
22		10

Notes to the Accounts

The expenditure charged to the Comprehensive Income and Expenditure Statement during the year in relation to these leases was £59,731 (2013/2014 £151,562).

The council has use of a small number of properties by entering into operating leases. The annual payment in 2014/2015 was £426,056 (2013/2014 £417,695). The annual lease payments payable relating to leases that are due for renewal in the following periods are:

2013/2014 £'000		2014/2015 £'000
60	Not later than one year	25
18	Later than one year but not later than five years	12
340	Later than five years	389
418		426

b) Council as Lessor

Operating Leases

The Council leases out under operating leases for the following purposes:

- for the provision of community services
- for economic development purposes to provide suitable affordable accommodation for local businesses

The future minimum lease payments receivable under non-cancellable leases in future years are:

2013/2014 restated £'000		2014/2015 £'000
8,982	Not later than one year	4,777
6,760	Later than one year but not later than five years	3,154
3,585	Later than five years	2,550
19,327		10,481

The minimum lease payments receivable do not include rents that are contingent on events taking place after the lease was entered into, such as adjustments following rent reviews.

Note 40 – Private Finance Initiatives and Similar Contracts

The Council currently operates two PFI schemes:

- Sandhill View School and Community and Learning Centre became operational in September 2002. This development also included some facilities previously provided separately including Grindon Library. The Council receives annual grant of £1.549m towards the cost of this scheme.
- The Council also entered into a PFI contract, on 12 August 2003, to provide replacement highway signs and street lighting, this includes on-going maintenance, over a period of 25 years. The contract began on 1 September 2003 and will last until 31 August 2028. The Council receives annual grant of £2.185m towards the cost of this scheme.

The Council, together with Gateshead and South Tyneside Councils, is part of the South Tyne and Wear Waste Management Partnership. In April 2014, an energy from waste facility became operational under a PFI contract, led by Gateshead Council. Sunderland Council receives annual grant of £1.805m towards the cost of this scheme.

Notes to the Accounts

Property, Plant and Equipment

The assets used to provide services under the two existing PFI schemes are recognised on the Council's Balance Sheet. Movements in their value over the year are detailed in the analysis of the movement on the Property, Plant and Equipment in Note 12.

Payments

The council makes agreed payments each year which are increased each year by inflation and can be reduced if the contractor fails to meet availability and performance standards in any year but which is otherwise fixed. Payments remaining to be made under the PFI contract at 31 March 2015 (excluding any estimation of inflation and availability / performance deductions) are as follows:

	Payment for Services £'000	Reimbursement of Capital Expenditure £'000	Interest £'000	Total £'000
Payable in 2015/2016	8,450	4,932	4,093	17,475
Payable within 2 to 5 years	34,178	21,078	14,442	69,698
Payable within 6 to 10 years	42,124	31,985	13,271	87,380
Payable within 11 to 15 years	34,055	31,318	5,416	70,789
Payable within 16 to 20 years	22,445	21,871	2,113	46,429
Payable within 21 to 25 years	18,073	18,898	680	37,651
Total	159,325	130,082	40,015	329,422

Although the payments made to the contractor are described as unitary payments, they have been calculated to compensate the contractor for the fair value of the services they provide, the capital expenditure incurred and interest payable whilst the capital expenditure remains to be reimbursed. The liability outstanding to pay the liability to the contractor for capital expenditure incurred is as follows:

2013/2014 £'000		2014/2015 £'000
31,308	Balance outstanding at the start of the year	30,074
(1,234)	Payments during the year	(4,484)
0	Capital expenditure incurred in year	0
30,074	Balance outstanding at the year end	25,590

Note 41 – Impairment Losses

During 2014/2015, the Council recognised impairment losses totalling £5.464m (£7.292m in 2013/2014). These impairment losses related to work undertaken on Council assets that had not led to a corresponding increase in value. The main areas of impairment are demolition and improvement works at regeneration sites within the city (£1.745m) and works to various schools (£1.633m).

Notes to the Accounts

Note 42 – Termination Benefits

Over recent years the Council has implemented a range of workforce planning measures in order to address financial pressures. All related costs are reflected within the Cost of Service on the Comprehensive Income and Expenditure Statement, however, it should be noted that this also includes technical accounting adjustments required by Accounting Standards with regard to past service pension costs.

The Council terminated the contracts of a number of employees in 2014/2015, incurring liabilities of £4.050 (£12.427m in 2013/2014). This included a limited number of compulsory redundancies (£0.510m relating to 45 employees). The number of all exit packages with total cost per band and total cost of these packages are set out in the tables below:

2013/2014

Exit package cost band £'000	Number of agreed departures (Non-Schools)	Cost of Exit Packages in each band (Non-Schools)			Number of agreed departures (Schools)	Cost of Exit Packages in each band (Schools)			Total Cost of Exit Packages in each band		
		Employee Costs £'000	Pension Costs £'000	Total Cost £'000		Employee Costs £'000	Pension Costs £'000	Total Cost £'000	Employee Costs £'000	Pension Costs £'000	Total Cost £'000

Notes to the Accounts

Note 43 – Pension Scheme Accounted for as Defined Contribution Schemes

Teachers' Pension Scheme

Teachers employed by the Council are members of the Teachers' Pension Scheme, administered by Capita Teachers' Pensions on behalf of the Department for Education (DfE). The Scheme provides teachers with specified benefits upon their retirement, and the Council contributes towards the costs by making contributions based on a percentage of members' pensionable salaries.

The scheme is a multi-employer defined benefit scheme. The scheme is unfunded and the Department for Education uses a notional fund as the basis for calculating the employers' contribution rate paid by local authorities. Valuations of the notional fund are undertaken every four years.

The scheme has in excess of 3,700 participating employers and consequently the Council is not able to identify its share of the underlying financial position and performance of the Scheme with sufficient reliability for accounting purposes. For the purposes of this Statement of Accounts, it is therefore accounted for on the same basis as a defined contribution scheme. As a proportion of the total contribution into the Teacher's Pension Scheme for teachers employed by the Council, the Council's own contributions equated to approximately 59.2% for 2014/2015.

In 2014/2015, the Council paid £6.689m to Teachers' Pensions in respect of teachers' retirement benefits, representing 14.1% of pensionable pay. The figures for 2013/2014 were £7.523m and 14.1%. There were no contributions remaining payable at the year end. The contributions due to be paid in the next financial year are estimated to be £6.743m.

The Council is responsible for the costs of any additional benefits awarded upon early retirement outside of the terms of the teachers' scheme. These costs are accounted for on a defined benefit basis and detailed in Note 44.

The Council is not liable to the scheme for any other entities obligations under the plan.

NHS Staff Pension Scheme

During 2013/2014, NHS staff transferred to the Council. These staff maintained their membership in the NHS Pension Scheme. The scheme provides these staff with specified benefits upon their retirement and the Council contributes towards the costs by making contributions based on a percentage of members' pensionable salaries.

The scheme is an unfunded defined benefit scheme. However, the Council is not able to identify its share of the underlying financial position and performance of the scheme with sufficient reliability for accounting purposes. For the purposes of this Statement of Accounts, it is therefore accounted for on the same basis as a defined contribution scheme. As a proportion of the total contribution into the NHS Pension Scheme for staff employed by the Council, the Council's own contributions equated to approximately 58.3% for 2014/2015.

In 2014/2015, the Council paid £0.087m to the NHS Pension Scheme in respect of former NHS staff retirement benefits, representing 14.0% of pensionable pay. The figures for 2013/2014 were £0.102m and 13.8%. There were no contributions remaining payable at the year end. The contributions due to be paid in the next financial year are estimated to be £0.122m.

Note 44 – Defined Benefit Pension Schemes

Participation in Pension Schemes

As part of the terms and conditions of employment of its officers, the Council makes contributions towards the cost of post-employment benefits. Although these benefits will not actually be payable until employees retire, the Council has a commitment to make the payments (for those benefits) and to disclose them at the time that employees earn their future entitlement.

Notes to the Accounts

The Council participates in two post-employment schemes:

- The Local Government Pension Scheme, administered locally by South Tyneside Council – this is a funded defined benefit final salary scheme, meaning that the Council and employees pay contributions into a fund, calculated at a level intended to balance the pensions liabilities with investment assets.
- Arrangements for the award of discretionary post-retirement benefits upon early retirement – this is an unfunded defined benefit arrangement, under which liabilities are recognised when awards are made. However, there are no investment assets built up to meet these pensions liabilities, and cash has to be generated to meet actual pension payments as they eventually fall due.

The Tyne and Wear pension scheme is operated under the regulatory framework for the Local Government Pension Scheme and the governance of the scheme is the responsibility of the Pensions Committee of South Tyneside Council. Policy is determined in accordance with the Pension Fund Regulations.

The principal risks to the Council of the scheme are the longevity assumptions, statutory changes to the scheme, structural changes to the scheme (i.e. large-scale withdrawals from the scheme), changes to inflation, bond yields and the performance of the equity investments held by the scheme. These are mitigated to a certain extent by the statutory requirements to charge to the General Fund the amounts required by statute as described in the accounting policies note.

Discretionary Post-Retirement Benefits

Discretionary post-retirement benefits on early retirement are an unfunded defined benefit arrangement, under which liabilities are recognised when awards are made. There are no plan assets built up to meet these pension liabilities.

Transactions Relating to Post-employment Benefits

We recognise the cost of retirement benefits in the reported cost of services when they are earned by employees, rather than when the benefits are eventually paid as pensions. However, the charge we are required to make against council tax is based on the cash payable in the year, so the real cost of post-employment / retirement benefits is reversed out of the General Fund via the Movement in Reserves Statement.

Notes to the Accounts

The following transactions have been made in the Comprehensive Income and Expenditure Statement and the General Fund Balance via the Movement in Reserves Statement during the year:

	Local Government Pension Scheme		Discretionary Benefit Arrangements	
	2013/2014 £m	2014/2015 £m	2013/2014 £m	2014/2015 £m

Total assets	81.0	19.0	100.0	80.2	19.8	100.0

Basis for Estimating Assets and Liabilities

Liabilities have been assessed on an actuarial basis using the projected unit credit method, an estimate of the pensions that will be payable in future years dependent on assumptions about mortality rates, salary levels, etc.

Both the Local Government Pension Scheme and discretionary benefit liabilities have been assessed by Aon Hewitt Limited, an independent firm of actuaries, estimates for the Council fund being based on the latest full valuation of the scheme as at 1 April 2013.

Notes to the Accounts

The significant assumptions used by the actuary have been:

	Local Government Pension Scheme		Discretionary Benefits	
	2013/2014	2014/2015	2013/2014	2014/2015
Mortality assumptions:				
Longevity at 65 for current pensioners				
Men	23.0 years	23.1 years	23.0 years	23.1 years
Women	24.6 years	24.7 years	24.6 years	24.7 years
Longevity at 65 for future pensioners				
Men	25.0 years	25.1 years	n/a	n/a
Women	26.9 years	27.0 years	n/a	n/a
RPI	3.4%	2.9%	3.2%	2.9%
CPI	2.4%	1.8%	2.2%	1.8%
Rate of increase in salaries	3.9%	3.3%	n/a	n/a
Pension account revaluation rate	n/a	1.8%	n/a	n/a
Rate of increase in pensions	2.4%	1.8%	2.2%	1.8%
Rate for discounting scheme liabilities	4.3%	3.2%	4.2%	3.1%
Long-term expected rate of return on assets in the scheme	4.3%	3.2%	4.2%	3.1%

Under IAS19 the long-term expected rate of return on assets is assumed to be the same as the discount rate.

The estimation of the defined benefit obligations is sensitive to the actuarial assumptions set out in the table above. The sensitivity analyses below have been determined based on reasonably possible changes to the assumptions occurring at the end of the reporting period and assumes for each change that the assumption analysed changes while all the other assumptions remain constant. The assumptions in longevity, for example, assume that life expectancy increases or decreases for men and women. In practice, this is unlikely to occur, and changes in some of the assumptions may be interrelated. The estimations in the sensitivity analysis have followed the accounting policies for the scheme, i.e. on an actuarial basis using the projected unit credit method. The methods and types of assumptions used in preparing the sensitivity analysis below did not change from those used in the previous period.

	Impact on the Defined Benefit Obligation in the Scheme	
	Increase in Assumption	Decrease in Assumption
	£m	£m
Longevity (increase or decrease in 1 year)	39.42	39.45
Rate of increase in salaries (increase or decrease by 0.1%)	8.08	7.97
Rate of increase in pensions (increase or decrease by 0.1%)	19.83	19.54
Rate for discounting scheme liabilities (increase or decrease by 0.1%)	26.57	27.07

The Council anticipates making £27.39m expected contributions to the scheme in 2015/2016.

The weighted average duration of the defined benefit obligation for scheme members is 17.6 years, 2014/2015 (18.6 years in 2013/2014).

Notes to the Accounts

Note 45 – Contingent Liabilities

The City Council, together with the other Tyne and Wear district councils, are guarantors to the Tyne and Wear Pension Fund in respect of employees of the North East Regional Assembly and the Association of North East Councils. Also in addition on 1st June 2011 the Council, in agreement with the other Tyne and Wear authorities, agreed to act as guarantors for the pension liabilities of the North East Regional Employers Organisation (NEREO), Disability North, the Percy Hedley Foundation and Tyne and Wear Enterprise Trust (ENTRUST) from 1st April 2011. The Councils involved have agreed with the Pension Fund administrators that if any of the above bodies should cease operating then any pension deficit would be repaid over a 10 year repayment period. The Council's share of the potential liabilities (based upon the last Actuarial Valuation) in the unlikely event that all of the bodies should fail would be in excess of approximately £1.1m in total.

The City Council acts as a guarantor for the No Limits Theatre Company to the Tyne and Wear Pension Fund in respect of pensions for transferring employees. The Council also acts as a guarantor for those employees that were employed originally by the Council but transferred to Gentoo, on the basis that basic pension only would be funded (no added years). This is a diminishing potential liability, however, as staff turnover occurs and transferred staff retire.

Future possible payments may be required to Gentoo (formerly the Sunderland Housing Group) under the terms of the Transfer Agreement established between the Council and Gentoo for claims relating to non environmental and environmental warranties. This agreement was drawn up as part of the Large Scale Voluntary Transfer which took place on 26th March 2001 which transferred all Council Housing and related assets to Gentoo. The amount included in the Agreement stipulates that the Council's maximum liability to the Group in respect of all claims howsoever made shall not exceed in aggregate the sum of £240.0m and as yet no claims have been made.

The Council has a number of outstanding equal pay claims from staff who are seeking financial redress in respect of periods when unequal pay is alleged to have been paid by the Council in relation to previously operated bonus schemes. Claims have been stayed by the Employment Tribunal to enable, without prejudice, settlement discussions. There are a number of grievances concerning identical issues. Following settlement discussions, a significant number of claims and grievances have been settled. Efforts are on-going to reach settlements in residual cases.

The Environment Agency has confirmed that the Council is one of a number of named organisations that is a potential contributor to the costs of remediation of contaminated land at Halliwell Banks in Sunderland. The cost of the remediation works cannot yet be accurately quantified and it is not possible to determine the level of the Council's exposure at this current time. Arrangements have been put in hand to instruct an independent third party to undertake a detailed investigation of the site, which is now in progress, in order to obtain a clearer understanding of the condition of the land. The position is being kept under regular review and it is considered prudent to continue to treat this as a contingent liability.

The Council has been made aware of its share (0.4022%) of the potential pensions fund liabilities in respect of Port of Sunderland staff that belong to the Pilots' National Pension Fund. The liability becomes effective from 1st April 2015 and the amounts involved will be dependent upon the actuary's advice at that time. An indicative liability totalling approximately £0.800 million was provided, with redress to be spread annually over a projected 14 year period, until 2028. A further revaluation was expected in order to assess the most up to date costs involved for each Authority, but as yet the Council has not received any update from the PNPf.

In November 2014 the Employment Appeal Tribunal ruled that holiday pay should include non guaranteed overtime (overtime which is not guaranteed by the employer, but which the worker is obliged to work, if it is offered). Although the ruling may have implications for the council it is presently unclear as to the potential extent of this in terms of both number of claims and amounts involved, although these are not considered to be significant in nature, at this stage. On this basis it is appropriate that this issue is recognised as a contingent liability until more information becomes available.

Notes to the Accounts

Note 46 – Contingent Assets

The Council has a number of outstanding VAT claims lodged with HM Revenue and Customs (HMRC) in relation to overpaid output tax and the payment of compound interest which have been refused by HMRC. As the probability of a successful conclusion for recovery of these claims is based upon complex on-going litigation with HMRC the Council has reflected its claims as a contingent asset pending a final decision by the courts. The value of the claims (excluding the payment of compound interest) is £4.7m.

The Council entered into an agreement with Wainhomes (Yorkshire) Ltd and Persimmon Homes Ltd to make phased payment contributions to educational facilities at Easington Lane Primary School; a locally equipped play area; public open space and sports and recreation facilities under Section 106 of the Town and County Planning Act 1990. The monies will be paid to the Council upon phased sale of properties at the development of land at Murton Lane, Hetton-le-Hole, the timing of which is uncertain. The total value of the agreement is £1.253m.

The Council entered into an agreement with St Modwen Developments Ltd to make phased payment contributions to educational facilities. The monies will be paid to the Council upon phased sale of properties at the development of land at Lisburn Terrace / Pallion New Road, the timing of which is uncertain. The total value of the agreement is £0.345m and the Council received its first stage payment of £0.122m in May 2013 which effectively reduces the estimated amount outstanding to £0.223m.

The Council entered into an agreement with Persimmon Homes Ltd to make phased payment contributions to affordable offsite housing, ecology and a locally equipped play area at Gillas Lane, Houghton-le-Spring under Section 106 of the Town and County Planning Act 1990. The monies will be paid to the Council upon phased sale of properties at the development of land at Gillas Lane, Houghton-le-Spring, the timing of which is uncertain. The total value of the agreement is £0.476m.

The Council entered into an agreement with Stirling Investment Properties LLP and Stirling Capital S.A.R.L. to make phased payment contributions to educational facilities and a locally equipped play area under Section 106 of the Town and County Planning Act 1990. The monies will be paid to the Council upon phased sale of properties at the development of land at Castletown Way / Riverside Road, the timing of which is uncertain. The total value of the agreement is £0.324m.

The Council entered into an agreement with Durham Chapter and Croxdale Farms Limited to make phased payment contributions to local educational facilities; a locally equipped play area at Elemore View play area and cycleway facilities under Section 106 of the Town and County Planning Act 1990. The monies will be paid to the Council upon phased sale of properties at the development of land at Markle Grove, Hetton-le-Hole, the timing of which is uncertain. The approximate value of the agreement is £0.242m.

The Council also has a number of other smaller Section 106 Agreements in place that may generate contributions from the various developers involved, once certain trigger points in the phased developments occur. These developments are actively monitored by the Council during each financial year in order to safeguard the amounts due.

Note 47 - Nature and Extent of Risk Arising from Financial Instruments

The Council's management of treasury risks activity works to minimise the Council's exposure to the unpredictability of financial markets and to protect the financial resources available to fund services. The Council has fully adopted CIPFA's Code of Treasury Management Practices and has written principles for overall risk management as well as written policies and procedures covering specific areas such as credit risk, liquidity risk and market risks.

Notes to the Accounts

Credit Risk

Credit risk arises from the short-term lending of surplus funds to banks, building societies and other local authorities as well as credit exposures to the Council's customers. It is the policy of the Council to place deposits only with a limited number of high quality banks, building societies and money market funds that are on the Council's Approved Lending List. The counterparty criteria and associated investment limits are set out in the table below, taking account of the credit ratings issued by all three credit rating agencies(Fitch, Moody's and Standard & Poor's):

Fitch / S&P's Long Term Rating	Fitch Short Term Rating	S&P's Short Term Rating	Moody's Long Term Rating	Moody's Short Term Rating	Maximum Deposit £m	Maximum Duration
AAA	F1+	A1+	Aaa	P-1	120	2 Years
AA+	F1+	A1+	Aa1	P-1	100	2 Years
AA	F1+	A1+	Aa2	P-1	80	2 Years
AA-	F1+ / F1	A1+ / A-1	Aa3	P-1	75	2 Years
A+	F1	A-1	A1	P-1	70	364 days
A	F1 / F2	A-1 / A-2	A2	P-1 / P-2	65	364 days
A-	F1 / F2	A-2	A3	P-1 / P-2	50	364 days
Local Authorities (limit for each local authority)					30	2 years
UK Government (including debt management office, gilts and treasury bills)					350	2 years
Money Market Funds Maximum amount to be invested in Money Market Funds is £120m with a maximum of £50m in any one fund.					120	Liquid Deposits
Local Authority controlled companies (# duration limited to 20 years in accordance with Capital Regulations)					20	# 20 years

In addition to the criteria identified above limits are also placed on the country in which the institution is resident, the sector of the institution and if companies are members of a group of companies then a limit is placed on the group. Full details of these limits can be found in the Council's Treasury Management Policy and Strategy

The following analysis summarises the Council's potential maximum exposure to credit risk, based on past experience and current market conditions. The Council expects full repayment on the due date of deposits placed with its counterparties

	Amount at 31 March 2015 £'000	Historical Experience of default %	Historical Experience adjusted for market conditions as at 31 March 2015 £'000	Estimated maximum exposure to default and uncollectability at 31 March 2015 £'000	Estimated maximum exposure to default and uncollectability at 31 March 2014 £'000
Deposits with Banks and other financial institutions	206,252	0	0	0	0
Bonds and other securities	0	0	0	0	0
Customers	26,967	3.53	0	952	795
Financial Assets	233,219		0	952	795

Notes to the Accounts

No credit limits were exceeded during the reporting period and the Council does not expect any loss from non-performance by any of its counterparties in relation to deposits and bonds.

The Council does not generally allow credit for customers, such that £26.967m of the £233.219m is beyond its due date for payment. The past due amount can be analysed by age as follows:

31 March 2014 £'000		31 March 2015 £'000
18,112	Less than 3 months	25,674
334	Three to six months	311
337	Six months to one year	488
265	More than one year	494
19,048		26,967

Liquidity Risk

The Council has a comprehensive cash flow management system that seeks to ensure that cash is available as needed. If unexpected movements happen the Council has ready access to a facility to borrow from the Public Works Loan Board and from money markets. As a result there is no significant risk that the Council will be unable to raise finance to meet its commitments under financial instruments. The Council has safeguards in place to ensure that a significant proportion of its borrowing does not mature for repayment at any one time in the future to reduce the financial impact of re-borrowing at a time of unfavourable interest rates. The maturity analysis of financial liabilities is as follows:

2014 £'000	Loans Outstanding	31 March 2015 £'000
40,734	Less than 1 year	30,988
1,306	Maturing in 1-2 years	50
9,150	Maturing in 2-5 years	14,149
19,251	Maturing in 5-10 years	14,251
5,107	Maturing in 10-20 years	15,063
5,018	Maturing in 20-30 years	5,013
27,000	Maturing in 30-40 years	38,000
67,500	Maturing in 40-50 years	96,500
35,201	Maturing in more than 50 years	34,194
210,267	Total	248,208

All trade and other payables are due to be paid in less than one year.

Market Risk

The Council is exposed to interest rate risk in different ways; the first being the uncertainty of interest paid / received on variable rate instruments, and the second being the effect of fluctuations in interest rates on the fair value of an instrument.

The current interest rate risk for the Council is summarised below:

- Decreases in interest rates will affect interest earned on variable rate investments, potentially reducing income credited to the Income and Expenditure Statement.
- Increases in interest rates will affect interest paid on variable rate borrowings, potentially increasing interest expense charged to the Income and Expenditure Statement.
- The fair value of fixed rate financial assets will fall if interest rates rise. This will not impact on the Balance Sheet for the majority of assets held at amortised cost, but will impact on the disclosure note for fair value. It would have a negative effect on the Balance Sheet for those assets held at fair value in the Balance Sheet, which would also be reflected in the MiRS.

Notes to the Accounts

- The fair value of fixed rate financial liabilities will rise if interest rates fall. This will not impact on the Balance Sheet for the majority of liabilities held at amortised cost, but will impact on the disclosure note for fair value.

The Council has a number of strategies for managing interest rate risk and these are set out in the Council's Annual Treasury Management Policy and Strategy Statement. During periods of falling interest rates, and where economic circumstances make it favourable, fixed rate loans will be repaid to limit exposure to losses.

The treasury management team has an active strategy for assessing interest rate exposure that feeds into the setting of the annual budget and this is updated and reviewed regularly during the year. This allows for any adverse changes to be considered and addressed where appropriate. The analysis will also advise whether new borrowing taken out is fixed or variable.

According to this assessment strategy, at 31st March 2015, if interest rates had been 1% higher with all other variables held constant, the financial effect would be:

31 March 2014 £'000		31 March 2015 £'000
(471)	Increase in interest payable on variable rate borrowings	(476)
2,007	Increase in interest received on variable rate borrowings	1,883
1,536	Net Impact on Income and Expenditure Account	1,407
0	Decrease in fair value of 'available for sale' investment assets	0
0	Impact on MiRS	0
(288)	Decrease in fair value of fixed rate investment assets (No impact on Comprehensive I&E Statement or MiRS)	(701)
25,617	Decrease in fair value of fixed rate borrowing liabilities (No impact on Comprehensive I&E Statement or MiRS)	54,814

Price Risk

The Council does not generally invest in equity shares but does have shareholdings to the value of £16,400,181 (2013/2014 £16,400,181) in Newcastle Airport which is not listed on the stock exchange and a £5,000,000 equity share in its Local Asset Backed Vehicle, Siglion. The Council is consequently exposed to any variation arising from the movement in the price of these shares which were re-valued in 2012/2013 as a result of a change in strategic partner for the Airport during the re-financing process, which provided a 'market' price on which to base the valuation of the shares held by the council.

The Council holds a small number of various gilts and unit trusts with a value at cost of £14,910 (2013/2014 £19,541) which are classified as 'available for sale', meaning that all movements in price, would, if considered material impact on the gains and losses recognised in the MiRS. The market value of these holdings as at 31st March 2015 was £145,361 in total (the value at 31st March 2014 was £147,618).

Foreign Exchange Risk

The Council has no financial assets or liabilities denominated in foreign currencies and thus no exposure to loss arising from movements in exchange rates.

Notes to the Accounts

Note 48 – Heritage Assets: Five-Year Summary of Transactions

Note 49 – Heritage Assets: Further Information on the Council's Holdings

Collections maintained by Tyne & Wear Museums

Sunderland City Council own a number of artefacts that are managed by Tyne & Wear Museums with a value in excess of £10,000.

Statues, Monuments and Public Art

The values of statues, monuments and public art where the value can be separately identified have been classified as heritage assets. In the future all capital expenditure in excess of £10,000 on such items will be classified as heritage assets.

Other Historic Assets

Other objects held by the Council with a value in excess of £10,000 that can be classified as historic assets. Items include, the book of remembrance, copy of the Lindisfarne gospels, miners' banners, etc.

Note 50 – Trust Funds

The Council is responsible for the administration of a number of trust funds on behalf of their specified trustees. These funds do not represent assets of the Council and are therefore not included in the Council's Balance Sheet. At 31st March 2015 the Council was responsible for 42 of these funds, relating to People's Services, details of which are shown below.

	Balance at 01/04/2014	Additions during the year	Income	Expenditure	Balance at 31/03/2015
	£'000	£'000	£'000	£'000	£'000

The Collection Fund is an agent's statement that reflects the statutory obligation for billing authorities to maintain a separate Collection Fund. The statement shows the transactions of the billing authority in relation to the collection from taxpayers and distribution to local authorities and the Government of Council Tax and non-domestic rates.

The Council has a statutory requirement to operate a Collection Fund as a separate account to the General Fund. The purpose of the Collection Fund therefore, is to isolate the income and expenditure relating to Council Tax and Non-Domestic Business Rates. The administrative costs associated with the collection process are charged to the General Fund.

Collection fund surpluses declared by the billing authority in relation to Council Tax are apportioned to the relevant precepting bodies in the subsequent financial year. Deficits likewise are proportionately charged to the relevant precepting bodies in the following year. For Sunderland, the Council Tax precepting bodies are the Police and Crime Commissioner for Northumbria and the Tyne and Wear Fire and Rescue Authority.

Collection Fund Account

In 2013/2014, the local government finance regime was revised with the introduction of the retained business rates scheme. Whilst the main aim of the scheme is to give Councils a greater incentive to grow businesses, it also increases the financial risk due to non-collection and the volatility of the NNDR tax base.

The scheme allows the Council to retain a proportion of the NNDR received. The Sunderland share is 49% with the remainder paid to precepting bodies. For Sunderland the NNDR precepting bodies are Central Government (50% share) and Tyne and Wear Fire and Rescue Authority (1% share).

NNDR surpluses declared by the billing authority in relation to the Collection Fund are apportioned to the relevant precepting bodies in the subsequent financial year in their respective proportions. Deficits likewise are proportionately charged to the relevant precepting bodies in the following year.

The national code of practice followed by Local Authorities in England stipulates that a Collection Fund Income and Expenditure account is included in the Council's accounts. The Collection Fund balance sheet meanwhile is incorporated into the Council's consolidated balance sheet.

Notes to the Collection Fund Account

Note 1 – Income from Council Tax

Council Tax income derives from charges raised according to the value of residential properties, which have been classified into 9 valuation bands. Individual charges are calculated by estimating the amount of income required to be taken from the Collection Fund by the Council and dividing this by the Council Tax Base.

The basic amount of Council Tax for a Band D property, £1,345.73 for 2014/2015 (£1,345.73 for 2013/2014), is multiplied by the proportion specified for the particular band to give an individual amount due.

The Council Tax Base for 2014/2015 was 64,559 (64,094 in 2013/2014). The increase between financial years is as a result of a combination of new builds and a reduction in the level of Council Tax Discounts and Exemptions.

The Tax Base for 2014/2015 was approved by Cabinet meeting 15 January 2014 and was calculated as follows:

Band	Chargeable Dwellings	Proportion of Band D Tax	Equivalent Band D Dwellings
(A)	191	5/9	106
A	77,718	6/9	51,812
B	17,136	7/9	13,328
C	15,917	8/9	14,148
D	8,095	1	8,095
E	2,916	11/9	3,565
F	1,011	13/9	1,460
G	612	15/9	1,019
H	19	18/9	38
Net effect of premiums and discounts			(27,695)
			65,876
Anticipated Collection Rate			98%
Tax Base for the Calculation of Council Tax			64,559

Note 2 – Income from Business Ratepayers

The Council collects National Non-Domestic Rates (NNDR) for its area based on local rateable values provided by the Valuation Office Agency (VOA) multiplied by a uniform business rate set nationally by Central Government.

In 2013/2014, the administration of NNDR changed following the introduction of a business rates retention scheme which aims to give Councils a greater incentive to grow businesses but also increases the financial risk due to volatility and non-collection of rates. Instead of paying NNDR to a central pool, local authorities retain a proportion of the total collectable rates due; in the case of Sunderland the local share is 49%. The remainder is distributed to preceptors and in the case of Sunderland these are Central Government (50%) and the Tyne and Wear Fire and Rescue Service (1%).

The business rates share payable for 2014/2015 was estimated before the start of the financial year as £39.781m to Central Government, £0.796m to Tyne and Wear Fire and Rescue Authority and £39.002m to Sunderland Council. These sums have been paid in 2014/2015 and charged to the Collection Fund in year.

When the scheme was introduced, Central Government set a baseline level for each authority identifying the expected level of retained business rates and a top up or tariff amount to ensure that all

Notes to the Collection Fund Account

authorities receive their baseline amount. Tariffs due from authorities payable to Central Government are used to finance the top ups to those authorities who do not achieve their targeted baseline funding. In this respect Sunderland received a top up grant to the General Fund in 2014/2015 to the value of £35.274m.

The total income from business rates payers collected in 2014/2015 was £90.145m (£90.697m in 2013/2014). This sum includes £1.076m of transitional protection payments from ratepayers, which under Government regulation should have a neutral impact on the business rate retention scheme. This sum has to be repaid to Central Government and therefore increases payments to Central Government to £40.857m.

In addition to the top up, a 'safety net' figure is calculated at 92.5% of the baseline amount which ensures that authorities are protected to this level of Business rates income. The Council does not qualify for a safety net payment for 2014/2015.

In addition to the local management of business rates, authorities are expected to finance appeals made in respect of rateable values as defined by the VOA. As such, authorities are required to make a provision for amounts which will relate to the 2014/2015 financial year. The total provision charged to the Collection Fund for 2014/2015 has been calculated at £3.579m.

For 2014/2015, the total non-domestic rateable value at the year-end is £222.151m (£224.301m in 2013/2014). The national multipliers for 2014/2015 were 47.1p (46.2p for 2013/2014) for qualifying small businesses, and the standard multiplier being 48.2p (47.1p for 2013/2014) for all other businesses.

Note 3 – Council Tax/NNDR Bad Debt Provision

The Collection Fund provides for bad debts on arrears on the basis of prior years' experience, and a formulaic approach to outstanding debt levels.

Once all actions to recover outstanding debt have been exhausted, the Council will write off uncollectable debt in accordance with proper accounting practice. Most of these sums relate to bankruptcy, death and where all actions have failed to collect the debt over a period of years. It should be noted that the amounts written off were already included in the accounts as a provision for bad debts and as such have already been accounted for in a previous period.

The level of bad debt provision and the relevant preceptors share is as follows:

2013/2014				2014/2015		
Council Tax £'000	NNDR £'000	Total £'000		Council Tax £'000	NNDR £'000	Total £'000
4,865	4,826	9,691	Balance as at 1 April	5,394	5,641	11,035
(611)	(979)	(1,590)	Write Offs	(804)	(1,151)	(1,955)
1,140	1,794	2,934	Contribution to provision	889	1,174	2,063

347	0	347	Police and Crime Commissioner for Northumbria	352	0	352
5,394	5,641	11,035		5,479	5,664	11,143

Notes to the Collection Fund Account

Note 4 – Business Rate Provision for Valuation Appeals

The Collection Fund account also provides for provision for appeals against the rateable valuation set by the Valuation Office Agency (VOA) for amounts relating to the 2014/2015 financial year and any previous financial years. As part of the 2014 Autumn Statement, the Chancellor announced a number of Business Rates measures, including limiting the backdating of successful appeals to those made before 1 April 2015. The effect of these measures was a significant increase in appeals lodged during 2014/2015, and this is reflected in the increased provision held.

The level of appeals provision and the relevant preceptors share is as follows:

2013/2014 £'000		2014/2015 £'000
0	Balance as at 1 April	7,765
0	Use of provision	(3,862)
7,765	Contribution to provision	7,441
7,765	Balance as at 31 March	11,344
	Balance allocated to:	
3,805	Sunderland City Council	5,559
3,882	Central Government	5,672
78	Tyne and Wear Fire and Rescue Authority	113
7,765		11,344

Group Accounts Foreword

The Council's standard financial statements consider the Council only as a single entity thus a full picture of the Council's economic activity and financial position is not presented in the Council's single entity financial statements.

The Council delivers some of its activities through a number of wholly owned subsidiaries and a Joint Venture. Group financial statements are therefore produced to reflect the full extent of the Council's economic activity and financial position. The group accounts consolidate the results and balances of the Council with those organisations considered to be part of the group.

Sunderland Care & Support (Holding Company) Ltd

Sunderland Care and Support (Holding Company) Ltd with its subsidiary Sunderland Care and Support Ltd commenced trading on the 1st December 2013 for the provision of Adult Social Care Services for Sunderland City Council and was set up as a Local Authority Trading Company (LATC).

Sunderland Care and Support (Holding Company) Ltd is 100% owned by Sunderland City Council, with Sunderland Care and Support Ltd being owned fully by the Holding Company. Sunderland City Council contracts with Sunderland Care and Support (Holding Company) Ltd for the provision of Adult Social Care Services, the holding company then subcontracts to Sunderland Care and Support Ltd who deliver the following Adult Social Care Services:

- Reablement at home
- Farnborough Court Intermediate Care Centre
- Sunderland Telecare
- Community Equipment Service and Handyperson Service
- Day services
- Supported living schemes
- Registered residential services
- Short break services
- Independence at home (outreach) services
- Sunderland Shared Lives
- See and Solve Solutions
- Sunderland Home Improvement Agency

On the 1st January 2015 all the business and employees of Care and Support Sunderland Ltd were transferred into Sunderland Care and Support Ltd with the main reasons to allow a number of similar services supporting people with challenging behaviour to be grouped together, in addition there are opportunities for shared governance, management and support arrangements which will eradicate duplication and help deliver financial efficiencies.

The value of the contract for the period is £29.637m. The operating profit for the period, before tax, amounted to £0.689m for the two companies.

Both companies have a common board of directors appointed by the Sunderland City Council (as the shareholder of the holding company).

Care and Support Sunderland Ltd

Care and Support Sunderland Ltd commenced trading on the 7th October 2011 following Choices Care Ltd going into administration. The services delivered were residential and supported living schemes for people with Learning Disabilities, Autism and Challenging Behaviour. Sunderland City Council formed Care and Support Sunderland Ltd as a Local Authority Controlled Company (LATC), for the specific purpose of providing these services.

Care and Support Sunderland (Holding Company) was formed on 1st April 2013 and was owned 100% by Sunderland City Council with Care and Support Sunderland Ltd being fully owned by the Holding Company. Sunderland City Council had contracts with Care and Support Sunderland (Holding Company) Ltd for the provision of services. The holding company then subcontracted to Sunderland Care and Support Ltd to deliver the services.

Group Accounts Foreword

The company had provided twenty three small residential and supported living schemes managed by the company, with a contract valued at £5.892m for the nine month period to 31st December 2014. The company made a loss before tax of £1.053m in the period.

Both companies had a common board of directors appointed by the Council (as the shareholder of the holding company).

The company had no assets.

It was agreed by the Board during the financial period to transfer the business, assets and employees to Sunderland Care and Support Ltd and wind up Care and Support Sunderland Ltd and Care and Support Sunderland (Holding Company) Ltd. The transfer took place on 1 January 2015 with all activity from both companies ceasing on 31 December 2014.

Sunderland Live Ltd

In April 2013 Sunderland Live Ltd was formed from an already well-established Sunderland City Council events team to deliver a vibrant events programme that supports the local economy and increases Sunderland's profile. During 2014/15, Sunderland Live Ltd has delivered a total of 35 events in the city compared with 18 events the previous year, including the flagship Sunderland International Airshow which is now held over 3 days in July, helping to create vibrancy and things to see, do and take part in for residents.

The primary objectives of Sunderland Live Ltd are to:

- maintain consistently high public satisfaction for the existing events programme; and
- increase the provision of events within Sunderland in line with PLACE marketing objectives;
- maintain the existing events programme whilst reducing the on-going cost to the council.

The Company looks to reduce this on-going cost through deriving increased income from business partnerships, sponsorship, hospitality and other potential income streams whilst realising efficiencies in the way that the programme is delivered. Where appropriate the Company also looks to exploit opportunities to trade with third parties and these opportunities will allow the business to exploit the knowledge and skills of the Events Team to generate increased revenues for the entity and further reduce costs.

The value of the contract for the period was £1.292m.

Siglion LLP

On 7th November 2014 the Council and Carillion (Maple Oak) Limited formed a Limited Liability Partnership (LLP) (Siglion) with both parties owning 50% of the LLP. Siglion has a wholly owned subsidiary (Siglion Nominee Limited) and Siglion and Siglion Nominee Limited have formed two further LLPs. These are Siglion Investments LLP and Siglion Developments LLP. Igloo Regeneration Ltd has been appointed to deliver a range of services including development management in relation to a number of regeneration sites and following the acquisition from the Council of a number of investment properties including ground leases, retail properties, industrial properties and managed workspaces, strategic asset management. In consideration of this transaction, the Council received loan notes totalling £23.5m. These are split between Loan Note A (£5m) which is non-interest bearing and Loan Note B (£18.5m), which is interest bearing, with interest payable quarterly. Loan Note A is not anticipated to be repaid until Siglion is wound up, whilst Loan Note B is similarly not anticipated to be repaid until Siglion is wound up but may be repaid and hence the value reduce over time as investment properties are disposed of. Siglion's primary purpose is to assist in the delivery of economic and regeneration benefits to Sunderland through its objectives of:

- Improving the concentration of new economic activity in the city centre;
- Creating a city centre that supports such higher value job creation;
- Bringing dormant sites back into use;
- Offering a wider choice of housing to the market; and
- Positioning Sunderland as a place to invest.

Group Accounts Foreword

The draft accounts for the group for the period 7th November 2014 to 31st March 2015, shows a net profit before taxation of £0.504m and indicates that no dividend is proposed. The overall current net worth of the group is £10.504m.

Preparation of Group Accounts

The group accounts have been prepared in accordance with the 'Code of Practice on Local Authority Accounting in the United Kingdom 2014/2015' (based on International Financial Reporting Standards (IFRS)) known more commonly as the Code. The Code constitutes 'proper accounting practice' under the terms of the Local Government Act 2003 and the Accounts and Audit Regulations 2011.

In preparing the group accounts all statutory main group statements have been incorporated, along with specific notes where balances are materially different from those within the Council's accounts.

The financial statements required under the Code are detailed below:

1. **Movement in Reserves Statement (MiRS)**

This statement shows the movement in the year on the different reserves held by the group, analysed into 'usable reserves' (i.e. those that can be applied to fund expenditure or reduce local taxation) and other unusable reserves.

2. **Comprehensive Income and Expenditure Statement**

This reports the net cost for the year of all group functions and demonstrates how that cost has been met from general government grants and income from local taxpayers.

3. **Balance Sheet**

The Balance Sheet shows the value at the Balance Sheet date of the assets and liabilities recognised by the group. The net assets of the group (assets less liabilities) are matched by reserves held by the group.

4. **Cash Flow Statement**

The Cash Flow Statement shows the changes in cash and cash equivalents of the group during the reporting period.

5. **Notes to the Accounts**

Group Movement in Reserves Statement

This statement shows the movement in the year on the different reserves held by the group, analysed into 'usable reserves' (i.e. those that can be applied to fund expenditure or reduce local taxation) and 'unusable reserves'. The (Surplus) or Deficit on the Provision of Service line shows the true economic cost of providing the group's services, more detail of which is shown in the Comprehensive Income and Expenditure Statement. These are different to the statutory amounts required to be charged to the General Fund Balance. The Net (Increase) / Decrease before Transfers to / (from) earmarked Reserves line shows the statutory General Fund Balance before any discretionary transfers to or from earmarked reserves are undertaken by the group. The tables below show the details for both 2013/2014 and 2015/2015 as required by the Code of Accounting Practice.

Group Movement in Reserves Statement

	Council						Subsidiaries	Group
	General Fund Balance	Earmarked General Fund Reserves	Capital Receipts Reserve	Capital Grants Unapplied	Total Usable Reserves	Unusable Reserves	Council's share of group reserves	Total Group Reserves

Group Comprehensive Income and Expenditure Statement

This statement shows the accounting costs in the year of providing services in accordance with generally accepted accounting practice, rather than the amount to be funded from taxation. Authorities raise taxation to cover expenditure in accordance with regulations; this may be different from the accounting cost. The taxation position is shown in the Movement in Reserves Statement.

This statement includes an adjustment between the group accounts and the single entity accounts of £32.195m (£15.998m in 2013/2014). This figure represents the purchase and sale of services between all group members.

Group Comprehensive Income and Expenditure Statement

Reconciliation of the Single Entity Comprehensive Income and Expenditure Statement to the Group Comprehensive Income and Expenditure Statement

This table shows how the group entities have contributed to the overall (surplus) / deficit shown in the group income and expenditure account.

2013/2014 £'000		2014/2015 £'000
(111,852)	(Surplus) / deficit on the Council's single entity Income and Expenditure Account	63,516
	Add (surplus) / deficit attributable to subsidiaries:	
4,629	Sunderland Care and Support Ltd	4,222
284	Care and Support Sunderland Ltd	(1,184)
177	Sunderland Live Ltd	230
	Add (surplus) / deficit attributable to joint venture:	
0	Siglion LLP	(252)
(106,762)	Total	66,532

Group Balance Sheet

The Balance Sheet shows the value at the Balance Sheet date of the assets and liabilities recognised by the group. The net assets of the group (assets less liabilities) are matched by reserves held by the group. Reserves are reported in two categories. The first category of reserves are usable reserves, i.e. those reserves that the group may use to provide services, subject to the need to maintain a prudential level of reserves and any statutory limitations on their use (for example the Capital Receipts Reserve that may only be used to fund capital expenditure or repay debt). The second category of reserves is those that the group is not able to use to provide services. This category of reserves includes reserves that hold unrealised gains and losses (for example the Revaluation Reserve), where amounts would only become available to provide services if the assets are sold; and reserves that hold timing differences shown in the Movement in Reserves Statement line 'Adjustments between accounting basis and funding basis under regulations'.

(447,174)	Total Reserves		(380,642)

Group Cash Flow Statement

The Cash Flow Statement shows the changes in cash and cash equivalents of the group during the reporting period. The statement shows how the group generates and uses cash and cash equivalents by classifying cash flows as operating, investing and financing activities. The amount of net cash flows arising from operating activities is a key indicator of the extent to which the operations of the group are funded by way of taxation and grant income or from the recipients of services provided by the group. Investing activities represent the extent to which cash outflows have been made for resources which are intended to contribute towards the group's future service delivery. Cash flows arising from financing activities are useful in predicting claims on future cash flows by providers of capital (i.e. borrowing) to the group.

2013/2014 £'000		Notes	2014/2015 £'000
133,655	Net (surplus) or deficit on the provision of services		37,715
(170,757)	Adjust net (surplus) or deficit on the provision of services for non cash movement		(88,957)
24,562	Adjust for items included in the net (surplus) or deficit on the provision of services that are investing and financing activities		27,527
(12,540)	Net cash flows from operating activities		(23,715)
(33,586)	Investing activities	4	115,882
10,479	Financing activities	5	(39,908)
(35,647)	Net (increase) or decrease in cash and cash equivalents		52,259
23,897	Cash and cash equivalents at the beginning of the reporting period		59,544
59,544	Cash and cash equivalents at the end of the reporting period	2	7,285

Notes to the Group Financial Statements

Note 1 – Accounting Policies

The group accounting policies are specified within the Council only statement. However there are some slight divergences from these policies within the group as well as issues applicable to the subsidiary companies only. These are detailed below:

- **Deferred Tax**

Deferred tax is recognised in respect of an obligation to pay more tax in the future or a right to pay less tax in the future as at the Balance Sheet date. This represents differences between the company's taxable profits and its results as stated in the financial statement.

Deferred tax is measured at the average tax rates that are expected to apply in the periods in which timing differences are expected to be resolved, based on tax rates and laws that have been enacted or substantially enacted by the Balance Sheet date. Deferred tax is measured on a non-discounted basis.

- **Pensions**

The group accounts have been prepared incorporating the requirements of IAS19, Retirement Benefits, for the treatment of pension costs. IAS19 requires that pension costs are recorded in the year in which the benefit entitlements are earned by the employees rather than the year in which the pensions and the employer's contributions are actually paid. The Pension Reserve represents the net liability for future pension costs.

It should be noted that the Financial Statements for Care and Support Sunderland Ltd, Sunderland Care and Support Ltd and Sunderland Live Ltd have been prepared in accordance with FRS17, Accounting for Retirement Benefits, however, the financial position for these companies would not be significantly different under IAS19.

- **Group Transactions**

The Council both commissions services from and provides support services to the subsidiary companies. All transactions between members of the group have been treated as arm's length.

- **Consolidation of Subsidiaries**

Subsidiaries have been consolidated using the acquisition accounting basis. This is a full, line by line consolidation of the financial transactions and balances of the Council and its subsidiaries. To avoid overstating the figures within the group financial statements, all transactions and balances between members of the group (the Council and its subsidiaries) have been eliminated.

- **Consolidation of Joint Ventures**

Joint Ventures have been consolidated using the equity method. An investment is brought into the group balance sheet and adjusted by the Council's share in the joint venture's net asset movement. The Council's share of the joint venture's operating results for the year is included within the group income and expenditure account.

- **Capital Expenditure**

The de-minimus level for capital expenditure for the subsidiary companies is £5,000 which is lower than that of the Council.

- **Accounting Standards**

The accounts for the subsidiary companies have been prepared in accordance with UKGAAP, which is the overall body of regulation applicable to company accounts.

Notes to the Group Financial Statements

Note 2 – Group Cash and Cash Equivalents

The balance of cash and cash equivalents is made up of the following elements:

2013/2014 £'000		2014/2015 £'000
71,397	Cash and Cash Equivalents (in hand & bank)	25,998
(11,853)	Cash and Cash Equivalents (overdrawn)	(18,713)
59,544	Total Cash and Cash Equivalents	7,285

Note 3 – Group Cash Flow Statement – Operating Activities

The net cash flows for operating activities include the following items in respect of interest transactions according to the requirements of the code:

2013/2014 £'000		2014/2015 £'000
4,593	Interest received	3,837
(9,888)	Interest paid	(11,891)
433	Dividends received	0
(4,862)		(8,054)

Note 4 – Group Cash Flow Statement – Investing Activities

2013/2014 £'000		2014/2015 £'000
40,632	Purchase of property, plant and equipment, investment property and intangible assets	52,502
90,000	Purchase of short-term and long-term investments	180,000
0	Other payments for investing activities	484
(2,246)	Proceeds from the sale of property, plant and equipment, investment property and intangible assets	(638)
(145,000)	Proceeds from short-term and long-term investments	(90,000)
(16,972)	Other receipts from investing activities	(26,466)
(33,586)	Net cash flows from investing activities	115,882

Note 5 – Group Cash Flow Statement – Financing Activities

2013/2014 £'000		2014/2015 £'000
0	Cash receipts of short and long-term borrowing	(50,049)
(1,149)	Other receipts from financing activities	(5,689)
1,234	Cash payments for the reduction of the outstanding liabilities relating to finance leases and on-balance sheet PFI contracts	4,484
6,440	Repayments of short and long term borrowing	11,346
3,954	Other payments for financing activities	0
10,479	Net cash flows from financing activities	(39,908)

Note 6 – Group Short Term Debtors

2013/2014 £'000		2014/2015 £'000
16,007	Central government bodies	6,905
240	Other local authorities	1,620
1,515	NHS bodies	2,031
29,808	Other entities and individuals	34,811
47,570	Total	45,367

Notes to the Group Financial Statements

Note 7 – Group Short Term Creditors

2013/2014		2014/2015
£'000		£'000
(11,243)	Central government bodies	(14,484)
(3,760)	Other local authorities	(6,804)
(2,486)	NHS bodies	(2,324)
(32,215)	Other entities and individuals	(39,969)
(49,704)	Total	(63,581)

Note 8 – Group Reserves

Pensions Reserve

The accounts have been prepared incorporating the requirements of IAS19, Retirement Benefits, for the treatment of pension costs. IAS19 requires that pension costs are recorded in the year in which the benefit entitlements are earned by the employees rather than the year in which the pensions and the employer's contributions are actually paid. The Pension Reserve represents the net liability for future pension costs.

It should be noted that the Financial Statements for Care and Support Sunderland Ltd, Sunderland Care and Support Ltd and Sunderland Live Ltd have been prepared in accordance with FRS17, Accounting for Retirement Benefits, however, the financial position for these companies would not be significantly different under IAS19.

The Pensions Reserves within the subsidiary companies are subsets of the Profit and Loss Reserves for those companies and therefore are shown on the Balance Sheet within Usable Reserves. The Pension Reserve held by the Council is shown on the Balance Sheet under Unusable Reserves. The table below presents the Pension Reserve activity for each member of the group.

2013/2014		2014/2015				Total Group
		Council	CSSL	SCAS	SLIV	
Total Group		£'000	£'000	£'000	£'000	£'000
(640,704)	Balance at 1 April	(439,620)	(327)	(4,661)	(231)	(444,839)
207,562	Remeasurement of the net defined benefit liability/(asset)	(50,890)	(22)	(3,190)	(101)	(54,203)
(49,215)	Items relating to retirement benefits debited or credited to the Surplus or Deficit on the Provision of Services in the Comprehensive Income and Expenditure Statement	(40,490)	(432)	(4,190)	(174)	(45,286)
36,279	Employer's pensions contributions and direct payments to pensioners payable in the year	31,980	383	2,640	116	35,119
1,239	Less deferred tax offset against liability	0	0	0	78	78
0	Less adjustment for disposals	0	398	0	0	398
(444,839)	Balance at 31 March	(499,020)	0	(9,401)	(312)	(508,733)

Share Capital Reserve

One ordinary share of £1 has been allotted and fully paid for in Sunderland Live Ltd and two ordinary shares of £1 in Sunderland Care and Support Ltd. All companies in the group are ultimately owned 100% by the Council.

Notes to the Group Financial Statements

Note 9 – Group Nature and Extent of Risks Arising from Financial Instruments

The risks arising from financial instruments across the group are not materially different from those within the Council only statements.

Note 10 – Group Deferred Taxation

The provision for deferred taxation consists of the tax effect of a combination of timing differences and pension liabilities. The movement in deferred taxation provision during the year was:

2013/2014		2014/2015
£'000		£'000
0	Provision brought forward	1,334
0	Adjustment in respect of previous year	0
1,334	Profit and Loss account movement arising during the year	0
1,334	Provision to carry forward	1,334

Note 11 – Group Financing and Investment Income and Expenditure

2013/2014		2014/2015
£'000		£'000
9,888	Interest payable and similar charges	11,891
27,100	Net interest on the net defined benefit liability (asset)	20,033
(4,410)	Interest receivable and similar income	(3,837)
(578)	Surplus on Trading Undertakings	(646)
22	Deficit on Trading Undertakings	0
8,316	Income and expenditure in relation to investment properties and changes in their fair value	(802)
0	Impairment of investment in subsidiaries	1,048
40,338	Total	27,687

Note 12 – Defined Benefit Pension Schemes

Participation in Pension Schemes

As part of the terms and conditions of employment of its officers, the Council makes contributions towards the cost of post-employment benefits. Although these benefits will not actually be payable until employees retire, the council has a commitment to make the payments (for those benefits) and to disclose them at the time that employees earn their future entitlement.

The Council participates in two post-employment schemes:

- The Local Government Pension Scheme, administered locally by South Tyneside Council – this is a funded defined benefit final salary scheme, meaning that the Council and employees pay contributions into a fund, calculated at a level intended to balance the pensions liabilities with investment assets.
- Arrangements for the award of discretionary post-retirement benefits upon early retirement – this is an unfunded defined benefit arrangement, under which liabilities are recognised when awards are made. However, there are no investment assets built up to meet these pensions liabilities, and cash has to be generated to meet actual pension payments as they eventually fall due.

Employees of Care and Support Sunderland Ltd, Sunderland Care and Support Ltd and Sunderland Live Ltd are members of the Local Government Pension Scheme.

The Tyne and Wear pension scheme is operated under the regulatory framework for the Local Government Pension Scheme and the governance of the scheme is the responsibility of the pensions

Notes to the Group Financial Statements

committee of South Tyneside Council. Policy is determined in accordance with the Pension Fund Regulations.

The principal risks to the Council of the scheme are the longevity assumptions, statutory changes to the scheme, structural changes to the scheme (i.e. large-scale withdrawals from the scheme), changes to inflation, bond yields and the performance of the equity investments held by the scheme. These are mitigated to a certain extent by the statutory requirements to charge to the General Fund the amounts required by statute as described in the accounting policies note.

Discretionary Post-Retirement Benefits

Discretionary post-retirement benefits on early retirement are an unfunded defined benefit arrangement, under which liabilities are recognised when awards are made. There are no plan assets built up to meet these pension liabilities.

Transactions Relating to Post-employment Benefits

The Council recognises the cost of retirement benefits in the reported cost of services when they are earned by employees, rather than when the benefits are eventually paid as pensions. However, the charge the Council is required to make against council tax is based on the cash payable in the year, so the real cost of post-employment / retirement benefits is reversed out of the General Fund via the Movement in Reserves Statement and is presented within the Council's unusable reserves.

The subsidiary companies within the group do not raise Council Tax receipts and therefore the costs of post-employment / retirement benefits are not transferred to unusable reserves. These future liabilities are reflected within each company's Profit or Loss position on the Balance Sheet.

Glossary of Terms

Accrual

A sum included in the final accounts to cover income or expenditure attributable to an accounting period for goods received or work done, but for which payment has not been received/made by the end date of the period for which the accounts are prepared.

Accounting Policies

Those principles, bases, conventions, rules and practice applied by an entity that specify how the effects of transactions and other events are to be reflected in its financial statements through:

- recognising
- selecting measurement bases for, and
- presenting assets, liabilities, gains, losses and changes to reserves

Accounting policies do not include estimation techniques.

Accounting policies define the process whereby transactions and other events are reflected in financial statements. For example, an accounting policy for a particular type of expenditure may specify whether an asset or a loss is to be recognised; the basis on which it is to be measured; and where in the revenue account or balance sheet it is to be presented.

Acquired Operation

Operations comprise services and divisions of service as defined in CIPFA's Standard Classification of Income and Expenditure. Acquired operations are those operations of the local authority that are acquired in the period.

Actuarial Gains and Losses

For a defined benefit pension scheme, the changes in actuarial deficits or surpluses that arise because:

- events have not coincided with the actuarial assumptions made for the last valuation (experience gains or losses) or
- the actuarial assumptions have changed.

Agency Services

Services which are performed by or for other authorities or bodies, where the authority/body responsible for the service reimburses the authority carrying out the work for the cost of the work carried out.

Assets

Items of worth which are measurable in terms of money (value). Current assets are ones that may change in value on a day-to-day basis (e.g. Inventories). Non-current assets are tangible assets that yield benefit to the City Council and the services it provides for a period of more than one year.

Audit Commission

Is an independent body established by the 1982 Local Government Finance Act, which is responsible for appointing auditors to local authorities.

Balance Sheet

A statement of the recorded assets, liabilities and other balances at a specific date usually at the end of an accounting period.

Balances

The capital or revenue reserves of the Council made up of the accumulated surplus of income over expenditure on the General Fund or any other fund.

Capital Charge

The charge to the services for the use of non-current assets. As a minimum, the capital charge must cover the annual provision for depreciation, where appropriate, plus a capital financing charge determined by applying a specified notional rate of interest to the net amount at which the asset is included in the balance sheet.

Glossary of Terms

Capital Expenditure

Expenditure on the acquisition or provision of tangible assets which have a long term value to the City Council, e.g. land, purchase of existing buildings, erecting new buildings, purchase of furniture and equipment.

Capital Financing Charges

The annual charge to the Revenue Account in respect of the minimum revenue provision and interest on money borrowed together with leasing rentals.

Capital Financing Requirement

The capital financing requirement is one of the indicators that must be produced as part of the CIPFA prudential code. This measures the authority's underlying need to borrow for a capital purpose. In order to ensure that over the medium term net borrowing will only be for a capital purpose, the local authority should ensure that net external borrowing does not, except in the short term, exceed the total of capital financing requirement in the preceding year plus the estimates of any additional capital financing requirement for the current and the next two financial years.

Capital Grants

Grants received towards capital expenditure on a particular service or project.

Capital Receipts

Money received from the sale of land or other capital assets. A proportion of capital receipts must be paid to the government on housing assets held within a Housing Revenue Account. This is pooled and redistributed nationally. For non-housing authorities capital receipts are held by the authority and can be used to pay for any kind of capital expenditure, to repay debt, to meet premiums on early debt repayments and to meet liabilities under credit arrangements.

Class of Non-Current Assets

The classes of non-current assets required to be included in the accounting statements are:

Property, Plant and Equipment

- Council Dwellings
- Other land and buildings
- Vehicles, Plant, Furniture and Equipment
- Infrastructure assets
- Community Assets
- Surplus Assets

Investment Property

Heritage Assets

Further analysis of any of these items should be given if it is necessary to ensure fair presentation.

Code of Practice on Local Authority Accounting in the UK

'The Code' specifies the principles and practices of accounting to give a 'true and fair' view of the financial position and transactions of the Council.

Collection Fund

The fund maintained by the City Council into which are paid the amounts of Council Tax and Non-Domestic Rates which it collects and out of which are to be paid precepts issued by major precepting authorities, its own demands and payments into the NNDR pool.

Community Assets

These are assets that the City Council intends to hold in perpetuity, which have no determinable finite useful life and in addition may have restrictions on their disposal. Examples include parks, historical buildings not used for operational purposes, works of art, museum exhibits and statues.

Consistency

The concept that the accounting treatment of like items within an accounting period and from one period to the next is the same.

Glossary of Terms

Constructive Obligation

An obligation that derives from an authority's actions where:

- by an established pattern of past practice, published policies or a sufficiently specific current statement, the authority has indicated to other parties that it will accept certain responsibilities and
- as a result, the authority has created a valid expectation on the part of those other parties that it will discharge those responsibilities.

Contingent Asset

A contingent asset is a possible asset arising from past events whose existence will be confirmed only by the occurrence of one or more uncertain future events not wholly within the local authority's control.

Contingent Liability

A condition which exists at the balance sheet date, which may arise in the future but where the outcome will be confirmed only on the occurrence or non-occurrence of one or more future events.

Contingencies

Sums set aside as a provision for liabilities which may arise in the future but which cannot be determined in advance.

Corporate and Democratic Core

The corporate and democratic core comprises all activities which local authorities engage in specifically because they are elected, multi-purpose authorities. The cost of these activities are thus over and above those which would be incurred by a series of independent, single purpose, nominated bodies managing the same services. There is therefore no logical basis for apportioning these costs to services.

Council Tax

The form of local taxation operated from April 1993, based on properties.

Creditors

Amounts owed by the City Council for goods and services provided where payment has not been made at the date of the balance sheet.

Current Service Cost (Pensions)

The increase in the present value of a defined benefit scheme's liabilities expected to rise from employee service in the current period.

Curtailment

For a defined benefit scheme, an event that reduces the expected years of future service of present employees or reduces for a number of employees the accrual of defined benefits for some or all of their future service. Curtailments include:

- termination of employee's service earlier than expected, for example as a result of closing a factory or discontinuing a segment or a business, and
- termination of, or amendment to the terms of, a defined benefit scheme so that some or all future service by current employees will no longer qualify for benefits or will qualify for only reduced benefits.

Debt Outstanding

Amounts borrowed to finance capital expenditure that are still to be repaid.

Debtors

Sums of money due to the City Council but not received at the date of the balance sheet.

Defined Benefit Scheme

A pension or other retirement benefit scheme other than a defined contribution scheme. Usually, the scheme rules define the benefits independently of the contributions payable, and the benefits are not directly related to the investments of the scheme. The scheme may be funded or unfunded (including notionally funded).

Glossary of Terms

Defined Contribution Scheme

A pension or other retirement benefit scheme into which an employer pays regular contributions fixed as an amount or as a percentage of pay and will have no legal or constructive obligation to pay further contributions if the scheme does not have sufficient assets to pay all employee benefits relating to employee service in the current and prior periods.

Depreciation

The measure of the wearing out, consumption, or other reduction in the useful economic life of a non-current asset, whether arising from use, the passage of time or obsolescence through technological or other changes.

Direct Service Organisation (DSO)

The term is used to cover both Direct Labour Organisations (DLOs) established under the Local Government, Planning and Land Act 1980 and DSOs established under the Local Government Act 1988.

Discontinued Operations

Operations comprise services and divisions of service as defined in CIPFA's Standard Classification of Income and Expenditure. An operation should be classified as discontinued if all of the following conditions are met:

- the termination of the operation is completed either in the period or before the earlier of three months after the commencement of the subsequent period and the date on which the financial statements are approved;
- the activities related to the operation have ceased permanently;
- the termination of the operation has a material effect on the nature and focus of the local authority's operations and represents a material reduction in its provision of services resulting in either its withdrawal from a particular activity (whether a service or division of service or its provision in a specific geographical area) or from a material reduction in net expenditure in the local authority's continuing operations;
- the assets, liabilities, income and expenditure of operations and activities are clearly distinguishable physically, operationally and for financial reporting purposes.

Operations not satisfying all these conditions are classified as continuing.

Discretionary Benefits

Retirement benefits which the employer has no legal, contractual or constructive obligation to award and which are awarded under the authority's discretionary powers, such as The Local Government (Discretionary Payments) Regulations 1996, the Local Government (Discretionary Payments and Injury Benefits) (Scotland) Regulations 1998, or the Local Government (Discretionary Payments) Regulations (Northern Ireland) 2001.

Emoluments

All sums paid to or receivable by an employee and sums due by way of expenses allowances (as far as those sums are chargeable to UK income tax) and the money value of any other benefits received other than in cash. Pension contributions payable by either employer or employee are excluded.

Estimation Techniques

The methods adopted by an entity to arrive at estimated monetary amounts, corresponding to the measurement bases selected, for assets, liabilities, gain losses and changes to reserves.

Estimation techniques implement the measurement aspects of accounting policies. An accounting policy will specify the basis on which an item is to be measured: where there is uncertainty over the monetary amount corresponding to that basis, the amount will be arrived at by using an estimation technique. Estimation techniques include, for example:

- methods of depreciation, such as straight line and reducing balance, applied in the context of a particular measurement basis, used to estimate the proportion of the economic benefits of a tangible non-current asset consumed in a period.
- Different methods used to estimate the proportion of debts that will not be recovered, particularly where such methods consider a population as a whole rather than individual balances.

Glossary of Terms

Exceptional Items

Material items that derive from events or transactions that fall within the ordinary activities of the authority and which need to be disclosed separately by virtue of their size or incidence to give fair presentation of the accounts.

Expected Rate of Return on Pension Assets

For a funded defined benefit scheme, the average rate of return, including both income and changes in fair value but net of scheme expenses, expected over the remaining life of the related obligation on the actual assets held by the scheme.

Expenditure

Amounts paid by the City Council for goods received or services rendered of either a capital or revenue nature. This does not necessarily involve a cash payment - expenditure is deemed to have been incurred once the goods or services have been received, even if they have not yet been paid for (in which case the supplier is a creditor of the City Council).

Extraordinary Items

Material items, possessing a high degree of abnormality, which derive from events or transactions that fall outside the ordinary activities of the authority and which are not expected to recur. They do not include exceptional items nor do they include prior period items merely because they relate to a prior period.

Fair Value

The fair value of an asset is the price at which it could be exchanged in an arm's length transaction less, where applicable, any grants receivable towards the purchase or use of the asset.

Fees and Charges

Income arising from the provision of services, e.g. for the use of recreation facilities.

General Fund

This accounts for the services of the City Council except for the Collection Fund. The net cost is met by the Council Tax, Government Grants and National Non Domestic Rates.

Going Concern

The concept that the authority will remain in operational existence for the foreseeable future, in particular that the revenue accounts and balance sheet assume no intention to curtail significantly the scale of operations.

Government Grants

Assistance by government and inter-government agencies and similar bodies, whether local, national or international, in the form of cash transfers of assets to an authority in return for past or future compliance with certain conditions relating to the activities of the authority.

Impairment

A reduction in the value of a non-current asset below its carrying amount on the balance sheet.

Income

Amounts due to the City Council for goods supplied or services rendered of either a capital or a revenue nature. This does not necessarily involve a cash payment - income is deemed to have been earned once the goods or services have been supplied even if the payment has not been received (in which case the recipient is a debtor to the City Council).

Infrastructure Assets

These are inalienable assets; expenditure on which is recoverable only by continued use of the asset created.

Examples of such assets are highways, footpaths, bridges, water and drainage facilities.

Intangible Non-Current Assets

These are non-financial non-current assets, such as software licences, that do not have physical substance but are identifiable and are controlled through custody or legal rights.

Glossary of Terms

Interest Cost (Pension)

For a defined benefit scheme, the expected increase during the period is the present value of the scheme liabilities because the benefits are one period closer to settlement.

International Financial Reporting Standards (IFRS) / International Accounting Standards (IAS)

Standards issued by the International Accounting Standards Board (IASB) which present the Council's accounts in a consistent and comparable format with other organisations internationally.

Investments (Pension Fund)

The investments of the pension fund will be accounted for in the statements of that fund. However authorities are also required to disclose, as part of the disclosures relating to retirement benefits, the attributable share of pension scheme assets associated with their underlying obligations.

Investment Properties

Interest in land and/or buildings in respect of which construction work and development have been completed; and which is held for its investment potential, any rental income being negotiated at arm's length.

Investments (Non-Pensions Fund)

A long-term investment is an investment that is intended to be held for use on a continuing basis in the activities of the authority. Investments should be so classified only where an intention to hold the investment

for the long term can clearly be demonstrated or where there are restrictions as to the investor's ability to dispose of the investment.

Investments other than those in relation to the pension fund, that do not meet the above criteria should be classified as current assets.

Joint Ventures

A Joint Venture exists where the Council and another party exercise joint control over an entity with decisions relating to the organisation requiring unanimous consent by the parties sharing control.

Leasing

The method of financing the provision of various capital assets to discharge the City Council's functions outside normal borrowing procedures but within criteria laid down in the Local Authorities (Capital Finance) Regulations 1990. There are different types of leases available of which the following are most commonly used:

Finance Leases - are leases that transfer substantially all of the risks and rewards of ownership of a non-current asset to the lessee. Such a transfer of risks and rewards may be presumed to occur if, at the inception of the lease, the present value of the minimum lease payments, including any initial payment, amounts to substantially all of the fair value of the leased asset.

Operating Leases – are all leases other than a finance lease

Lender Option Borrower Option Loans (LOBO)

A LOBO is a type of loan instrument. The borrower borrows a principal sum for the duration of the loan period (typically 20 to 50 years), initially at a fixed interest rate. Periodically (typically every six months to 3 years), the lender has the ability to alter the interest rate. Should the lender make this offer, the borrower then has the option to continue with the instrument at the new rate or alternatively to terminate the agreement and pay back the principal sum with no other penalty.

Liabilities

Amounts due to individuals or organisations which will have to be paid at some time in the future. Current liabilities are usually payable within one year of the balance sheet date.

Liquid Resources

Glossary of Terms

Current asset investments that are readily disposable by the authority without disrupting its business and are either: readily convertible to known amounts of cash at or close to the carrying amount, or traded in an active market.

Loans Outstanding

The total amounts borrowed from external lenders for capital and temporary revenue purposes but not repaid at the balance sheet date.

Long Term Contracts

A contract entered into for the design, manufacture or construction of a single substantial asset or the provision of a service (or a combination of assets or services which together constitute a single project), where the time taken substantially to complete the contract is such that the contract activity falls into different accounting periods. Some contracts with a shorter duration than one year should be accounted for as long term contracts if they are sufficiently material to the activity of the period.

Minimum Revenue Provision

Is the minimum amount which must be charged to an authority's revenue account each year and set aside as a provision for credit liabilities, as required by the Local Government Act 1989.

National Non-Domestic Rate (NNDR)

With effect from April 1990 all non-domestic properties were revalued and the Government determines a national rate poundage every year which is applicable to all local authorities. Local authorities continue to collect the non-domestic rate but the proceeds are pooled and distributed by Central Government on the basis of an authority's adult population.

Net Book Value

The amount at which non-current assets are included in the balance sheet, that is their historical cost of current value less the cumulative amounts provided for depreciation.

Net Current Replacement Cost

The cost of replacing or recreating a particular asset in its existing condition and in its existing use, i.e. the cost of its replacement or of the nearest equivalent asset, adjusted to reflect the current condition of the existing asset.

Net Debt

The authority's borrowings less cash and liquid resources. Where cash and liquid resources exceed borrowings, reference should be to net funds rather than net debt.

Net Realisable Value

The open market value of the asset in its existing use (or open market value in the case of non-operational assets) less the expenses to be incurred in realising the asset.

Non-Operational Assets

Non-current assets held by a local authority but not directly occupied, used or consumed in the delivery of services. Examples of non-operational assets are investment properties and assets that are surplus to requirements, pending sale or redevelopment.

Operational Assets

Non-current assets held and occupied, used or consumed by the local authority in the direct delivery of those services for which it has either a statutory or discretionary responsibility.

Past Service Costs

For a defined benefit scheme, the increase in the present value of the scheme liabilities related to employee service in prior periods arising in the current period as a result of the introduction of, or improvement to, retirement benefits.

Post Balance Sheet Events

Glossary of Terms

Those events, both favourable and unfavourable, which occur between the balance sheet date and the date on which the Statement of Accounts is signed by the responsible financial officer.

Precept

The amount levied by various authorities (e.g. the Tyne and Wear Fire and Rescue Authority) which is collected by the Tyne and Wear Councils on their behalf.

Prior Period Adjustments

Those material adjustments applicable to prior periods arising from changes in accounting policies or from the correction of fundamental errors. A fundamental error is one that is of such significance as to destroy the validity of the financial statements. They do not include normal recurring corrections or adjustments of accounting estimates made in prior years.

Projected Unit Method

An accrued benefits valuation method in which the scheme liabilities make allowance for projected earnings. An accrued benefits valuation method is a valuation method in which the scheme liabilities at the valuation date relate to:

- the benefits for pensioners and deferred pensioners (i.e. individuals who have ceased to be active members but are entitled to benefits payable at a later date) and their dependants, allowing where appropriate for future increases and;
- the accrued benefits for members in service on the valuation date.

The accrued benefits are the benefits for service up to a given point in time, whether vested rights or not. Guidance on the projected unit method is given in the Guidance Note GN26 issued by the Faculty and Institute of Actuaries.

Provisions

These are sums set aside to meet liabilities or losses which it is anticipated will be incurred but where the amount and / or the timing of such costs is uncertain.

Private Finance Initiatives (PFI)

PFI's are methods of funding/acquiring assets such as schools, but the supplier of the building is usually an agreed contractor or bidder, usually over a 25 year term. The Council pays for the use of the asset by means of a unitary charge and can acquire the asset after this term if included in the terms of the contract. Up until this point the Council does not own the asset and simply pays for the use of the asset. Government grant is available to assist authorities who enter into these arrangements, however, known as PFI credits. These have a direct impact upon the level of government grant paid each year to help pay for the scheme.

Prudence

The concept that revenue is not anticipated but is recognised only when realised in the form of cash or of other assets, the ultimate cash realisation of which can be assessed with reasonable certainty.

Prudential Framework

One of the principal features of the Local Government Act 2003 was to provide the primary legislative requirements to introduce a new prudential regime for the control of Local Authority capital expenditure. The regime relies upon both secondary legislation in the form of regulations, and a prudential code which has been published by the Chartered Institute of Public Finance and Accountancy (CIPFA).

Under the prudential framework local authorities are free to borrow without specific government consent if they can afford to service the debt without extra government support. The basic principle is that authorities will be free to invest as long as their capital spending plans are affordable, sustainable and prudent. As a control mechanism to ensure this occurs all authorities must follow the prudential code published by CIPFA. This involves setting various prudential limits and indicators that must be approved by the Council before the start of the relevant financial year as part of their budget setting process.

Public Works Loan Board (PWLB)

Glossary of Terms

A Central Government agency, which lends money to Local Authorities at lower interest rates than those generally available from the private sector. Local authorities are able to borrow a proportion of their requirements to finance capital spending from this source.

Related Parties

Two or more parties are related parties when at any time during the financial period:

- one party has direct or indirect control of the other party; or
- the parties are subject to common control from the same source; or
- one party has influence over the financial and operational policies of the other party to an extent that the other party might be inhibited from pursuing at all times its own separate interests; or
- the parties, in entering a transaction, are subject to influence from the same source to such an extent that one of the parties to the transaction has subordinated its own separate interests.

Examples of related parties of an authority include:

- central government;
- local authorities and other bodies precepting or levying demands on the Council Tax;
- its subsidiary and associated companies;
- its joint ventures and joint venture partners;
- its members;
- its chief officers; and
- its pension fund.

Examples of related parties of a pension fund include its:

- administrating authority and its related parties;
- scheduled bodies and their related parties; and
- trustees and advisors.

These lists are not intended to be comprehensive.

For individuals identified as related parties, the following are also presumed to be related parties:

- members of the close family, or the same household; and
- partnerships, companies, trusts or other entities in which the individual, or a member of their close family or the same household, has a controlling interest.

Related Party Transaction

A related party transaction is the transfer of assets or liabilities or the performance of services by, to, or for, a related party irrespective of whether a charge is made. Examples of related party transactions include:

- the purchase, sale, lease, rental or hire of assets between related parties;
- the provision by a pension fund to a related party of assets or loans, irrespective of any direct economic benefit to the pension fund;
- the provision of a guarantee to a third party in relation to a liability or obligation of a related party;
- the provision of services to a related party, including the provision of pension fund administration services;
- transactions with individuals who are related parties of an authority or a pension fund, except those applicable to other members of the community or the pension fund, such as Council Tax, Rents and payable of benefits.

This list is not intended to be comprehensive.

The materiality of related party transactions should be judged not only in terms of their significance to the authority, but also in relation to its related party.

Renewals Accounting

Where renewals accounting is adopted, the level of annual expenditure required to maintain the operating capacity of the infrastructure asset is treated as depreciation charged for the period. Actual

Glossary of Terms

expenditure is capitalised as incurred. Renewals accounting may only be used for infrastructure assets.

Research and Development

Expenditure falling into one or more of the following broad categories:

- pure (or basic) research: experimental work undertaken primarily to acquire knowledge.
- applied research: original investigation undertaken to gain knowledge towards a specific practical objective.
- development: use of knowledge to produce new or substantially improved materials, devices, products or services, to install new processes or systems prior to the commencement of commercial production or commercial applications, or to improve substantially those already produced or installed.

Reserves

These are sums set aside to meet possible future costs where there is no certainty about whether or not the costs will actually be incurred.

Residual Value

The net realisable value of an asset at the end of its useful life. Residual values are based on prices prevailing at the date of the acquisition (or revaluation) of the asset and do not take account of expected future price changes.

Retirement Benefits

All forms of consideration given by an employer in exchange for services rendered by employees that are payable after completion of employment. Retirement benefits do not include termination benefits payable as a result of either:

- an employer's decision to terminate an employee's employment before the normal retirement date or
- an employee's decision to accept voluntary redundancy in exchange for those benefits, because these are not given in exchange for services rendered by employees.

Revenue Balances

These are the accumulated surpluses on the General Fund. They can be applied to reduce borrowing, reduce the Council Tax, or held to be applied in future years.

Revenue Contributions

The method of financing capital expenditure directly from revenue. The City Council may determine that certain capital schemes should be financed in this way or alternatively may include a prescribed sum in the revenue budget for this purpose.

Revenue Expenditure

Expenditure incurred on the day-to-day running of the City Council, the costs principally include employee expenses, capital financing charges and general running costs.

Revenue Expenditure Funded by Capital under Statute

Items of capital expenditure, which do not result in, or remain matched by, tangible non-current assets. Revenue Expenditure Funded by Capital under Statute is charged to revenue in the year in which the expenditure is incurred.

Revenue Support Grant (RSG)

A grant paid by Central Government to every Local Authority to help to finance its expenditure generally and not specific services. The grant helps to bridge the gap between Council Tax and NNDR income on one hand and the total assessment of the City Council's need to spend on the other. The payment of RSG attempts to ensure that differences in spending needs and resources between authorities are equalised, in order to permit each authority to support a standard level of spending.

Scheme Liabilities

Glossary of Terms

The liabilities of a defined benefit scheme for outgoings due after the valuation date. Scheme liabilities measured using the projected unit method reflect the benefits that the employer is committed to provide for service up to the valuation date.

SeRCOP

The CIPFA Service Reporting Code of Practice (SeRCOP) replaced the previous Best Value Accounting Code of Practice (BVACOP). SeRCOP applies to all Local Authorities from the 1 April 2012 for the preparation of budgets, performance indicators and Statement of Accounts. The aim of SeRCOP is to establish proper practice with regard to consistent financial reporting for services.

Settlement

An irrecoverable action that relieves the employer (or the defined benefit scheme) of the primary responsibility for a pension obligation and eliminates significant risks relating to the obligation and the assets used to effect the settlement. Settlements include:

- a lump-sum cash payment to scheme members in exchange for their rights to receive specified pension benefits;
- the purchase of an irrecoverable annuity contract sufficient to cover vested benefits; and
- the transfer of scheme assets and liabilities relating to a group of employees leaving the scheme.

Specific Grants

Government grants to Local Authorities in aid of particular services, e.g. magistrates court grant.

Stock / Inventories

Comprises the following categories:

- goods or other assets purchased for resale
- consumable goods
- raw materials and components purchased for incorporation into products for sale
- products and services in intermediate stages of completion
- long term contract balances
- finished goods

Subsidiaries

A subsidiary exists where the Council exercises control and gains benefits / exposure to risk arising from this control.

Supported Capital Expenditure

Government provides support for capital expenditure in one of two ways:

- Supported Capital Expenditure (Revenue);
- Supported Capital Expenditure (Capital).

The Supported Capital Expenditure (Revenue) is in effect revenue support through the Revenue Support Grant System for borrowing. The Supported Capital Expenditure (Capital) is a capital grant given by government.

Total Cost

The total cost of a service or activity includes all costs, which relate to the provision of the service (directly or bought in) or to the undertaking of the activity. Gross total cost includes employee costs, expenditure relating to premises and transport, supplies and services, third party payments, transfer payments, support services and capital charges. This includes an appropriate share of all support services and overheads, which need to be apportioned.

Trust Funds

Funds administered by the City Council on behalf of charitable organisations and / or specific organisations.

Unapportionable Central Overheads

These are overheads for which no user benefits and should not be apportioned to services.

Unsupported Borrowing

Glossary of Terms

Under the Prudential Framework, the facility to undertake what is known as 'unsupported borrowing' is available. This is borrowing to fund capital expenditure where no support or provision is made by the government to fund this borrowing. In deciding upon whether to undertake unsupported borrowing regard is required to be had to:

- the prudential indicators which are designed to assess whether capital investment needs are affordable, sustainable and prudent;
- the effect on the revenue budget of any additional costs incurred.

Useful Life

The period over which the authority will derive benefits from the use of a non-current asset.

Vested Rights

In relation to a defined benefit scheme, these are:

- for active members, benefits to which they would unconditionally be entitled on leaving the scheme;
- for deferred pensioners, their preserved benefits;
- for pensioners, pensions to which they are entitled.

Vested rights include where appropriate the related benefits for spouses or other dependants.
