Lending List Criteria

Counterparty Criteria

The Council takes into account not only the individual institution's credit ratings issued by all three credit rating agencies (Fitch, Moody's and Standard & Poor's), but also all available market data and intelligence, the level of government support and advice from its Treasury Management advisors.

Set out below are the criteria to be used in determining the level of funds that can be invested with each institution. Where an institution is rated differently by the rating agencies, the lowest rating will determine the level of investment.

| Fitch / S&P's Long Term Rating | Fitch Short Term Rating | S&P's Short Term Rating | Moody's Long Term Rating | Long Short Term Term | | <u>Maximum</u> Duration |

Where the UK Government holds a shareholding in an institution the UK Government's credit rating of **AA+** will be applied to that institution to determine the amount the Council can place with that institution for a maximum period of 2 years.

Where any banks / building societies have been a part of the UK Government's Credit Guarantee scheme (marked with * in the Approved Lending List), these counterparties will have an AA rating applied to them thus giving them a credit limit of £40 million for a maximum period of 364 days

The Code of Practice for Treasury Management in the Public Services recommends that consideration should also be given to country, sector, and group limits in addition to the individual limits set out above, these new limits are as follows:

Country Limit

It is proposed that only countries with a minimum sovereign credit rating of AA+ by all three rating agencies will be considered for inclusion on the Approved Lending List.

It is also proposed to set a total limit of £40 million which can be invested in other countries provided they meet the above criteria. A separate limit of £350 million will be applied to the United Kingdom and is based on the fact that the government has done and is willing to take action to protect the UK banking system.

| Country | Limit £m |
|---------|-------------|
| UK | 350 |
| Non UK | 40 |

Sector Limit

The Code recommends a limit be set for each sector in which the Council can place investments. These limits are set out below:

| Sector | Limit £m |
|-----------------------|-------------|
| Central Government | 350 |
| Local Government | 350 |
| UK Banks | 350 |
| UK Building Societies | 150 |
| Money Market Funds | 80 |
| Foreign Banks | 40 |

Group Limit

Where institutions are part of a group of companies e.g. Lloyds Banking Group, Santander and RBS, then total limit of investments that can be placed with that group of companies will be determined by the highest credit rating of a counterparty within that group, unless the government rating has been applied. This will apply provided that:

- the government's guarantee scheme is still in place;
- the UK continues to have a sovereign credit rating of **AA+**; and
- that market intelligence and professional advice is taken into account.

Proposed group limits are set out in Annex A
