

REPORT OF THE NORTHUMBRIA POLICE**1.0 Purpose of Report**

The following report provides a community update and key performance information in relation to Sunderland West area between the following periods (March 22- May 22)

2.0 Key Updates**Burglary Dwelling.**

Having just reviewed all the Burglary Dwelling crimes, Sunderland West are still performing very well in this crime category. In the last 2 weeks we have experienced 3 Burglaries, this includes 1 shed or garages ,1 domestic related Burglary and 1 attempt. There are no hot spot areas, and the crimes are wide spread over Sunderland West.

The teams have been very proactive and although the numbers of offences in Sunderland West are already low, they have reduced to only 1 burglary offence in the last 7 days.

Since the last period the team have arrested 4 offenders in relation to garage burglaries in the Sunderland South area which has resulted in a significant decrease.

Burglary Commercial

In the last 2 weeks we have experienced 4 commercial Burglaries. There has been a change in the locations which have focussed on shops as opposed to building sites which I reported on in the last period. The teams continue to work closely with partners and have targeted suspects which appears to have had the desired result in preventing further offending. The reality is that this is a low number in comparison with other sectors,

Theft from Motor vehicle.

Sunderland West has experienced 2 Theft from motor vehicles in the past two weeks which is an extremely low number. This is borne out by our year-to-date figure which shows a 5.3% reduction in all vehicle crime. I am aware however that within the City Vehicle crime is increasing and as such the team are working towards keeping our numbers low. Most of this needs to be concentrated on education and ensuring people lock their cars.

Anti-Social Behaviour

Sunderland West is performing very well in this area with a reduction year to date of We are currently tracking at similar levels to 2019/2020 which is where I would expect us to be. The team are working on our lighter nights operations and will be focusing on our hotspots and we have several city-wide initiatives on going at the moment which I am heavily involved in along with a number of varied partners.

Most significantly at present is the old Farringdon Hall Police station which along with McDonalds is a major hotspot for us and the TWFRS and results in numerous complaints. I am aware that the site is subject to planning and that will solve this issue.

Lighter Nights Campaign

The lighter Nights campaign is working very well, with some excellent partnership work between Police, Fire service, environmental services, Local authority and Gentoo. With the exception of North Moor lane we are seeing a reduction in disorder over this period..
