In response to Councillor Butler's query, The representative of the Executive Director of City Development advised that the Ward was incorrectly identified as Castle Ward and was in fact within Southwick Ward. This would have no bearing on the Section 106 monies as this had been allocated "in the area" as part of the outline application therefore it would be for Members of the Wards to determine where this was spent.

The Chairman commented that one letter of representation had been received complaining of noise and queried if residents received any advice/details of who to complain to if needed. The agent of the applicant advised that there was a compound on site that had all the contact information needed for residents.

**19/02044/LP3 – Erection of new school building, together with new hard and soft landscaping, sustainable drainage features, car parking, access arrangements and boundary treatments – Former Maplewood School, Redcar Road, Sunderland**

The representative of the Executive Director of City Development outlined the proposal to Members of the Committee and the relevant material planning considerations against which the application had been assessed.

In response to Councillor Fagan's concern over the possibility of tailbacks of traffic onto Redcar Road with English Martyrs school opposite, the Highways Officer present advised that there was expectation for 10 to 12 vehicle drop offs so they were not anticipating any issues over traffic tailbacks as they also have a condition included for staggered school times.

Councillor Butler queried if there were parking restrictions on that road at present. The Highways Officer advised that there was a scheme in place for improvements to slow traffic/vehicles down which would help with pedestrian safety.

Councillor Butler commented that this land had remained desolate for many years and this proposal was a welcome development.
